[illegible] return to Berlin [illegible] of praise for [illegible] maneuvers..

THOUSANDS IN PANIC.

Unveiling of Statue Brings Crush.

Mrs. Longworth Bares McKinley Monument to Check Surging Mass.

Women Faint and Several Are Injured Near the Speakers' Stand.

Exercises Postponed at Columbus Till Evening and Crowd Disperses.

[BY THE ASSOCIATED PRESS—P.M.]

COLUMBUS (O.) Sept. 14.—With a panic in a crowd estimated at 50,000 people surging about the stand erected in the Capitol grounds, frantic to secure a glimpse of Mrs. Nicholas Longworth, the President's daughter, the exercises arranged for the dedication of the McKinley monument were suddenly terminated this afternoon after the statue of the martyred President had been unveiled by Mrs. Longworth.

The action of the Committee on Arrangements was regarded as most prompt as the crowd was beyond control, and pressing of the women and children who were caught in the rush was rapidly working the crowd into a frenzy. Many women fainted and were carried out of the crowd by the police. Two were so badly hurt that they had to be removed in an ambulance. Both will recover.

Throughout the exciting scenes Mrs. Longworth remained cool and self-possessed, but afterward she said:

HER WORST EXPERIENCE.

"It was the worst crush I ever witnessed. I have seen nothing like it in my trip around the world."

Mr. and Mrs. Longworth had an exciting experience at the capital. From the speakers stand they went through a window overlooking the platform of the Governor's office, but they were scarcely inside, when the people began to surge through the doors. Then they attempted to reach an automobile which was awaiting for them on the street, but once outside they were caught in the swaying crowd. Finding no immediate avenue of escape they fought their way out of the Capitol grounds and across the broad street into the Outlook Building. There they remained until a carriage was secured, and the police cleared a way to it and they were driven to the Hotel Hartman. Later they took a train for Cincinnati.

POLICE POWERLESS.

The Committee on Arrangements had expected an enormous crowd on account of the presence of Mrs. Longworth, but in view of the solemnity and dignity of the occasion they believed the crowd easily would be kept in restraint. Under ordinary circumstances the police arrangement would have been adequate, but the officers found quickly that they were powerless to cope with the assemblage.

Tiers of seats had been constructed across the entire west front of the Capitol with the speakers' stand in the center. Four thousand tickets were issued for these seats to invited guests, and all were occupied.

The McKinley monument stands at the west entrance to the grounds, facing the street, and the crowd was packed into this space between the speakers' stand and the monument. The exercises were set for 2:30 and began promptly on time.

WOMEN SCREAM FOR HELP.

It was not until the band was playing the overture that danger of a panic became apparent. Suddenly women in the crowd next to the speakers' stand began to scream for help. Then several women fainted and were carried up to the stand. Rev. Dr. Washington Gladden rose to deliver the invocation, but he spoke only a few sentences when the roar of voices forced him to stop. Gov. Harris then attempted to quiet the crowd.

"Keep back," he shouted. "You're crushing these people in front to death."

The Governor's voice could not be heard twenty feet away, however, on account of the din. The commotion became so alarming that those on the stand asked Mrs. Longworth to come forward in the hope that a glimpse of her might satisfy the crowd. She came to the front of the stand and it was seen at once that something must be done and it was decided to unveil the statue at once.

Mrs. Longworth then pulled the ribbon attached to wires which drew the flags covering the statue aside. A man hoisted on another man's shoulders grasped the ribbons and the wire and they were quickly torn into fragments by relic-seekers.

ADDRESSES DEFERRED.

The crush was stopped for a few moments, but it soon was renewed and Mrs. Longworth again came to the front of the platform and bowed to the throng. In the meantime, however, the Committee on Arrangements had decided to defer the addresses until evening at Memorial Hall, and as soon as Mrs. Longworth retired the announcement was made.

People struggling for their lives in the crowd around the stand cheered, but a storm of hisses came from the people on the outside of the crowd who did not understand the situation.

The programme of exercises which had been arranged for the unveiling of the monument was carried out at Memorial Hall tonight. The immense place was filled with people. Gov. Harris presided.

The speakers were William R. Day, assistant justice of the supreme court of the United States; John W. Daniel, United States Senator from Virginia; Gen. Joseph McKay of Brooklyn, N. Y., national commander of the Union Veterans' Legion, and Gen. R. R. Brown, commander-in-chief of the G. A. R.

Mrs. McKinley, widow of the late President, was unable to attend the dedication exercises, but she was represented by her niece, Mrs. Ida McKinley Day.

Judge Day spoke of William McKinley as a type of the best possibilities of American life, of his exalted character and of his services to the country, concluding an eloquent address as follows:

"In the fullness of life, with a message of kindness yet on his lips, meeting the people who delighted to testify that affection and appreciation which was his highest reward for faithful and unremitting service, he was felled to the earth for no other offense than that in his person he represented the head of the nation and stood for liberty, regulated by law, and not for that unbridled license which knows no respect for the laws of God or man.

"He lives in the love of his countrymen. His memory grows brighter with the years; the nobleness of his life, the sublime heroism of his death shall never perish from the thoughts of men. He lives in the thousands of homes where comfort and domestic peace reflect the wisdom of his statesmanship. He lives in the beneficence of his example at every hearth where succeeding generations shall recount the strength and beauty of his character and tell again the story of his life."

FRICK OPENS "EAGLE ROCK."

HOUSE-WARMING IN MANSION COSTING $2,000,000.

For Nearly Three Years Work on the Estate in Massachusetts Has Been Pressed Forward—Swell Establishment on Grandiose Lines Is Completed.

[BY DIRECT WIRE TO THE TIMES.]

BEVERLY (Mass.) Sept. 14.—[Exclusive Dispatch.] Henry C. Frick, the Pittsburgh steel magnate, opened his $2,000,000 summer mansion, Pride's Crossing, which will be known hereafter as "Eagle Rock," the equal of which does not exist on the north shore. For nearly three years a hundred mechanics and laborers have been working on the estate, which covers fifty acres.

H. C. FRICK,
steel magnate, who has opened up his two-million-dollar summer mansion.

The mansion is almost hidden from the street by trees reached through an impressive forest.

Gigantic columns set off the main entrance. There are eighty-five rooms in the house. Lights are furnished by a private electric plant. In the house is an organ costing $50,000. The dining-room, 35 feet square, is finished entirely in mahogany. Even the pantry is solid mahogany.

The library, etc., is in French walnut, much fine Carrara and Brescia marble is used in the trimmings, artistically treated.

The feature is the swimming pool, into which ocean water can be pumped. There are well-equipped garages, a huge stable, gardeners' lodge, big conservatories, and special houses for roses, lilies, etc. The foundation is blasted out of solid rock.

EARTHQUAKES IN SICILY.

Many Houses Damaged and People Are Forced to Camp Out.

[BY DIRECT WIRE TO THE TIMES.]

PALERMO, Sept. 14.—[Exclusive Dispatch.] A number of earthquake shocks in this part of Sicily during the last forty-eight hours have damaged many houses, but thus far no one has been killed. The population of many towns is in alarm and people are camping in the open.

Trabia, Misilmeri, Belmont, Bancina and Bagheria are the principal villages affected. Troops have gone to Termini Imerese to guard the abandoned houses and three churches there have fallen.

TAFT GOES TO CUBA TO SETTLE IMBROGLIO.

Following Conference at Oyster Bay the President Announces Plans.

Secretary of War and Representative of State Department Will Leave for Key West Sunday, Thence Proceeding to Havana Aboard Warship—Annexation Not Included in Programme.

[BY DIRECT WIRE TO THE TIMES.]

OYSTER BAY, Sept. 14.—[Exclusive Dispatch.] President Roosevelt today took a first step leading to intervention by the United State in Cuba, unless there is a speedy termination of the turmoil and disorder which now prevail there.

This action was decided upon at the conference held at Sagamore Hill today, which was attended by the Secretary of War, Mr. Taft; the Secretary of the Navy, Mr. Bonaparte; the acting Secretary of State, Mr. Bacon, and the President's secretary, Mr. Loeb.

It occupied the greater part of the afternoon and evening, and when it ended late tonight the announcement was made that Mr. Taft and Mr. Bacon will proceed to Cuba as the President's special representatives, to investigate conditions there and render all the assistance in their power to end the turmoil into which it has been thrown.

TAFT TO LEAVE SUNDAY.

Mr. Taft and Mr. Bacon will leave by rail on Sunday. They will go direct to Key West, where they will board an American warship, which will land them in Havana.

President Roosevelt announced his intention in this matter in a letter to Señor Gonzales de Quesada, Cuban Minister at Washington. He ordered that the letter be made public at once; that a copy be placed in the hands of President Palma for his information, and expressed a strong desire tonight that the letter be widely published throughout the island of Cuba without delay.

President Roosevelt also expressed his regret that the imminence of the crisis in Cuba precludes the carrying out of his original programme of leaving the entire matter with Secretary Root upon his return from his South American trip.

PRESIDENT IS FIRM.

The President says that he will not shirk his duty under article 3 of the treaty of Cuba (the Platt amendment.) This confers upon the United States the right to intervene for the maintenance of a stable government, to protect life, property and liberty. He says that it is imperative for immediate cessation of hostilities, and also arrangement for permanent pacification of the island. This government is all ready to jump in and do anything that is necessary. The entire available navy, if necessary, will be used, and the army is now prepared to send men to Cuba and put down the insurrection if it is deemed advisable.

The President does not want annexation. It is believed here that if the people who furthered the revolution did so with the idea that the United State would annex the island, they are sadly mistaken. President Roosevelt will not encourage them.

TAFT IS HOPEFUL.

Secretary Taft said:

"There is little I can add to the President's letter. It was made public in order to give all the necessary information. I have never been in Cuba. I am going to get information for the President. How long I may have to stay I cannot tell. It is my hope that I may return speedily and that the disorders will have ended in a short time."

Secretary Taft and Mr. Bacon left Oyster Bay at 10 o'clock tonight to go straight to Washington.

PINO GUERRA,
Cuba's rebel leader.

El Morro Castle—The Harbor.

A Street Scene in Havana.

The Cuban metropolis: A contrast—Above, Morro Castle, filled with memories of Spanish Sovereignty; below, a business street of today, quickened by American commercial spirit as a result of the war of intervention and subsequent occupation by United States troops.

AUTO SCARES ETHEL'S HORSE.

[BY THE ASSOCIATED PRESS—P.M.]

OYSTER BAY, Sept. 14.—While driving from Sagamore Hill to Oyster Bay today Miss Ethel Roosevelt, daughter of the President, was thrown out of her buggy, her horse becoming frightened at an auto. Miss Ethel was unhurt and drove home.

GEN. CORBIN'S RETIREMENT.

WASHINGTON, Sept. 14.—Lieut.-Gen. Henry C. Corbin will be retired at noon tomorrow, having reached the age of 64. Gen. Corbin has had a long military career.

WARNING TO CUBA.

President Indites a Burning Letter.

Makes an Earnest Appeal to Island People to Keep Their Peace.

Says American Property Has Been Destroyed and Life Endangered.

Cries Shame Upon Men Who Are Responsible for Uprising.

[BY THE ASSOCIATED PRESS—P.M.]

OYSTER BAY, Sept. 14.—After a protracted conference with Secretary of War Taft, acting Secretary of State Bacon and Secretary of the Navy Bonaparte, President Roosevelt tonight addressed an important communication to Cuba and arranged to send Secretary Taft and Mr. Bacon to that island on Sunday to make a thorough investigation of conditions there and lend their influence to restore peace. The communication is addressed to the Cuban Minister to the United States, Señor Quesada.

It is an impassioned plea to Cuba to realize her responsibilities as a self-governing republic, and to restore peace in the island. Her attention is called in no uncertain language to the responsibility which the United States bears to the island and the certainty that that responsibility will necessarily be exercised should peace not be preserved.

PEACE IS MENACED.

The President says he has certain information that the peace of the island is now menaced and that American property has been destroyed.

PRESIDENT'S LETTER.

Following is the President's letter:

"OYSTER BAY, Sept. 14, 1906.

"My Dear Señor Quesada: In this crisis in the affairs of the republic of Cuba I write you, not merely because you are minister of the Cuban republic accredited to this government, but because you and I were intimately drawn together at the time when the United States intervened in the affairs of Cuba, with the result of making her an important nation.

"You know how sincere my affection and admiration and regard for Cuba are; you know that I never have done and never shall do anything in reference to Cuba save with such sincere regard for her welfare. You also know the pride I felt because it came to me, as President, to withdraw the American troops from the island of Cuba and officially to proclaim her independence and to wish her godspeed in her career as a free republic.

"I desire now, through you, to say a word of solemn warning to your people, whose well-wisher I am. For seven years Cuba has been in a condition of profound peace and of steadily growing prosperity. For four years this peace and prosperity have obtained under her own independent government. Her peace, prosperity and independence are now menaced, for of all possible evils that can befall Cuba, the worst is the evil of anarchy, into which civil war and revolutionary disturbances will assuredly throw her.

"Whoever is responsible for armed revolution and outrage, whoever is responsible in any way for the condition of affairs that now obtains, is an enemy of Cuba and doubly heavy is the responsibility of the man, affecting to be the especial champion of Cuban independence, who takes any step which will jeopardize that independence. For there is just one way in which Cuban independence can be secured and that is for the Cuban people to show their ability to continue in their path of peaceful and orderly progress.

"This nation asks nothing of Cuba save that it shall continue to develop as it has developed during the past seven years; that it shall know and practice the orderly liberty which will assuredly bring an ever-increasing measure of peace and prosperity to the beautiful Queen of the Antilles. Our intervention in Cuban affairs will only come if Cuba herself shows that she has fallen into the insurrectionary habit; that she lacks the self-restraint necessary to peaceful self-government and that her contending factions have plunged the country into anarchy.

"I solemnly adjure all Cuban patriots to band together to sink all differences and personal ambitions and to remember that the only way that they can preserve the independence of thir republic is to prevent the necessity of outside intervention by rescuing it from anarchy or civil war. I earnestly hope that this word of adjuration of mine, given in the name of the American people, the staunchest friends and well-wishers of Cuba that there are in all the world, will be taken as it is meant; will be seriously considered and will be acted upon in such manner that Cuba's per-

manent independence and success as a republic are assured.

WILL NOT SHIRK DUTY.

"Under the treaty with your government, I, as President of the United States, have a duty in this matter which I cannot shirk. The third article of that treaty approximately confers upon the United States the right to intervene for the maintenance in Cuba of government adequate for the protection of life, property and individual liberty. The treaty conferring this right is the supreme law of the land and furnishes me with the right and the means of fulfilling the obligations that I am under to protect American interests.

"The information at hand shows that the social bonds throughout the islands have been so relaxed that life, property and individual liberty are no longer safe. I have received authentic information of injury to and destruction of American property. It is in my judgment imperative for the sake of Cuba that there shall be an immediate cessation of hostilities, and some arrangement which will secure the permanent pacification of the island.

"I am sending to Havana the Secretary of War, Mr. Taft, and the Assistant Secretary of State, Mr. Bacon, as the special representatives of the government, who will render such assistance as is possible toward these ends. I had hoped that Mr. Root, the Secretary of State, could have stopped in Havana on his way from South America, but the seeming imminence of the crisis forbids further delay.

"Through you I desire in this way to communicate with the Cuban government and with the Cuban people, and accordingly I am sending you a copy of this letter to be presented to President Palma, and have also directed its immediate publication.

"Sincerely yours,

"THEODORE ROOSEVELT.

"Señor Don Gonzalo D'Quesada, the Cuban Minister."

CUBANS ARE ELATED.

GOOD NEWS IS CABLED.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Sept. 14.—Señor Don Arturo Pardo y Almeida, Chargé d'Affaires of the Cuban legation, when apprised by the Associated Press tonight that Secretary Taft and Assistant Secretary of State Bacon would leave Sunday for Cuba, immediately cabled the announcement to his government.

Speaking of the announcement, Señor Pardo made this statement to the Associated Press:

"I regard the visit of Secretary of War Taft and Assistant Secretary of State Bacon to Havana at this time as of the greatest importance. Knowing that the officials have the good of the Cuban government at heart, I feel assured that good will result from their visit to our capital. I shall immediately cable this news to my government."

TROOPS ARE READY.

POSTS RECEIVE ORDERS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Sept. 14.—[Exclusive Dispatch.] Some officials of the United States government would not be surprised to learn at any time that President Palma had abdicated and had been taken away from Havana on an American warship. The impression that he must ultimately step out is strengthened by press advices this afternoon from Cuba.

The general movement of naval forces to Cuba means more than the protection of American property interests. It means that the navy is being so disposed that a cordon of warships may be thrown around the island republic, importations of arms and munitions effectually stopped and the revolution thus checked pending adjustment of Cuban affairs. This was done by the United States in Santo Domingo at the request of President Morales of that country. If President Roosevelt desires to go farther the navy will be ready.

Orders have been issued for the breaking tomorrow of the great maneuver camps of the regular army at Mount Gretna, Pa.; Fort Riley, Kan., and Fort Benjamin Harrison, Ind. The original orders were that these camps should be maintained until September 30. The order to abandon them fifteen days earlier is explained by the desire of the War Department to be ready to meet the call of the President for an army of occupation, should a policy of intervention in Cuba be decreed.

STEP IS SERIOUS.

BONAPARTE'S STATEMENT.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Sept. 14.—[Exclusive Dispatch.] Charles J. Bonaparte, in an interview in this city today, said:

"I know absolutely nothing of the situation in Cuba so far as landing American sailors at Havana is concerned, except what I have learned from the press dispatches. Commander Colwell has undoubtedly reported to Washington upon his action. This report would be received by Admiral Converse and forwarded to me at Oyster Bay, where I shall examine it today.

"I learned of his move last night, but took no action whatever. I did not telephone to Washington and bring about the recall of the landed sailors to the Denver.

"When Commander Colwell was sent on his present mission, he received such instructions as an officer of the navy is ordinarily given when an important matter is involved. He received no specific instructions as to intervening in Cuban affairs."

"Something was left to his discretion?" was asked.

"Yes, but he, of course, would not take any serious step without first communicating with the department."

"Do you not consider the landing of armed soldiers, who took up a position commanding the main streets of the capital of Cuba, and which must be looked upon by many as the first move toward armed intervention by the United States in Cuban affairs, as a serious step?"

"Yes," Mr. Bonaparte replied slowly and thoughtfully, "it was serious."

"And discreet?"

"Well," and the Secretary smiled, "I can answer that question when I see his report."

Mr. Bonaparte planned to return to Washington as soon after the Oyster Bay conference as possible.

FIGHTING SUSPENDED; THREE DAYS' TRUCE.

[BY DIRECT WIRE TO THE TIMES.]

HAVANA, Sept. 14.—[Exclusive Dispatch.] A three days truce has been ordered in the Cuban revolution, as a direct result of the landing of American sailors from the cruiser Denver last evening. For the first time since the trouble began the government is treating with the rebels, and an agreement exists to suspend fighting.

Rebel diplomats saw Commander Colwell four times today. After learning that he was unable to act, as he had no authority from Washington, they agreed to meet delegates from the government to see if there was any way to arrange peace. There have been no aggressive hostilities meanwhile.

Both sides are jubilant at this result. The insurgents say the government's decision means Palma's defeat without fighting.

RAILS TORN UP.

PLANTERS ALARMED.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, Sept. 14.—[Exclusive Dispatch.] Private cable advices from Cienfuegos, Cuba, to E. F. Atkins, one of the three largest American owners of property in Santa Clara province, says there is no rail communication with Havana, as the insurgents are tearing up the rails and general destruction is feared.

Atkins says this is an important new phase of the insurrection, as the railroad is owned in England, and the revolutionists' action may be taken as intended to invite British intervention if Uncle Sam does not hurry up. American capital involved in Cuba totals $200,000,000, while English and German investments are very heavy. Spanish investments exceed all others.

Depredations on American property so far have been confined to seizures of cattle, horses, feed and provisions.

FILIBUSTERING FEARED.

VESSELS ARE WATCHED.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Sept. 14.—That the United States government purposes to scrutinize closely all shipments of firearms, ammunition and munitions of war from this port to the West Indies, Mexico, Central and South American ports, primarily to prevent filibustering of the Cuban insurgents and to insure compliance with existing neutrality laws, became evident today, when a special order on the matter was issued by Nevada N. Stranahan, collector at the port of New York.

The order precludes any clearances from this date to vessels bound for ports such as have been mentioned until fully verified manifests shall have been filed with the collector or until the captains or agents of such vessels have taken oath whether arms or munitions of war are on board their vessels. This order, it is explained by the customs officials, is not intended to prevent all shipments of war supplies to the ports cited, but it is intended to prevent consignments of them to irresponsible parties who might use them against their respective governments.

READY TO ACT.

WARSHIPS GET ORDERS.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Sept. 14.—Having done everything in the way of preparation for eventualities in Cuba which prudence and experience could suggest, the officials in Washington who are temporarily acting as heads of the military branches of the government today did nothing more than await developments and watch the execution of the plans they had already formulated.

There was no cessation of the activities of the subordinate officers who were charged with the execution of the details of the plan. Within a short time an effective fleet of eight naval vessels could surround the island of Cuba and they would be well manned by marine contingents.

In addition to the Denver, now at Havana, the Des Moines is already crossing the Florida straits from Key West for that port; the Marietta is probably at Cienfuegos; the Dixie, with 300 marines on board, is making all haste for the Cuban capital, while the Tacoma is about to sail for Cuba from Norfolk, to be followed tomorrow by the Cleveland and the Newark at the same port and the Minneapolis at League Island are taking on stores with all speed preparatory to sailing orders. Meanwhile the marine corps is in perfect readiness and expects to be able to place 2000 marines aboard ship at a few hours' notice, most of the men being at League Island, New York, and Norfolk.

SKIRMISH AT ZAZA.

RURAL GUARDS ATTACKED.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Sept. 14.—A dispatch from the American Charge d'Affaires at Havana, Mr. Sleeper, says it is reported that 300 insurgents attacked the rural guards on the morning of the 12th at Zaza, Santa Clara Province, and that the government lost eighteen men, while the loss of the insurgents is not known. The government forces retreated to Sancti Spiritus. Mr. Sleeper adds that a rumor is current of an uprising in Camaguey.

The postal service between Santiago and Havana is interrupted. Mr. Sleeper's report is based on a telegram received from the American Consul at Santiago on the afternoon of September 13.

Another dispatch confirms the reports of the destruction of the sugar plantations near Cienfuegos and of the destruction of the railroad bridges and buildings. It also states that no traffic is going on the Cuban Central, Western or United Cuban railroads. The Governor of Santa Clara Province has reported that Santa Clara is threatened by the rebels.

The Navy Department has not yet been informed of the arrival of the Marietta at Cienfuegos.

FOUR NEBRASKANS KILLED IN STORM.

[BY THE ASSOCIATED PRESS—P.M.]

TECUMSEH (Neb.) Sept. 14.—Two violent and seemingly distinct storms visited Johnson county this afternoon, resulting in the death of four persons, fatal injury of two and painful injury of five others. The dead:

O. A. GENEL, aged 40; leaves wife and five children.

AUGUST ZEMAN, aged 45; leaves wife and three children.

ROY CARMINE, boy of 17.

GEORGE KOEHLER, school boy of 14.

The first three were killed by lightning near the town of Elm Creek. A party of thrashers were at work on the farm of Henry Walthers when a rain and electric storm came up.

Four of the men crawled under the thrashing machine which was shattered by a lightning bolt and three were killed instantly. Henry Walthers, Jr., was badly shocked and burned, but probably will recover.

The second storm, a tornado in violence, swept the country district ten miles west of Tecumseh, demolishing a schoolhouse, killing the Koehler boy, seriously injuring two other school children and inflicting injuries on four other school children.

Mrs. Barns's windmill was blown down but there have been no further reports of deaths or injuries.

There was a very heavy fall of rain over the country.

OTHER TOWN FEELS IT.

[BY THE ASSOCIATED PRESS—P.M.]

NELSON (Neb.) Sept. 14.—The tail of a tornado struck Nelson this evening, killing some stock and doing considerable property damage, but injuring no one so far as known. The windows on the south side of the High School building were blown in, causing a panic among school pupils. Barns, outhouses and mindmills were leveled all over town.

ARREST FIVE FOR FORGERY SWINDLE.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Sept. 14.—[Exclusive Dispatch.] A remarkable story of an alleged swindle, which the police say extended to many cities in America and to England, was disclosed today.

The exposé followed the arrest of five men, who are charged by Detective Wooldridge and John Hill, Jr., with being implicated in the fraud. These persons are Chester A. Broughn, broker; S. L. Cunningham, C. F. McGuire, Geo. F. Johnson, Alvin A. Hessley.

The list of victims is said to include a number of Chicago business houses, banks and individuals, and large concerns in other cities.

USE OF BOGUS NOTES.

The five men arrested and a number of confederates are said to have used bogus notes in their operations in Chicago. To carry on their scheme, the men named are alleged to have used a number of corporations with high-sounding names.

Hill and Wooldridge declare that these securities are practically worthless, and that the supposed companies have little more than a paper existence.

In the last month complaints have been received by Chief of Police Collins against forgers. They are said to be the cleverest men ever operating in this city.

SWINDLERS BECOME RECKLESS.

It is said that the passing of forged papers became so easy that the swindlers became reckless, and this led to their arrest. All were stylishly dressed. They would drive up to a bank in a large touring car, it is alleged, and one of their number would enter. He would present a check to the teller and so perfect was the signature that the money was quickly forthcoming. In several cases when the swindler was questioned one of his companions went in and identified him.

At one bank the forgers secured $500; no trouble was experienced, and other banking firms were swindled in a similar manner.

The men are said to have spent money lavishly, and in their set were looked upon as millionaires. It is probable that the sums secured by the forgers will amount to $10,000, and may go even higher.

THAW WANTS SPEEDY TRIAL.

Counsel Gives Notice of Motion to Take the Case to the Supreme Court of New York.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Sept. 14.—[Exclusive Dispatch.] Notice of a motion was served on Asst. Dist.-Atty. Garvan, this afternoon, by counsel for Harry K. Thaw, that, Monday, September 24, in Part 1 of the Supreme Court, they would make a motion for the removal of the indictment for murder against Thaw from the Court of General Sessions to the Supreme Court. Accompanying the notice of motion are two affidavits, one by Clifford W. Hartridge to the effect that his client wants a speedy trial because the case has caused widespread discussion, the second is by John B. Gleason, and states that Dist.-Atty. Jerome recently was informed that, owing to the large number of cases on the calendar, Thaw would not be tried until the middle of November.

The District Attorney's office probably will not oppose the motion.

Two new lawyers have been retained by Harry Thaw. They are John H. Iselin and Howard S. Gans. Iselin announced that he and his partner, Gans, who formerly was Jerome's chief of staff, were taken into the case with the consent and approval of Hartridge.

Iselin said that David P. Watson, a Pittsburgh lawyer, who had made a name for himself as an expounder of the "unwritten law," would be retained as an advisory counsel.

MANY ARRESTS MADE.

ODESSA, Sept. 14.—In consequence of anarchistic threats to destroy all official buildings here with bombs the military guards today were doubled. The authorities are showing vigilance in baffling the attempts of the "Black Hundreds," to stir up attacks on Jews. The political arrests average 150 a day.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Sept. 14.—[Exclusive Dispatch.] Jack Frost visited the Wisconsin cranberry marshes this morning, but timely warning had been given the growers to flood the lowlands and avert serious damage. In the affected district, the temperature went as low as 28 degs. during the early hours. In Chicago the temperature varied only five degrees, the maximum being 65 degs and minimum 60 degs. PICTURE HATS FOR MEN.

"Picture hats" for men was the rallying cry of Mme. President Hunt in her address before the National Milliners' Association today. "Give the poor dears a chance to get rid of these horrible silk tiles, and those atrocious derbies," said Mme. Hunt. "Why, I know men who would be positively handsome under a big picture hat, or in one of those new Empress Josephines."

CONDUCTOR BALKS ROBBERS.

[BY DIRECT WIRE TO THE TIMES.]

PEORIA (Ill.) Sept. 14.—[Exclusive Dispatch.] A bold attempt was made, late tonight, by three masked bandits to hold up a Rock Island passenger train, just outside the city limits. The train was stopped by a pile of ties on the track, and three masked robbers of youthful appearance entered the smoker, two at the front and one at the rear of the car. Conductor Robert Murray met the two men at the front door, and disarmed one, taking his revolver. The robbers then jumped from the car and escaped. Conductor Murray received a severe cut over the eye, and was momentarily dazed, but kept up his fight.

EX-MAYOR LORD DIES POOR.

[BY DIRECT WIRE TO THE TIMES.]

ELGIN (Ill.) Sept. 14.—[Exclusive Dispatch.] George P. Lord, ex-Mayor, philanthropist, pioneer dairyman of Illinois, and Elgin's most public-spirited citizen, is dead, after a prolonged illness. He was reputed to be worth $1,000,000 two years ago. Lord died practically a poor man, having liberally endowed the Elgin Academy of Northwestern University, Elgin, Y.M.C.A., donated two handsome parks to the city, besides giving up his old homestead and a large sum of money for the Old People's Home of Elgin.

DUCKSHOT PEPPERS GUARDSMEN

[BY DIRECT WIRE TO THE TIMES.]

WATERLOO (Ill.) Sept. 14.—[Exclusive Dispatch.] Capt. Whipple and three privates of the Vinton Company, Iowa National Guard, were peppered with duckshot during a sham battle at the Grundy Center Fair, this afternoon. It is alleged by some members of the company that the shooting was intentional. The officers claim it was an accident, although they cannot account for the presence of loaded cartridges among the blanks.

FRANTZEN TO SHOW CRIME OF HERING.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Sept. 14.—[Exclusive Dispatch.] While the police were excitedly seeking a clew that would lead to the arrest of Walter Frantzen, former employé of the Milwaukee Avenue State Bank, indicted by the grand jury on the charge of embezzlement, information was received by the State's Attorney's office that Frantzen was in the vicinity of Chicago, and would surrender to the authorities as soon as the indictment against him was returned by the grand jury. Coupled with this assurance was the statement that Frantzen was possessed of evidence that would clear himself of the charge, and show that Cashier Henry Hering was, in reality, the man who made away with the sum of $34,000 mentioned in the indictment.

ON THE RACING CIRCUIT.

Frantzen is said by Theodore Stensland to have been in league with Hering to loot the bank and took advantage of the fact that Paul O. Stensland was so deeply involved in dangerous business ventures that he did not dare to interfere. Shortly after the transaction which is claimed by Hering to have netted Frantzen the sum of $68,000, Hering was made cashier of the bank, and Frantzen went on the racing circuit with a string of horses. Theodore Stensland and several of the employés of the bank also charge Frantzen with playing a prominent part in the wholesale theft of the bank's funds.

SOLD HIS STRING.

After touring the Pacific Coast for some time with his race horses, Frantzen found that the race track was not the gilded path to wealth that it was pictured, and, selling his horses, he went to New York.

After the crash of the Milwaukee Avenue State Bank, when accusations were flying thick and fast against all who had been in any way connected with the institution, Frantzen fled from New York.

FUTURE PROSECUTION.

State's Attorney Healy returned from his vacation in the East today, and practically admitted that Theodore Stensland had been granted immunity by the present grand jury in order to induce his father to return to Chicago without resistance. He also intimated that a future grand jury would probably indict Theodore Stensland.

HOP PICKERS IN WRECK.

Special Train Collides With Freight, Head-on.

Sonoma Fathers' Club Is in Arms Against Teacher.

Wants Him Dismissed for Alleged Misconduct.

[BY THE ASSOCIATED PRESS—P.M.]

PETALUMA, Sept. 14.—A special train of six coaches loaded with hop pickers returning from the fields in the north was run into by a freight train near this city this afternoon. The trains came together with such force that the front ends of both were completely demolished.

A few of the passengers were injured, but none seriously. Mrs. Ella Hutchins, on her way to San Francisco, and Mrs. Kerwin were badly bruised. Willam Newell was hurt about the head. Harry Becheel of San Francisco was injured in the groin.

Several women fainted on learning that a regular passenger train was coming behind in five minutes. A messenger was sent back to warn the regular train.

GOLDFIELD AT PEACE AGAIN.

MINERS WILL GO BACK TO WORK AS RESULT OF CONFERENCE.

Joint Committee Returns from Tonopah in Automobile and Announcement of Settlement of the Labor Trouble Is Made—Details Reserved Until Work Is Resumed.

[BY THE ASSOCIATED PRESS—P.M.]

GOLDFIELD (Nev.) Sept. 14.—The labor difficulty at Goldfield is settled, the miners who have been idle for several days will resume operations in the morning. At 5:30 o'clock this evening the tooting of an automobile in Goldfield announced the return of the joint committee of the mine owners and union miners, which had been at Tonopah since yesterday afternoon. It was not long before the automobile was surrounded by hundreds of anxious citizens and miners, eager for any news that might be given out.

George Wingfield stated that the matters had been adjusted and President Gough announced to the miners that they were to prepare for work at once, as the mines would be open and ready for their old corps of miners by the morning shift. A cheer went up that was almost deafening, and it was taken up block by block until it reached from one end of town to the other.

Neither George Wingfield nor President Gough would give out the particulars of the settlement at this time. They will report to the bodies they represent first. However, the settlement is said to be satisfactory to both.

DEPOSITORS CALMED.

BANK RUN FIZZLES OUT.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Sept. 14.—The run on the Hibernia Bank is about over. Though the line before the bank was almost as long today as it was yesterday many of the people in it were there to draw small sums of money. They are now calling for the full amount of their deposits. Though the rumors that have been circulated concerning the institution have been unfounding and some depositors who came to the belief that their money was lost left it in the bank when told they could have it.

The bank officials have as yet been unable to trace definitely the source of the rumors that started the run. When asked if he would have the matter taken up the matter of the alleged conspiracy behind the run President Joseph S. Tobin declared that he would do nothing but pay off. "The money is here for everybody who wants it; I only regret that we cannot pay off faster. We have our suspicions as to who is behind this, but are not ready to act against them."

SPIRITUALISTS' TEST CASE.

MEDIUM TRIES THE COURTS.

[BY DIRECT WIRE TO THE TIMES.]

SEATTLE, Sept. 14.—[Exclusive Dispatch.] Stella A. Ross, a spiritualist, this morning granted a restraining order by Judge Griffin of the Superior Court preventing Mayor Moore and Chief of Police from interfering with her practice of spiritualistic mediums.

Mayor is called to appear October 4 and show cause why a permanent injunction should not be issued.

It is a test case, by which Stella Ross hopes to prove that the action of the Mayor and Chief of Police in forbidding the practice of such teachings as a business is not legally justifiable.

The complaint gives an exhaustive description of spiritualism and of its benefits. It also contains allegations of the efforts of several detectives to entrap the plaintiff and to manufacture false evidence against her for use in the criminal court.

TROLLEY TO YOSEMITE.

ENGINEERS FAVOR PROJECT.

[BY THE ASSOCIATED PRESS—P.M.]

FRESNO, Sept. 14.—Civil Engineer Newman and A. G. Wiston have returned from a reconnoissance trip over part of the proposed electric railroad from Fresno to the Yosemite Valley. Newman was sent out by the Fresno interests to report on the matter, and he stated that the undertaking was feasible and he was strongly of opinion that the Wawona way was the best route to the valley. He will report favorably on the same and would return in a week to file the permanent survey.

FATHERS' CLUB RAMPANT.

CONFERENCE REPORTS READ.

[BY THE ASSOCIATED PRESS—A.M.]

SAN JOSE, Sept. 14.—The Methodist California conference of the Methodist Episcopal Church today was the advancement of A. J. Kennedy, R. L. Rowe, Amen Jung, and H. H. Buckner to the four-year class.

The following were graduated and elected to be ordained elders: G. A. Reader, David Dalston, E. H. Smith, Wilfred Kent, F. A. Lamb and O. Kamuro.

The Memorial Committee was instructed to prepare a memoir of Bishop S. M. Merrill. Rev. W. S. Mathew, presiding elder of the San Francisco district, and Rev. John Kirby of the San José district, read encouraging reports from their respective districts.

SLOPE BRIEFS.

Water for Sunnyvale.

SAN JOSE, Sept. 14.—Articles of incorporation of the Sunny Vale Water Company to provide water for Sunnyvale and vicinity, were filed today, the capital stock being $100,000.

Fatal Fire at San Luis Obispo.

SAN LUIS OBISPO, Sept. 14.—J. Simas was perhaps fatally burned this morning, and but for the heroic rescue by Oscar Lowenthal of San Francisco would have been roasted alive during a fire caused by the explosion of a gasoline stove in the tailor shop of Patrick Hughes.

Junta President Deported.

EL PASO (Tex.) Sept. 14.—The Nogales Times says that Abram José Salcido, president of the Douglas junta of Mexican revolutionists, has been turned over by United States Immigration Inspector Webb at that place to the Mexican authorities and taken to Hermosillo.

Lumber Falls Upon Workman.

SAN FRANCISCO, Sept. 14.—David Sheehan of Fruitvale received injuries yesterday that may result fatally. He is employed by the Harmon Lumber Company at First and Brannan streets, where a pile of lumber toppled over upon him.

Not Guilty of Murder.

SAN FRANCISCO, Sept. 14.—The jury in the case of Jacob H. Steinman, charged with the murder of Joseph Meyers in Columbia Square on the night of April 19, rendered a verdict of not guilty last night after deliberating fifty minutes.

Fires at Chinese Camp.

CHINESE CAMP, Sept. 14.—Two fires in quick succession early this morning caused considerable loss. The Masonic and Knights of Pythias Hall, the buildings of Morris Bros. and A. W. Brugh, containing hay, stages and other vehicles, and the contents of the office of Dr. Stratton were burned.

Parting Ropes Bring Death.

PORTLAND, Sept. 14.—A special dispatch to the Oregonian from the Dalles, Or., says: By the parting of ropes attached to a pile driver, which was being moved on a high trestle near Lyle today, William Williams, engineer of a bridge crew, is dead and four of his assistants seriously injured.

Bank Clearings Increase.

SAN FRANCISCO, Sept. 14.—The bank clearings of San Francisco continue to show good increases over those of last year. According to data gathered by the California Promotion Company, the clearings of San Francisco for the week ending Thursday noon, September 13, amounted to $40,036,972.95.

Fighting for Life.

SACRAMENTO, Sept. 14.—Strenuous efforts are being put forth to prevent Adolph Weber's death sentence being commuted to life imprisonment. Atty.-Gen. Webb, Dist.-Atty. K. P. Robinson and Sheriff Charles Keena of Placer county and Detective Charles H. Reimer were before Gov. Pardee this afternoon in opposition to any show of clemency.

Tries to Kill Judge.

SAN FRANCISCO, Sept. 14.—An attempt on the life of Judge Carroll Cook was made yesterday by James Sutton, who is on trial for robbing former Coroner T. B. W. Leland. The attack was made in Judge Cook's courtroom just after Sutton had been examined as to his sanity. This morning Sutton was taken to the Emergency Hospital, where he will be held pending an examination as to the status of his head.

Oakland Carmen Treated.

OAKLAND, Sept. 14.—Beginning with yesterday the conductors and motormen of the Oakland Traction Company and the conductors, motormen and gatemen of the San Francisco, Oakland and San José Railway, known as the Key Route, were given an increase of 3 cents an hour by the corporations. It is estimated that the raise in wages of the carmen means a joint increase of $3500 a month.

Oregon Roads Under Fire.

PORTLAND, Sept. 14.—A special to the Oregonian from Salem states that Gov. George Chamberlain has called upon the various railroad companies having lines in Oregon to file reports in accordance with a State law passed in 1885, setting forth the value of their property, market value of their stock and bonds, their indebtedness, amount of business receipts and indebtedness in case of failure.

GUALALA MILL BURNED.

MENDOCINO, Sept. 14.—The Gualala mill burned last night. The fire is believed to have been of incendiary origin. The mill employed 100 men and had a capacity of 100,000 feet.

FIENDISH CRIME IS REPEATED.

SAN FRANCISCAN IS FATALLY BEATEN BY ROBBERS.

Police Work on Theory That Murderous Criminal Is Responsible for Similar Assault in August—Two Children Find Shop-keeper in Pool of Blood.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Sept. 14.—William Friede, proprietor of a clothing and furnishing store at No. 1386 Market street, was found unconscious in a pool of blood in a back room of his place of business this afternoon, his head almost beaten into a pulp.

His watch was missing, and the cash drawer had been rifled. The discovery was made by two children, who went to the store to make some purchases. Friede was removed to the Central Emergency Hospital, where, it is said that he cannot survive the night. The crime is marked with the same fiendish atrocity as that of the murder and robbery of J. Pfeistner in his store at No. 964 McAllister street, August 20. The police are working on the theory that both crimes were committed by the same man.

BLIND SIOUX'S CRIME.

CONFESSION AFTER PAROLE.

[BY DIRECT WIRE TO THE TIMES.]

OMAHA (Neb.) Sept. 14.—[Exclusive Dispatch.] Joseph Boucher, a blind Sioux Indian, 29 years old, was released from the penitentiary at Lincoln on parole today, and set out alone for his home near Bonesteel, S. D., to rejoin his wife. When released, Boucher told for the first time the remarkable story of the killing for which he was sent to prison four years ago.

The Indian fell in love with and married a white girl, the daughter of John Daniels, who was operating Boucher's farm for him. Later, Daniels saw that the Indian was losing his sight. He sought to persuade his daughter to desert him, and, failing in that, burned Boucher's house, ran off his cattle, and persecuted him in every way he could. Accompanied by his wife, Boucher left his home and Daniels pursued him.

"He's going to shoot you," the wife cried to her husband, as Daniels came up to the Indian. Boucher, now totally blind, drew his revolver and shot Daniels dead.

Boucher went alone to Lincoln, and going to the penitentiary, asked to be admitted, saying that he had killed a man. The warden took him in, and later he was convicted of manslaughter and given a penitentiary sentence.

His wife has been faithful to him, and he has gone back to her.

WANTED IN OAKLAND.

GOMEZ CAUGHT IN BOSTON.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, Sept. 14.—[Exclusive Dispatch.] Joseph Gomez, alias James Gomez, aged 27, of Hanover street, was arrested tonight by Inspector Morrissey and Norton on word from the Oakland, Cal., police and was charged with felony. He was taken just as he was about to board the steamship Romanic of the White Star line for Madeira.

When searched a belt containing $800 in gold and a through ticket from Oakland to Madeira were found on him. He is held to await instructions from Oakland. Further details of the case are unknown here.

CHARGED WITH DESERTION.

WIFE GOES ON HIS BOND.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) Sept. 14.—[Exclusive Dispatch.] Charged with desertion of his wife for the doubtful attractions of a Siwash squaw, William Nottingham has been bound over to trial at the next term of the Superior Court at Conconnully. His wife, the woman whom he left in Adams county while he maintained a second household at Conconnully, went on his bond, putting up $1500 in cash.

Nottingham is one of the wealthy ranchers of Eastern Washington, having a 440-acre ranch near Lind, Adams county, with many head of cattle and horses. His wife, who has sued for divorce, estimates his fortune at more than $50,000. They were married twenty-four years ago in Missouri, and have eight children.

Nottingham's double life began about three years ago, when he brought a large band of cattle to Okanogan county to feed on the rich pasture of the Indian reservation. He leased an allotment from a squaw named Sophie San Pierre, and is charged with having become enamored of her.

FLASHES FROM WIRES.

Two additional lawyers have been retained for the defense of Harry K. Thaw for the shooting of Stanford White. They are John H. Iselin and Howard S. Gans. The latter was formerly assistant under Dist.-Atty. Jerome.

In the tenderloin in Wilmington, N. C., W. L. Williams, a well-known traveling man, was shot and mortally wounded by Lonnie Snipes, connected with one of the local breweries. Snipes ran, but a special officer followed him and in a pistol duel, Snipes was dangerously wounded.

Five children, aged from 9 to 14, were drowned yesterday in a lake at Port Felix, a village near Whitehead, N. S. The children had spent the day picking blueberries, on an island and on their return their small boat sprang a leak and sank.

Dist.-Atty. Bell, it has been learned has been investigating the failure of the City Trust Safety Deposit and Security Company of Philadelphia, which closed its doors in June, 1905, with liabilities of more than $600,000. Bell says he has discovered evidence of criminal liability and intends to secure prosecutions.

The body of Henry K. Wampole, a wealthy Philadelphia manufacturer was found in the East River, Thursday night. He had brooded over the money shortage of a trusted employé in Canada, and probably committed suicide.

Carl C. Young, traveling auditor of the Panhandle and Pecos Valley Land Company, was arrested at Kansas City yesterday by a Deputy United States Marshal on the basis of an indictment returned in New Mexico, in April last, charging him and others with being implicated in alleged government land frauds in that territory.

An attempt of the rural police to arrest seven peasants at Lukonitsia, Russia, for organizing disorders, caused a collision resulting in the killing of eight persons and the wounding of sixty by soldiers.

The United States steamship Grant passed up to Seattle yesterday afternoon with ten bodies of Valencia victims, recovered from Vancouver Island by the tug Sea Lion. The bodies, practically skeletons, were unidentified and were exhumed from where they had been buried when washed ashore from the wreck.

Vladimir Mazury, the leader of the Moscow section of the "Flying Group," who yesterday was found guilty of armed resistance to officers, was hanged Friday in Moscow.

A mail wagon has been held up near Simferopol, Russia, by a band of thirty revolutionists, who killed the coachman and two postillions and took possession of the mail pouches. The robbers were after $500,000 which it had been intended to forward through the mails, but quite by accident the sum was not on this wagon.

Mrs. Jean Thompson, who died from the effects of a fall in Golden Gate Park, San Francisco, was formerly a resident of Stockton, where her father, Frank Andrews, still makes his home.

Because there was no earthquake clause in the policies of the Trans-Atlantic Fire Insurance Company and because the defendants had failed to show that any part of the insured buildings had fallen before the fire reached them on April 18, 19 and 20, United States District Judge Whitson instructed the jury to find for plaintiff for the full amount of the policies in the suit of the Levi Strauss Realty Company against the insurance corporation named, together with interest from the date of the suit. This amount was $10,085.

The first rain of the season fell at Stockton last night, laying the dust, but doing no damage. A heavy rain at this time would damage shipping grapes, which are going east in large quantities.

In a cave three miles east of Pleasanton last evening, at a point where the Southern Pacific is excavating for the purpose of laying the foundation for a bridge, four men in the employ of the company were buried beneath an avalanche of stones and dirt. One of them, Locky Morray, aged 20 years was smothered to death. His companions were extricated from their perilous positions, but were so severely injured that they may yet die.

REGISTERED IN PARIS.

PARIS, Sept. 14.—[Exclusive Dispatch.] J. S. Seibert, Mrs. George N. Rosecrants, Mrs. Newton Claypool and Miss Emma Claypool of Pasadena registered at the New York Herald today.

POLITICAL.

STRONG MAN NOMINATED.

Philip B. Stewart for Governor of Colorado.

Friend of the President and for "Square Deal."

"Uncle Joe" Discusses the "Reform" Element.

[BY DIRECT WIRE TO THE TIMES.]

DENVER (Colo.) Sept. 14.—[Exclusive Dispatch.] Philip B. Stewart today was placed in nomination by the Republicans for Governor of Colorado. He is a close friend and admirer of the President, and a believer in the latter's doctrine of the "square deal."

Mrs. Stewart is a sister of Lieut. Cowles of the United States army, who married the President's sister.

Stewart came to Colorado ten years ago, locating at Colorado Springs. A man of means when he arrived, he made investments in mines at Cripple Creek and in other enterprises that have yielded him a large fortune. He was born in Vermont in the Lake Champlain Valley, forty-one years ago, and is the son of former Gov. John Stewart of that State, who also served in Congress.

It was stated today that Stewart graduated from Harvard, the President's alma mater, but tonight the Republican nominee said this was an erroneous report, long circulated. He is a Yale man.

Stewart joined the President when the latter hunted bear in Colorado last year, and personally arranged both of the President's outings in the State. Since the late Senator Edward O. Wolcott died, Stewart has been regarded as the foremost man in Colorado whose indorsement would be certain to secure favorable consideration at Washington for an office seeker.

IN THE CONVENTION.

[BY THE ASSOCIATED PRESS—A.M.]

DENVER, Sept. 14.—The Republican State Convention began its sessions this morning in the Broadway Theater for the purpose of nominating a full State ticket and naming candidates for two Supreme justiceships. Unlike the Democratic convention, which concluded its labors late last night, there were no contests for seats in the convention worthy of mention.

Congressman Franklin E. Brooks of Colorado Springs was made temporary chairman. He spoke for an hour, devoting most of his speech to a review of the history of the party's work in the nation, saying that prosperity always followed Republican victory at the polls and adversity invariably came with Republican defeat.

PLATFORM FEATURES.

The platform reaffirms its allegiance to the national organization and its adherence to the principles as promulgated in successive national platforms.

It heartily indorses "the patriotic and fearless administration of President Theodore Roosevelt."

The Republicans of Congress are commended for the "unprecedented amount of wise and wholesome legislation accomplished at the last session."

Special reference is made to the laws authorizing the Panama Canal, railway regulation, meat inspection, consular reforms, joint Statehood and the laws relating to naturalization and immigration, pure food, free alcohol for use in the army and employers' liability.

The protective tariff is credited with bringing phenomenal prosperity to the country and the development of the beet-sugar industry was pointed to as an illustration of the benefits of that system.

The party is pledged to fair treatment of organized labor and organized capital, as well.

The death of former Senator Edward Wolcott is deplored as a great loss to the nation.

The trouble growing out of the strikes in the Colorado mining regions three years ago are attributed to Socialistic and anarchistic sentiment "fostered and encouraged by leaders of the Democratic party in this State, for the purpose of influencing the labor vote," and the Republican party is given credit for bringing about the "restoration of law and order."

The part taken by the Supreme Court, the Legislature, the District Attorney for Denver city and county in the Peabody-Adams contest is indorsed. The platform declares that 15,000 fraudulent votes were cast for Adams two years ago, and that he was never legally elected to the office of Governor.

Condemnation is placed upon "the outrageous and scandalous attacks made upon the judiciary of the State, and especially the Supreme Court, by Democratic organizations and Democratic platforms," and satisfaction is expressed that the Supreme Court of Colorado has maintained its dignity by bringing to its bar and punishing for contempt a Democratic United States Senator (referring to Senator Thomas M. Patterson.)

The platform favors a railroad commission, a law providing for an expression of the will of the people in regard to the candidates for United States Senator, and opposes lobbying, and favors a law against it.

The following nominations were made:

Governor—Phillip B. Stewart, El Paso county.

Treasurer—Fred B. Bent, Prowers county.

The convention then adjourned until tomorrow morning.

"UNCLE JOE" ON "KICKERS."

HIS VIEWS ON REFORMERS.

[BY THE ASSOCIATED PRESS—A.M.]

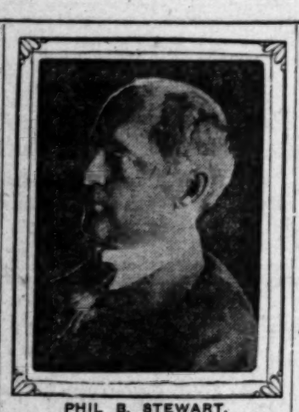
CHICAGO, Sept. 14.—Speaker Cannon made a short speech before the Republican State Committee, which met here yesterday. He was on his way to his home at Danville, Ill., from Michigan.

The reform forces, to whom the Speaker gave most of his attention, were classified by him as "the kickers," and he gave them additional cause to charge him with disrespect for their efforts by comparing them to a celebrated mule, concerning which it was never known "whether he was braying because he was kicking, or kicking because he was braying."

Furthermore, he said that, inasmuch as their object seemed to be the immediate reformation of the entire world, they were hopelessly beyond argument, and, therefore, the best course for a sensible man to pursue with regard to them was to "leave them alone."

"This is a mighty important campaign for the Republican party," continued the Speaker, "and we've got though to take up all our attention with things that are going to happen right now, without bothering other things that can't be mended, or with things that are going to happen years from now.

"Some people are a great deal bothered by what's going to happen in 1908. Mr. Bryan is bothered. He was



PHIL B. STEWART,
friend of the President, and who has been nominated for Governor of Colorado by the Republicans.

met the other day in New York by a great crowd of 40,000 people, who came together to greet him on his return from Europe.

"Now, Mr. Bryan had been traveling, and we supposed he had been informing himself. We expected that he'd come back home as a man who had gained experience and knowledge from seeing different men and countries, but he no sooner makes a speech than we find him full of the same old heterodox notions and ideas.

"But as soon as Mr. Bryan discovers that these ideas are not altogether popular with his party, then he begins to go easy on them. Now he says that, of course, he is right, but that, nevertheless, he will accept a nomination from the Democratic party, even if it does not adopt his ideas. But he tells them he's right, and they'll come to it in the future.

"Now, we've got better things to do than to bother about what's going to happen two years from now. Those things will take care of themselves when the time comes. What the Republican party has to do is to take care of the things that are up now, and that's what it is doing."

ALSO FOR BRYAN.

WYOMING DEMOCRATS NOMINATE

[BY THE ASSOCIATED PRESS—A.M.]

CHEYENNE (Wyo.) Sept. 14.—The Democratic State Convention nominated the following ticket:

Governor—S. A. D. Keister, Fremont county.

Secretary of State—Daniel W. Gill, Laramie county.

State Auditor—Thomas A. Dunn, Big Horn county.

State Treasurer—James L. Lobban, Sheridan county.

State Superintendent of Public Instruction—Miss May Hamilton, Natrona county.

Congress—J. C. Hamm, Uintah county.

The convention adopted resolutions indorsing W. J. Bryan, as "the triumphant candidate in 1908." The platform demands national and State eight-hour labor law, and their enforcement; favors a law making it a felony for a State officer to accept a pass or other free transportation from a railroad; demands a primary election law and a return to the Australian ballot system and favors free trade in various commodities, particularly wheat.

The platform demands election of United States Senators by direct vote of the people, and that lobbyists appearing before the State Legislature in the interests of pending legislation be compelled to register and state their connection with the proposed legislation. The manner of opening the Shoshone Indian reservation is condemned, in that settlers are alleged to be confronted by a private corporation having complete charge of all the water which was favored by the Republican State administration. The present forest-reserve policy of the government is condemned, and charges of favoritism and graft are hinted at

WANTS NAME HOISTED.

UNIQUE INJUNCTION FILED.

[BY DIRECT WIRE TO THE TIMES.]

OMAHA, Sept. 14.—[Exclusive Dispatch.] A unique injunction suit was filed in the District Court here today by Attorney John O. Yeiser, an independent candidate for nomination for the State Legislature at the primary election to be held next week.

Yeiser prays the court to grant an injunction restraining members of the Fontanelle Club and other Republicans of Douglas county from exploiting or seeking to secure the nomination of the "harmony" legislative ticket agreed upon at a conference between leaders of the "machine" and the "anti-machine" factions of the Republican party in this county.

Yeiser's name does not appear upon this harmony ticket, and this fact is responsible for the filing of his injunction suit which will be heard Monday.

He charges that the defendants have entered into a combination with other associations, corporations and people to wrongfully and corruptly and by unlawful means nominate the harmony ticket, and have solicited money and help from corporations in the State to be used in securing the nomination of the ticket and thus to "defeat this candidate, the plaintiff, and other candidates, in a corrupt and unlawful manner."

He cites the Nebraska statutes to show the defendants' action is unlawful and prays that a permanent injunction be granted.

MONEY FAILS TO WIN.

UNION TURNS DOWN HEARST.

[BY DIRECT WIRE TO THE TIMES.]

BINGHAMTON (N. Y.) Sept. 14.—[Exclusive Dispatch.] The State convention of the State Federation of Labor closed here today without indorsing the candidacy of William Randolph Hearst for Governor, although Hearst's henchmen had, it is alleged, spent $25,000 among the delegates to the convention and used every means in their power to push through the resolution desired by them.

John S. Whalen, the Hearst nominee for Secretary of State, was a delegate to the convention from Rochester, but even his influence could not bring the convention to favor the Hearst element.

It was openly charged that the Hearst workers used every means possible to corrupt the delegates.

POLITICAL BRIEFS.

First Colorado District Nominee.

DENVER, Sept. 14.—Charles W. Tew of Greely was nominated for Congress today by the Democratic convention of the First District of Colorado.

Willcox Sets Rumor Aside.

NEW YORK, Sept. 14.—Postmaster William R. Willcox, who has been mentioned as a Republican Gubernatorial possibility, declined to discuss the matter in any phase, when shown a statement to the fact that he had consented to permit his name to go before the Republican convention at the instance of the President, replied: "I have had no communication from the President of any character this summer."

Congressman Bonynge Renominated.

DENVER, Sept. 14.—Congressman Robert W. Bonynge was renominated this afternoon by the First District Republican Convention.

KINGS NAME IS FORGED.

Telegram from Edward to Min's Widow a Hoax.

Russian Diplomats Excited By Discovery.

Investigation Being Made as to Sender's Identity.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, Sept. 14.—Diplomatic and administration circles are greatly exercised over the discovery that a telegram purporting to have been sent by King Edward to the widow of Gen. Min, three days after the assassination of the general at Peterhof was not genuine. The message, which bore the date of August 29, was as follows:

"I am overwhelmed by your frightful bereavement and beg you, Madame, to accept my profound condolence—Edward."

An investigation is in progress to determine the origin and the motive of the telegram. The investigation has been conducted very quietly on account of the effect the disclosure is likely to have upon the royal personages concerned and scarcely an inkling of the matter has reached the press.

The motive of the hoax is difficult to conjecture, though a message of sympathy relative to the fate of an agent of repression might not be without effect in such an internal combat as is going on in Russia or on the movement for an Anglo-Russian entente.

EMPEROR SETS SAIL.

Emperor Nicholas, Empress Alexandria and family sailed on the Imperial yacht Standart today, down the Gulf of Finland on an excursion which will last several days.

The Emperor is accompanied by the Minister of Court and the Minister of Marine.

STUDENTS HOLD MEETING.

TO REOPEN UNIVERSITIES.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, Sept. 14.—At a great "Skohdtka" or meeting held today and attended by thousands of students, it was resolved to reopen the universities and begin actual academic work, thus putting an end to the paralysis to the educational system of Russia, which has endured for two years. The resolution, which was adopted by 1241 votes to 373, is as follows:

"In view of the fact that an attitude of passive protest is incompatible with a high position in revolutionary activity, and the great role that the universities hitherto have played in the combat for liberty, the students of St. Petersburg find it necessary to mobilize the youth of the land in the cities and other urban centers and therefore decided that the universities shall be reopened."

A small party of the less fanatical students who wish to complete their education resisted a proposal to hold in the universities meetings of the proletariat which would cause the government to recluse the schools. They succeeded in compelling a modification of a second resolution which, as amended, reads:

"The moment is not ripe for political meetings. The students are exorted to resume their studies, but we reserve the right in face of another upheavel of the masses to hold general meetings to unify the students and the proletariat in a determined struggle against the autocracy."

The great assembly hall of the St. Petersburg University was packed by students. Several hundred girl students who are far more radical than their male associates, were present. The students took every favorable opportunity to burst forth into revolutionary songs and the climax of the meeting came when the name of the girl who assassinated Gen. Min was mentioned. Every student arose and debates were suspended while the assembly chanted a revolutionary dirge.

CONSUL CHESTER EXPLAINS.

Says Washington's Statue Being Unveiled in Budapest Has no International Significance.

[BY THE ASSOCIATED PRESS—P.M.]

VIENNA, Sept. 14.—The fact that United States Ambassador Francis was not invited to attend the unveiling of the statue of George Washington in Budapest, has caused so much comment that Consul-General Chester has given an interview on the subject. He suggests that possibly the government disapproves of the inscription on the monument: "In memory of George Washington, American magarydom, 1906."

He adds:

"I am not representing in Budapest American magarydom, but only representing native or naturalized Americans. The erection of the monument being a private affair the presence of an official American representative is unnecessary.

"The American government does not mean by this order to offend the Hungarian government."

It is semi-officially pointed out that the Hungarian government is not represented officially, and that Francis Kossuth, Hungarian Minister of Commerce, only attends as a party leader. This is advanced as the reason why Ambassador Francis was not invited.

SHIVERS ON THE PEAK.

Only Woman Who Ever Scaled the Precipice on Long's Alone Stays All Night Alone.

[BY DIRECT WIRE TO THE TIMES.]

LYONS (Colo.) Sept. 14.—[Exclusive Dispatch.] Shivering in the shelter of a huge rock, Miss M. V. Browne, last year a student at Boulder, huddled close to a Scotch collie for warmth, and spent Monday night at the Keyhole on Long's Peak, but she reached the top, and is the only woman who ever scaled the precipice alone.

Miss Brown left Long Peak Inn Monday morning at 8 o'clock. Returning from the summit, a fog overtook her, and she lost the trail, and was compelled to seek shelter. The collie furnished the warmth that saved her life.

The young woman is a native of Michigan, and will study art this winter at Champaign, Ill. E. A. Mills found Miss Browne at 8 o'clock Tuesday, and guided her back to safety.

ARRESTED AFTER FINDING BODY.

FORT WORTH (Tex.) Sept. 14.—[Exclusive Dispatch.] The body of Dan Faulkner of Erath county was found in the field of Oscar Patterson, his brother-in-law, in Brown county yesterday, and after an investigation, Patterson, who found the body, has been arrested on a charge of murder. Faulkner was visiting relatives in that vicinity when killed

LOEB TO HUNT THE GRIZZLIES.

PRESIDENT'S SECRETARY SOON DUE IN MONTANA.

In Company With George Thompson of the St. Paul "Dispatch," a Trip Will Be Made Through the Jackson Hole Country and Several Weeks Will Be Spent on Preserves.

[BY DIRECT WIRE TO THE TIMES.]

HELENA (Mont.) Sept. 14.—[Exclusive Dispatch.] H. W. Childs, president of the Yellowstone Transportation Company, has received notice that William Loeb, Jr., private secretary of President Roosevelt, and George Thompson, owner and publisher of the St. Paul Dispatch, will arrive at Mammoth Hot Springs on September 26 for a tour of wonderland and a hunting trip in the Jackson Hole country to the south of the park, a former rendezvous of several noted gangs of thieves and robbers. They will be taken in private conveyances.

Childs was requested to secure the services of a first-class male cook and he has engaged Joe Mace of Helena. The party will spend several weeks in the well-known game preserve and will be thoroughly prepared for all emergencies from ducks to grizzlies and mountain lions.

Loeb paid his first visit to the park when the President dedicated the arch entrance at Gardiner and later returned for a month's outing. Fishing formed his principal recreation on that trip. This time it will be the "big" game known to frequent the Jackson Hole country.

TRAIN HOLD-UP FAILS.

Four Masked Men Attempt to Rob Rock Island Passengers Near Peoria, Ill.

[BY THE ASSOCIATED PRESS—P.M.]

PEORIA (Ill.) Sept. 14.—Four masked men attempted to hold up passenger train No. 311 on the Rock Island, one and a half miles north of Peoria tonight at 10 o'clock, and but for the presence of mind of Conductor Murray, who disarmed one of the men after being struck on the head, the passengers would have been robbed. There were about 100 persons on the train, which left Chicago at 6 o'clock. Sheriff Potter and a force of deputies and Peoria police are searching the country for the organizers of the attempted hold-up.

MANCHURIA IS BUDGED.

HONOLULU, Sept. 14.—An effort was made to float the stranded steamship Manchuria today, but it was unsuccessful. The vessel was, however, moved a distance of 250 feet, and her position was improved. The port bilge keel is so deeply imbedded in the coral reef that it is apparently impossible to move the vessel further on lines previously planned. It will probably be necessary to develop a new plan.

REBELS WIN IN BATTLE.

CAPE HAYTIEN, Sept. 14.—There has been an engagement between the soldiers of the Dominican government and the rebels. The rebels succeeded in driving back the government forces, who withdrew to Haytien territory. The government losses were heavy.

Prince Henry of Prussia has been appointed commander-in-chief of all the squadrons in active service in Germany. He succeeds Admiral Von Koester, who retains the post of chief inspector of the navy.

WELL PEOPLE TOO

Wise Doctor Gives Postum to Convalescents.

A wise doctor tries to give nature its best chance by saving the little strength of the already exhausted patient, and building up wasted energy with simple but powerful nourishment.

"Five years ago," writes a doctor, "I commenced to use Postum in my own family instead of coffee. I was so well pleased with the results that I had two grocers place it in stock, guaranteeing its sale.

"I then commenced to recommend it to my patients in place of coffee, as a nutritious beverage. The consequence is, every store in town is now selling it, as it has become a household necessity in many homes.

"I'm sure I prescribe Postum as often as any one remedy in the Materia Medica—in almost every case of indigestion and nervousness I treat, and with the best results.

"When I once introduce it into a family, it is quite sure to remain. I shall continue to use it and prescribe it in families where I practice.

"In convalescence from pneumonia, typhoid fever and other cases, I give it as a liquid, easily absorbed diet. You may use my letter as a reference any way you see fit." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in pkgs. "There's a reason"

Store will be open until 6 p. m. today.

CONFESSED BY MURDERER.

Man Who Confessed to Thirty-Year-Old Crime, Dying in Taunton Insane Hospital.

[BY DIRECT WIRE TO THE TIMES.]

TAUNTON (Mass.) Sept. 14.—[Exclusive Dispatch.] At least twelve men, supposed to be day laborers, rode on the front platform of the Wheeling & Lake Erie train at 6 o'clock, and all were instantly drowned. The train was going at a terrific speed when it plunged into the river. The bodies were carefully searched for, but not a trace of any of the victims or of the ill-fated handcar has been found.

Owing to the fact that the bridge at the end of the Wheeling & Lake Erie Railroad knows where the men came from, or where they were going. Their identification will be difficult. It is thought that the men were working at Williston on the bridge, and in an effort is being made to identify the men in these gangs who are missing for.

The first seen of the accident was a group of human freight handlers standing on the tracks in East Toledo at 6 o'clock, to allow a freight train to pass them. Just as the last car number is variously reported as seven and twelve, plunged through the bridge on the track, the yardmaster received no notice of the accident. The train, started to run under them off. The engineer jumped the car, and at the commands of the yardmaster backed toward the bridge.

As they passed the bridge the operator, F. J. Sherman, tried to get off the track, but when the open draw, but

HAND CAR PARTY GOES TO DEATH.

RIDES THROUGH OPEN DRAW OF BRIDGE AT WHEELING.

Number of Drowned Estimated at Between Seven and Twelve—Car Was Running Without Permission of the Railroad Officials and Party Was Out on "a Lark.

[BY DIRECT WIRE TO THE TIMES.]

TOLEDO (O.) Sept. 14.—[Exclusive Dispatch.] At least seven and probably twelve men, supposed to be railroad day laborers, rode off the open draw of the Wheeling bridge this evening at 6 o'clock, and all are believed to be drowned. The river has been vigorously dragged, and the banks on both sides carefully scoured, but so far not a trace of any of the occupants of the ill-fated handcar has been secured.

Owing to the fact that no one at this end of the Wheeling and Lake Erie Railroad knows where the men came from, or where they were employed, their identification is difficult to establish. It is thought the men were working at Williston or Trobridge, and an effort is being made to see if all the men in these gangs can be accounted for.

The first seen of the car and its load of human freight was when they left the tracks in East Toledo, about 6:30 o'clock, to allow a passenger train to pass them. Just as the men, whose number is variously estimated between seven and twelve, put the handcar back on the track, the yardmaster, who had received no notice of the car's being on the track, started toward them to order them off. The men hurriedly jumped the car, and, heedless of the commands of the yardmaster, sped on toward the bridge.

As they passed the freight office the operator, F. J. Sherer, yelled to them to get off the track, and to watch for the open draw, but the men did not slacken their mad pace. Although there was a light set against them on the bridge, the men operating the car evidently failed to understand its significance, for they went right on over it and into the deep channel.

The car was running absolutely without permission, right of way or orders, and is thought to have been stolen by the men who ran it, who were evidently out for a "lark" in Toledo.

ROADHOUSE KEEPER NABBED.

Fred Ward and Employes Arrested on Charge of Violating City Liquor Law.

Fred Ward, notorious dive keeper, was arrested last night by officers on the charge of violating the city liquor license ordinance. Ward is the proprietor of a joint on Mission Road known as the East Side Athletic Club, but it is a roadhouse. Frank Watanabe, a Japanese servant, was arrested on the charge of serving the liquor.

About a year ago Ward was arrested for violating the liquor ordinance and after a hard-fought legal battle he was fined $200 and Watanabe was fined $100.

Officers Wehrley and Needham have been visiting the "club" and have secured cards of membership. They say that they have been served with liquor at all times. Ward and the Japanese gave bail and were released.

FRANCO-JAPANESE TREATY.

PARIS, Sept. 14.—It is declared here that there is a proposition on foot to supplement the Anglo-French entente and the Franco-Russian and the Anglo-Japanese alliances by a Franco-Japanese agreement, the conclusion of which is calculated to allay French fears relative to Indo-China. A Franco-Japanese agreement is furthermore absolutely necessary for the commercial development of the island.

BULGARIA FRIGHTENS TURKEY.

PARIS, Sept. 14.—In a formal note to France and other powers Turkey draws attention to the warlike preparations which are going on in Bulgaria. She points out that suddenly and without reason Bulgaria has called the reserves to the colors and that rifle drill is being conducted with activity in the small forts. This formal notification from the Porte is regarded as ominous.

PROTEST AGAINST HINDUS.

BELLINGHAM, Sept. 14.—[Exclusive Dispatch.] Aroused by an influx of Hindus from British Columbia, workmen in the mills of the Bellingham Bay Lumber Company, a San Francisco corporation, will petition the concern to discharge the Hindus employed by it. The Bellingham men regard the presence of the Asiatics as an entering wedge to a general invasion and lowering of wages.

BANKER HELD FOR ABDUCTION.

CARRIED OFF WIFE'S SISTER IN AN AUTOMOBILE.

Charles E. Carbonneau Is Accused by Agnes Mulrooney of Too Lively an Interest in Her—His Wife Seeking Fortune in Alaska—Mysterious Seizure at Midnight.

[BY DIRECT WIRE TO THE TIMES.]

PHILADELPHIA, Sept. 14.—[Exclusive Dispatch.] Charles E. Carbonneau, banker, mine owner and clubman, was held under $800 bail, today, on the charge of abduction. He had hired a 200-horse-power automobile and two detectives to help him in his determination to break up an affectionate meeting between Agnes Mulrooney, his sister-in-law, and a young man named Francis J. Crane, at Glenside suburb.

Carbonneau took more than a brotherly interest in his wife's beautiful sister, at least, so the latter insists. A year or so ago he wedded Belinda, the daughter of a poor Scranton miner. Belinda, by the way, has "struck it rich" in Alaska, and has money "to burn," and it is alleged that Carbonneau "burnt" a large pile of it, and then sent his wife back to the frigid zone to discover more "good things."

While Belinda was on her way to Alaska, Agnes was prevailed upon to be educated by Carbonneau, and was sent to Mt. St. Joseph's Convent at Chestnut Hill. She made frequent visits to the city and "brother" Charles.

Four days ago, Agnes arrived from Scranton, and while enjoying her visit, chanced to think of Francis, the boy at Glenside. She told Carbonneau she was "just dying to see Francis," and a quarrel ensued, but out to Glenside she went.

She was seized by two mysterious men near midnight, hurled into an automobile, and when she realized that she was kidnaped, she sobbed all the way back to the Bellevue Stratford.

This morning detectives arrested the kidnaper and the kidnaped at the Bellevue Stratford. The former spent the morning in a cell and the latter in care of the prison matron. He was held in $600 bail, and the girl was liberated.

KAISER PLEASES AMERICANS.

BERLIN, Sept. 14.—The American army officers, including Gen. Barry and Gen. Duvall, who have been attending the German army maneuvers, returned here today. They will reserve their critical and detailed report of the operations for their official reports. Gen. Barry said he was charmed with the Emperor's courtesy and cordiality and that the most complete facilities had been given the observers for professional study.

BOURSE RUMORS QUIETED.

PARIS, Sept. 14.—Rumors that the Bank of France had agreed to permit the export of $15,000,000 in gold for the relief of the New York money market having caused disquiet on the Bourse, a semi-official statement in behalf of the bank denying the rumors is made.

SPORTING PAGE.

BIG CROWD SEES FIGHT.

Jimmy Burns Beats Montana Kid Easily.

Two Knock-outs Come in the Preliminaries.

Curtain Raisers Better Than Main Event.

PROGRAMME.

Tommy Leahy-Ferocious Turk, six rounds.
Leonard Lauder-Young Barry, six rounds.
Kid Ervin-Scotty Johnson, six rounds.
Eddie Menney-Manuel Torres, ten rounds.
Kid Dalton-Caesar Attell, ten rounds.
Jimmy Burns-Montana Kid, ten rounds.

RESULTS.

Leahy knocked out Turk, three rounds.
Lauder decision Barry, six rounds.
Ervin knocked out Johnson, three rounds.
Menney decision Torres, ten rounds.
Dalton decision Attel, ten rounds.
Jimmy Burns decision Montana Kid, ten rounds.

The funniest thing about the prize-fight scraps last night was that the six-round "preliminaries" were better than the main events.

The most notable happening was the way that George Memsic or "Jimmy Burns" made a sucker out of Montana Kid, who is said not to have been beaten but once in five years. Last night was the second time and the Kid actually never had time to know whether he was winning or losing.

The gayety of the night came in the two knock-outs that were handed the Ferocious Turk by Tommy Leahy and to Scotty Johnson by Kid Ervin, a little red-haired boy from de sout 'a Markit in dear old 'Frisco, both coming in the third round of their six-round scraps.

What might be called the most remarkable thing in connection with the scraps was the big crowd that turned out to see them. It is said that there were about 5000 people in the house, Mayor McAleer and Police Commissioners Saddler and Hagan being among these, and the mob got its money's worth out of the performances, for when it wasn't yelling its head off over the busy kids in the prelims, it was hooting the bigger men and howling at them to get in and fight.

Some of the sports thought the three ten-round fights were for the catch-as-catch-can wrestling title for there was more hugging than there is on the Overall Factory Workers' picnic that passes through a dark tunnel. Montana Kid in the main event was apparently so afraid that Jimmy Burns would punch him in the nose that every time Jimmy came at him like a wild cat, Montana would duck and wind himself into a clinch, and Kid Dalton and Caesar Attell did the same thing a lot. Menney and Torres were a little better, while the preliminaries were fast and furious for young boys for these kids were scrapping more for the future than for last night.

The main event between Montana and Burns might have been put on as the first preliminary and it would have pleased the crowd better. They didn't take to it at all. Burns was anxious enough, but Montana would rather take a chance of ducking into a clinch and the crowd was continually yelling to the boys to get in and fight. Burns was willing enough and was after Montana all the time, but was wild with his swings and never could land one where it would hurt much. Burns would rush and Montana would duck and that was the whole thing from start to finish, except in the last round, when Montana woke up and sailed in and exchanged punch for punch with Burns, but he had been left at the post and couldn't get up.

Burns is a slasher with both hands, shifty on his feet, quick as a cat and is willing to mix. He did all the leading up to the tenth round and was never in danger of losing on points. He has a science, but he tears in like a flash and hits with either hand and has a good defense and it is easy to imagine that Montana Kid never had a fast bird like this come at him. They spent a lot of time feinting and fiddling and rushing into clinches and the crowd sent 'em to the work almost every round with loud yells about getting in and fighting. No other decision could have been given but for Jimmy Burns.

Manuel Torres, who beat Eddie Menney here some weeks ago on a fluke, showed some speed for several rounds in the return match at ten rounds, but backed up of a sudden and lost the decision. A lot of people thought he "quit," but as Menney came back for more when Torres had the lead, the black man was evidently mistaken in his prowess.

The most exciting bout of the programme was the third at six rounds, between Kid Ervin and Scotty Johnson. Ervin is much smaller than Johnson and had the crowd with him at once, for he rushed in to mix with the larger man, rather than be beaten at long range, and to the surprise of the crowd he caught Johnson a right swing on the jaw in the last part of the third and put him down for the count. This was a fast, snappy scrap from the start and kept the sports on their toes and they certainly did raise the roof when the little boy won.

Tommy Leahy put away the Ferocious Turk in the third by a bunch of right and left swings on the jaw. The Ferocious one started out to eat Leahy, but after the first Leahy tore into him in hurricane style and had him ended in short order.

Kid Dalton got the decision over Caesar Attell at the end of ten rounds of what some people thought was a hugging match, but the men fought and slugged hard all the time.

Young Lauder easily beat Young Barry in six rounds with good work all the way. This winner looks like a real fighter and will certainly do something good in the future.

The programme on the whole was a good one for a try-out night, and the attendance certainly showed that the sports are fight hungry.

O'BRIEN COMING.

Manager McCarey received word last night that Jack O'Brien would be here this morning from San Francisco to arrange a fight with Tommy Burns, to take place after the Burns-Flynn fight on October 2. O'Brien won't fight for the trust in 'Frisco for he knows he has a square deal coming here.

Millard Sanders Hurt.

INDIANAPOLIS (Ind.) Sept. 14.—Millard Sanders, the well-known trainer and driver of Lou Dillon, and other horses, was thrown from a sulky at the State fair grounds, today, and seriously hurt. Sanders was driving in a horse-show ring, and in making a sharp turn the wheel of his sulky gave way.

GOLF SEMI-FINALS.

Two Pairs Will Contest Today at the Country Club In Event for the President's Cup.

Local golfers will probably turn out strong today at the Country Club to see what will doubtless be two good contests in the semi-finals of the President's cup. Wilson (3) and Holliday (5) and Morian and Barker (5) will be the contestants. Pettigrew (6) and Fries (7) will not meet until tomorrow, as neither can get away from business today. Cobb has already reached the semi-finals by his defeat of Graff.

OAKLAND'S TEAM WHITEWASHED.

BERGEMAN AND REIDY ENGAGED IN PITCHERS' BATTLE.

Only One Run Scored in Fast Game on a Double by Dillon and a Single by McClelland—Los Angeles Captain Again Smashes Out Couple of Two-Baggers and One Counts.

[BY THE ASSOCIATED PRESS—P.M.]

OAKLAND, Sept. 14.—Los Angeles shut out Oakland today in a snappy pitchers' battle, and won by a score of 1 to 0. Los Angeles made the solitary run on two hits in the fourth inning.

SUMMARY.

Three-base hits—Devereaux, McClelland, Van Haltren.
Two-base hits—Dillon (2,) Cravath.
First base on called balls—Off Bergeman, 1; off Reidy, 2.
Struck out—By Bergeman, 5; by Reidy, 2.
Double plays—Dillon to Gochnauer to Dillon. Buckley to Gochnauer.
Time of game—1h. 35m.
Umpire—Perrine.

Each Protests Game.

SEATTLE, Sept. 14.—Seattle won from Fresno through the latter's errors. Fresno protested the game because Umpire Derrick would not give an out when a foul tip struck the catcher before being caught by the latter. A similar decision rendered against Seattle made the protest a stand-off. Score:

Seattle, runs, 4; hits, 7; errors, 4.
Fresno, runs, 1; hits, 3; errors, 3.
Batteries—Garvin and Hanson; McGregor and Dashwood.

Rain at Portland.

PORTLAND, Sept. 14.—The Portland-San Francisco game was postponed on account of rain.

NATIONAL LEAGUE BALL.

REULBACH IN FORM.

[BY THE ASSOCIATED PRESS—P.M.]

ST. LOUIS, Sept. 14.—Reulbach was in good form today and Chicago shut out St. Louis. Fromme, a recruit from the Central League, pitched for the locals and did good work. Score:

St. Louis, 0; hits, 3; errors, 5.
Chicago, 2; hits, 7; errors, 1.
Batteries—Fromme and Marshal; Reulbach and Morgan.
Umpires—Conway and Emslie.

GIANTS LOSE TWICE.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Sept. 14.—Brooklyn beat New York in a ten-inning game today and in a second game of seven innings shut out the champions. Scores:

First game:
Brooklyn, 5; hits, 8; errors, 0.
New York, 3; hits, 6; errors, 5.
Batteries—Scanlon and Bergen; Ames and Bresnahan.
Second game:
Brooklyn, 1; hits, 5; errors, 1.
New York, 0; hits, 4; errors, 1.
Batteries—McIntyre and Ritter; Matthewson and Bowerman.
Umpire—O'Day.

PITCHER KNOCKED OUT.

[BY THE ASSOCIATED PRESS—P.M.]

BOSTON, Sept. 14.—Philadelphia won from Boston today. Lush was knocked out by a batted ball in the seventh inning, but pluckily resumed playing. Score:

Philadelphia, 4; hits, 5; errors, 2.
Boston, 2; hits, 6; errors, 5.
Batteries—Lush and Dooin; Young and Brown.
Umpires—Carpenter and Johnstone.

AMERICAN LEAGUE GAMES.

PINE WORK BY WALSH.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, Sept. 14.—Chicago defeated St. Louis in two games today. Walsh shut out the visitors in the second game, striking out eleven men. Scores:

First game:
Chicago, 4; hits, 6; errors, 2.
St. Louis, 3; hits, 7; errors, 4.
Batteries—Altrock and Roth; Glade and Spencer.
Second game:
Chicago, 3; hits, 8; errors, 1.
St. Louis, 0; hits, 3; errors, 2.
Batteries—Walsh and Roth; Jacobsen and Rickey.

EASY FOR WASHINGTON.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Sept. 14.—Kitson held the New Yorks down to six hits and Washington won handily. Score:

Washington, 5; hits, 8; errors, 2.
New York, 1; hits, 6; errors, 2.
Batteries — Kitson and Warner; Doyle, Clarkson, Griffith and Kleinow, Thomas.

TEAMS BREAK EVEN.

[BY THE ASSOCIATED PRESS—P.M.]

CLEVELAND, Sept. 14.—Cleveland and Detroit broke even today, Detroit winning the first game and Cleveland the second. Turner's sensational fielding was the feature, he accepting seventeen chances in the two games without an error. Score:

First game:
Cleveland, 1; hits, 9; errors, 0.
Detroit, 2; hits, 8; errors, 1.
Batteries—Rhoades and Clark; Mullin and Schmidt.
Second game:
Cleveland, 6; hits, 11; errors, 3.
Detroit, 0; hits, 3; errors, 0.
Batteries—Joss and Clark; Willitts and Schmidt.

RUBE COMES TO LIFE.

[BY THE ASSOCIATED PRESS—P.M.]

PHILADELPHIA, Sept. 14.—Boston was shut out by Philadelphia today because of Waddell's effective pitching. Score:

Boston, 0; hits, 6; errors, 2.
Philadelphia, 4; hits, 4; errors, 1.
Batteries—Young and Criger; Waddell and Schreck.

FIFTY PERSONS TAKE A PLUNGE.

Luckless Spectators Flounder in Chilly Waters.

World's 220-Yard Swimming Record Broken.

Daniels Is Hero of Thousands at Laughlin's Lake.

[BY THE ASSOCIATED PRESS—P.M.]

ST. LOUIS, Sept. 14.—Fifty spectators were precipitated into the water this afternoon by the breaking down of a platform during the second day's swimming contests of the American Athletic Union, at Laughlin's Lake. Many saved themselves by clinging to the wreck of the platform and others swam ashore and dried themselves in the sun. Nobody was drowned or hurt, but the accident caused great excitement.

C. M. Daniels of the New York Athletic Club, holder of many amateur swimming records, lowered his own and the world's record for 220 yards during the contest for the national swimming championship. The New Yorker set the new mark at 2:42 2-5, breaking his own record by 1 3-5 seconds.

The weather is a trifle cool for the swimming contests. The one-mile championship swim was one of the most interesting features on today's programme.

Here is the summary:

100-yard swim, junior: H. O. Bartels, D.A.C., first; R. T. Walsh, C.A.A., and Waller Schwarz, M.A.C., dead heat for second place; time 1:12 2-5.

Walsh and Schwarz will meet tomorrow to decide second and third.

50-yard swim, intermediate: W. R. Swane, R.A.A., first; Frank Bornamann, C.A.A., second; J. W. Estes, St. Louis Y.M.C.A., third; time 0:31 2-5.

100-yard swimming on back: A. M. Goessling, M.A.C., first; E. P. Swatek, C.Y.M.C.A., second; M. Toeppen, M.A.C., third; time 1:18 3-5.

220-yard swim, senior: C. M. Daniels, N.Y.A.C., first; M. Schwarz, M.A.C., second; L. Goodwin, N.Y.A.C., third; time 2:42 2-5.

One mile swim, senior: M. J. Handy, C.A.A., first; E. E. Wenck, Jr., N.Y.A.C., second; A. M. Goessling, M.A.C., third; time 28:43 2-5.

SECOND BATTLE FOR GOLDFIELD.

RICKARD COMPLIMENTS NELSON, ACCORDING TO NOLAN.

Fight Promoter Alleged to Have Offered $30,000 for Return Match Between Dane and Gans—Another Story as to What the Pictures Tell of Battle.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Sept. 14.—[Exclusive Dispatch.] What do the films of the Gans-Nelson fight really show? 'Frisco critics, after a private view, say the pictures prove Nelson fought foul continuously, according to special dispatches. On top of this comes a telegram from Tex Rickard to Battling Nelson today as follows:

"Pictures good; people have seen them. Give you great credit. Last round shows you very strong. Want return match. Offer $30,000 purse for February."

"It doesn't seem possible," said Billy Nolan, "that the good people in Goldfield would offer a purse this size to a dirty fighter or coward, all of which Nelson has been branded by the 'Frisco fight writers and certain newspapers.

"You can just say for Bat and myself that we accept the offer," continued Nolan, "and we will split the purse any way to suit Gans, winner to take all or any way, at the same weight conditions."

FOOTBALL AT OCCIDENTAL.

Practice Begins Monday With Nearly All Old Players Seeking Positions.

Football practice will begin in earnest at Occidental, Monday afternoon, at 4 o'clock. Coach Merrill called together all the men interested in the game, yesterday afternoon, and about thirty-five candidates were on hand. All the members of last year's team, with the exception of Wallace Petty, the "parson guard;" Al Merrill, left end, and Hagerman, right end, are in school, and there will be no great difficulty in filling these three positions from the new material. Straight American football will be played. It has been decided that it would be inadvisable to attempt to play Rugby this year; so attention will be given only to the regular game.

Conrad, the big center, will have no difficulty in keeping his place, nor will the members of the back field—Clarke, the husky fullback; Bruce Merrill, the right half, who will captain the team; Thacher, left half, and Hodge, who made good in the team at quarter in his freshman year. Demaree is a likely candidate for a guard position, and McKinney of the San Diego High School will have a good chance to play alongside of Conrad. Wieman, the star punter and tackle, is sure of his position, although he may be moved to the back field. If that case, Clarke will find a place in the line. Crane and Highstreet will try for the tackle positions. Crane has had two years' experience and is a very fast man. Beal and Moffat are candidates for end positions. Beal has shown his mettle, and Moffatt is expected to make good. Holderman, Marshall, Gray, Merrill and Patterson are good men who have shown 'varsity caliber.

Whittier College will play football this year, and Occidental has arranged for a game with that institution. Pomona will play Rugby with the northern universities, and there is a possibility that the Claremonters will not arrange a full schedule for regular football in the South. However, they will have a team in the field.

Coach Merrill is very enthusiastic over the outlook, and with the assistance of John L. Goheen, the new physical director and trainer, who was on the champion Wooster University football team in '05, believes that Occidental will win the championship of the South this year.

Presents Trophy Cup.

OYSTER BAY, Sept. 14.—President Roosevelt presented the Roosevelt cup to the Eastern Yacht Club, today, at a luncheon attended by distinguished statesmen and yachtsmen, on board the Mayflower, which lies in the entrance to Oyster Bay.

BOYS' ATHLETIC MEET.

Playground No. 1 Will Be the Scene of Much Youthful Activity Today.

Teams of boy athletes representing the Castelar school, the Utah-street school, and Playground No. 1 will contest for honors in field events at Playground No. 1, on Violet street, this afternoon. Medals and prizes will be awarded to the winners. The events begin at 2 o'clock. This morning the baseball championship will be decided. In the afternoon field and track events will be contested.

The Playground Commission and the contestants invite the public to attend the athletic games, not only to witness the contests, but to learn of the good results obtained from the playground. Those wishing to attend should take the Mateo-street cars and get off at Violet street.

The meet celebrates the closing of the summer playground prior to the opening of school next week.

SMELLS LIKE HOT AIR.

BALL PARK MAY NOT MOVE.

The rumors that have been flying around town for a week or more concerning the possibility of the Los Angeles ball club securing grounds out near Ascot Park, make a noise like steamed air to those who get the habit of thinking. Three or four sites have been offered the new directors of the club, but they will keep the club at Chutes Park the remainder of the season, even if they are held up for a rental of $200 per week for the grounds. The club will finish the season there because there is no other place to play, for the final series of six weeks begins a week from next Tuesday and it takes weeks to fix up a ball ground even after you have one. Ascot Park is out of the question for a ball ground because it is too far from the center of town and it is doubtful if any of the fans would ride that far out to see a ball game. They would willingly go for horse races, but not for ball games.

MINOR BALL.

DOUBLE-HEADER SUNDAY.

The Southern California League will have another double game at the Chutes grounds tomorrow afternoon beginning at 1:30 o'clock, the first game to be between the Hoegees and the Riveras and the second between the Morans and the Keystones. The line-ups will be as follows:

Hoegees.		Riveras.
Snodgrass	catcher	Schillwater
Gamble	pitcher	H. Lucero
Wilkerson	first base	Briswalter
Adams	second base	W. Lucero
Wietzman	third base	Flick
Dorsey	shortstop	Gaulding
Goodman	left field	Broadbent
Cunningham	center field	Williams
Burness	right field	Judson
Keystones		Morans.
Whaling	catcher	Mangerina
Reiger	pitcher	Whaling
Emory	first base	R. Whaling
Frary	second base	Bresino
Cotta	shortstop	Lamer
Gabe	third base	Moriarity
Mulick	left field	Pedrotti
Flanagan	center field	Simons
Allen	right field	Springer

The Hamburgers will go to San Diego and the batteries will be Hosp and Colbath for San Diego and Hartman and Reed for Hamburgers.

Two Drowned in Race.

NEW YORK, Sept. 14.—Two men were drowned in the motorboat race on the Hudson River today. They were J. Ferry and Harry Odinet, who were on the motoboat Vesuvius. Odinet das drowned in an attempt to save Ferry. Both were from New York.

HOMESEEKERS' CLUB.

Free Stereopticon Lecture Tonight

Everyone interested in securing a small farm home in California, or a one-acre villa lot near Los Angeles, is invited to the free stereopticon Exhibition this evening at the Home Extension Hall, Chamber of Commerce Building, at eight o'clock. The fourth new town and colony is now being formed to secure and subdivide some large tract of irrigated land, not less than ten thousand acres in extent, at wholesale prices to members. The acre lot club will secure a tract of about 160 acres. Come and learn about the plan and the three new towns and colony already established in this way. Eight o'clock this evening, Chamber of Commerce Building.

MISSING GIRL CAUSES PROBE.

Turner's Buffalo Hospital in the Limelight.

Patient Disappears from Bloody Bed at Night.

Conflicting Death Causes Named in Another Case.

[BY THE ASSOCIATED PRESS—A.M.]

BUFFALO (N. Y.) Sept. 14.—Dr. W. Turner, who conducted a hospital known as No. 101 Niagara street and No. 723 Prospect avenue, in this city, is a prisoner at police headquarters and the police are trying to solve the mystery of the sudden disappearance of Gertrude Knight of Philadelphia from his Niagara-street establishment, in which large quantities of blood-stained clothes and bedding were found.

The police first were attracted to Turner's Niagara-street place on Tuesday morning, when, following a quarrel with Miss Geddes, his head nurse, Dr. Turner went through the house with an ax smashing furniture and clothes.

While investigating the cause of the trouble the police found a bed covered with blood-soaked cotton. It developed that a patient who gave the name of Gertrude Knight of Philadelphia occupied the room on Tuesday.

Miss Geddes, the nurse, told District-Attorney Penney that this patient left the hospital on Wednesday and took the train for Philadelphia. Her statement in this respect is partly corroborated by Mrs. Ayres, a boarding-house keeper, to whom Dr. Turner sent some of his patients. She said a woman went to her place Tuesday night and left for Philadelphia Wednesday. She did not know her name, however.

MYSTERY ON ANOTHER CASE.

While investigating the Knight case it was learned that Edith Pinner of Hoboken, N. J., died at the Prospect-street hospital September 8. Miss Pinner's body was shipped to her home in Hoboken, N. J., by Undertaker M. Prouty. In the last year Prouty has buried six women and a baby for Turner.

It is suspected that the Pinner girl and the woman who died in the Niagara-street hospital are the same. This theory was developed yesterday, when a trunk left at the Niagara-street Hospital was opened by the police. It was found to contain a woman's fine clothing and a number of letters addressed to Gertrude Knight. All the unexplained circumstances that now remain have to be cleared up.

The police have consulted by the police department regarding Miss Knight's sudden departure from Turner's hospital. They say the woman who left the blood-stained chamber could not have lost so much blood as to make it impossible for her to live. They are also puzzled to know why she should leave her clothing in such a place. It is said that upon being taken to the district attorney's office, admitted that Turner's sally with an ax was a quarrel with her, but steadfastly refused to divulge the cause of the trouble.

DEATH CERTIFICATE DEATH MIXED.

[BY THE ASSOCIATED PRESS—A.M.]

HOBOKEN, N. J., Sept. 14.—Miss Edith Pinner, a daughter of J. R. Pinner of Washington street, Hoboken, whose father has been a business man here for thirty years, is a sister of the dead girl, but the family, said:

"We learned that my sister died in Buffalo. I was with her when she died. I took her to Smith Hospital, of Buffalo, for treatment. She was suffering from neuralgia and heart trouble. She was all right when we left Hoboken. She left Monday and I brought the body home on Sunday. I do not know what you speak of."

It is said that the cause of death as given on the death certificate was wrong. Mrs. Flatow said that this was a blunder—that a great mistake had been made.

Mr. Pinner, a brother, said:

"Miss Edith was 24 years old. She went to Philadelphia, where a sister lives, and remained six weeks. A change to Buffalo was recommended. She left her home Sunday and died Wednesday. It was a shock to all of us. The cause of death was given us as blood poisoning following an operation for appendicitis. She told us that she was ill, but would never reveal the name of her husband."

ALWAYS DRANK WITH HERS STRAIGHT.

WORKER SHOWN TO BE HEAVY IMBIBER.

Florence V. Huntington in Suit Against Rev. Dowell Phillips Mission and Witnesses Give Damaging Testimony Against Both at Close of the Case.

[SPECIAL WIRE TO THE TIMES.]

CHICAGO, Sept. 14.—[Exclusive Dispatch.] Mrs. Florence V. Huntington, mission-worker, took the witness stand and in liberal measure brought out in the hearing of Mrs. Huntington's suit for $50,000 against Rev. Dowell Phillips, rector of St. Albans Church at East Chicago.

Witnesses did not fare well at the hands of the attorneys, for Mrs. A. Bedford, whose house Mrs. Huntington occupied several months, said that Mrs. Huntington brought whisky to Mrs. Bedford from Chicago and that one time Mrs. Huntington drank a full bottle of whisky rye in three hours. Mrs. Bedford also testified that the defendant often leaned on her shoulder and coaxed him to take moonlight strolls.

"Why," she added, "he's old enough to be my father."

Rev. F. Milbank, another Episcopalian, told how Mrs. Huntington came to his rectory at Geneva, Wis., and upon stopping there for a time went away. He refused to say, but admitted that some one had accompanied Mrs. Huntington to Kingston, Ga., to St. Augustine, and that she paid the bills on the trip.

Some of the representations of the Automobile Club of Berlin on foreign automobiles in the country will be

Classified Liners.

Times "Liner" Advertisers—Important. Note change in rate for Sunday classified advertisements. Commencing Sunday, October 1, 1906, the rate for Sunday "Liners" was raised to 1¼ cents per word for each insertion; minimum charge, 25 cents, as at present. This slight advance is amply justified by the present Sunday circulation of The Times, which averages over 70,000 copies. (When the 1-cent-per-word rate was established in 1893, The Times Sunday circulation was only 14,000 copies.) The "Liner" rate for the daily—1 cent per word—will stand as at present.

Telephone your want advertisements. Ring up "The Times" any time of day or night, and secure prompt and careful attention. Rate, one cent a word each insertion in the Daily; 1¼ cents per word in the Sunday edition; minimum charge, 25c.

"Liner (classified) advertisements for Sunday insertion received over the counter or by telephone after 11 o'clock Saturday nights will be inserted under heading "Too Late to Classify."

The Times cannot guarantee accuracy or assume responsibility for errors of any kind occurring in telephoned advertisements.

Sunday real estate advertisements, to be classified properly, must be in The Times office before 10 o'clock Saturday nights. Rate 1¼ cents per word.

SPECIAL NOTICES.

ANNUAL MEETING OF THE STOCKHOLDERS OF THE LOWELL AND CALIFORNIA MINING COMPANY. AND CALIFORNIA MINING COMPANY.—Notice of the Lowell and California Mining Company, September 20, 1906. TO THE STOCKHOLDERS OF THE LOWELL AND CALIFORNIA MINING COMPANY—

Please take notice that the annual meeting of the stockholders of the LOWELL AND CALIFORNIA MINING COMPANY will be held at the branch office of the company, at Room 417, H. W. Heilman Building, city of Los Angeles, county of Los Angeles, state of California, on the 24th day of September, 1906, at 10 o'clock a.m. of said day, for the purpose of electing directors for the ensuing year, and for the transaction of such other business as may properly come before said meeting.

The transfer book of the company will be closed on Saturday, September 22nd, 1906, at 3 o'clock p.m., and will remain closed until Tuesday, September 25th, 1906, at 10 o'clock a.m., by order of the Board of Directors.

FOR SALE— $12,500

AN IDEAL HOME.

This is one of the finest homes on Alvarado and is offered at a very low figure. It is well constructed of the best material and is only 2 years and a half old. It is elegantly finished with hardwood floors downstairs and polished maple upstairs. The third floor is in one large room, suitable for a billiard hall. There are ten rooms in this house, with reception hall, den, bookcase, china closet, pantry, wine closet, basement, etc. The living room and dining room are finished with oak each having a large open fireplace, beautiful mantels, plate glass windows and elegant fixtures. The den is very cosy and attractively arranged. The kitchen is spacious, having all conveniences possible. The basement is large, with a furnace heating entire house.

On the second floor there are four sunny bedchambers with commodious closets, elegant fixtures, fine bath and hall. Servant's room downstairs. Large level lot, 50x207, well improved with lawn and flowers. This home is elegantly furnished, and will sell either furnished or unfurnished. It must be seen to be appreciated. See us at once.

FOR SALE— City Lots and Lands.

FOR SALE—

"YOU'RE SAFE AT FIRTH'S."

You see this slogan on many advertisements and signs; those who deal with Firth know what it means and appreciate its full significance.

IT MEANS

That every statement made regarding our lots is borne out by the actual facts.

That every improvement is exactly as represented.

That no transaction is considered settled until you are fully satisfied.

That you have the benefit of wholesale prices on what you buy.

That the price is lower and the terms easier than on any other property in the same vicinity, and

That out of thousands of transactions no smear or lost a dollar at Firth's or forfeited a contract.

THAT'S WHY
"YOU'RE SAFE AT FIRTH'S."
EMIL FIRTH,
411-417 LAUGHLIN BLDG.

FOR SALE—

NOTICE.

BOYLE HEIGHTS.
BOYLE HEIGHTS.

The very best proposition on the market today is my Number 5.

BOYLE HEIGHTS TRACT.

On the corner of East Fourth and Mott sts., only 12 minutes' ride with 5c fare, on the green Interurban car; office and agent on tract.

All the street work is completed and new houses are looming up on all sides.

WHY ALL THIS?

Simply because the lots are high and sightly, above the fog, and with no frost in winter. The most healthy place to live in all Los Angeles.

TERMS ARE ... LIBERAL.

REMEMBER.

I ADVISE YOU.
I INVITE YOU.

To buy these lots now and watch the values grow. It will be both pleasing and profitable to the purchaser.

J. FRANK BOWEN,

SUBDIVIDER OF THE 15 BIG TRACTS.

429-40-41 Douglas Building.
Both phones 2472.

16

FOR SALE—

NOTICE.

The street work is now progressing as fast as men and teams can push it in my No. 10 and No. 11 tracts on

VERNON AND HOOPER AVES.

Go out and look these beautiful tracts over; go out today; do not delay, and I feel quite sure you will agree with me that they are worthy of all praise and the very place for investment, speculation or home-making.

DO IT NOW.

Do not wait until the street work is, all done. Prices may be higher then.

The handsome mission style entrances, shade trees and everything else will make the tracts beautiful and complete.

WHY

The price may be advanced $50 a lot, yet while I like to be the beneficiary, I like to have all my customers get a good profit on the purchase price, as it promotes my own welfare in the long run to have everybody satisfied and saying a good word for the

SUBDIVIDER OF THE 15 BIG TRACTS.

A courteous agent with carriage will meet you at the tract. Lots as low as $700; terms to suit purchaser.

BELIEVED DEAD, HE APPEARS.

After Absence of Half Century, Angeleno Gives Iowa Relatives Big Surprise.

Like a spirit from the bivouac of the dead and after an absence of fifty-one years from his boyhood home, Chris Burmaster of this city visited his relatives in Burlington, Iowa, yesterday, this information being received last night in a special dispatch to The Times from that city. For many years his relatives had believed him dead.

When he was 17 years of age he became discouraged and without saying a word to his family or any one else, he disappeared from Burlington, going into North Dakota, where he took up a farm. He succeeded after a long struggle in putting himself into comfortable circumstances. He married and then came to Los Angeles, where he has since been living a retired life.

Yesterday he found several sisters and brothers living in Burlington, some of whom had been born since his departure. His wife died about two years ago, and a longing to see the old home place caused him to return. Some twenty years ago his name appeared among the victims of a South Dakota Indian massacre and it was taken for granted by his relatives that he was dead.

ESCORTED BY WARSHIPS.

STOCKHOLM, Sept. 14.—A telegram received from Bjork, Finland, announces the arrival this morning at Virtaniell of the Imperial yacht Standart with Emperor Nicholas, Empress Alexandria, the heir apparent, and the princesses on board. The Standart is escorted by a number of warships.

TWENTY PEOPLE HURT IN OTTAWA FIRE

[BY DIRECT WIRE TO THE TIMES.]

OTTAWA (Ont.) Sept. 14.—[Exclusive Dispatch.] A terrible fire raged here at 2 a.m. The Gilmore House, a four-story building, crowded with guests, as it is exhibition week here, was burnt to the ground, loss $85,000, insurance $40,000.

A dynamo's motive power in some way exploded, the flames leaping up the elevator shaft, and in a few seconds the upper story and roof was a mass of fire.

Men, women and children, like rats in a trap, were caught, and, climbing to the fire escapes, piteously begged the crowds below to save them.

The firemen did wonderful work, and took eighty off the window sills and fire escapes.

There are no fatalities so far, but twenty are injured, with broken legs and arms and other injuries. Between two hundred and three hundred, at least, many of them Americans, were in the hotel.

CUBAN SOLONS GIVE PALMA FULL POWER

[BY THE ASSOCIATED PRESS—P.M.]

HAVANA, Sept. 14.—The extra session of Congress called by President Palma completed at one sitting the business for which it was summoned, namely: The granting to President Palma of the fullest powers not already constitutionally possessed by the Executive for carrying on the work, including the right to appropriate any public funds for war purposes, revoking applications voted at the preceding session of Congress, in order to permit the diversion of moneys to the prosecution of the war, and authorizing the increase of the Rural Guards to 10,000 and the artillery to 2000 men.

This trebles the former force of Rural Guards and doubles the artillery. These measures, which were combined in one blanket bill, were passed by party votes, the Liberals and Independents refraining from voting and the Liberal Nationalists voting with the Moderates.

President Palma submitted a brief message, principally devoted to deploring the conduct of the opposition, whom he charged with the responsibility of causing the rebellion. The message contained no recommendations beyond suggestions that Congress approve all recent Executive decrees and take such steps as may be deemed advisable for the ending of the war.

The President regretted that the first extra session of Congress should have been necessitated by a disturbance of public order, and said nobody would have expected that four years after the inauguration of the republic it would have been in the midst of a rebellion threatening the stability of the government, causing the sincerity of Cuban professions to be distrusted by the world and endangering the independence and sovereignty which had been purchased so dearly with the blood of thousands of Cubans after long years of cruel sacrifices.

Who, asked the President, would have supposed that with the prosperity of the country and the welfare of the people advancing, with millions in the treasury after paying $16,000,000 to the army of liberation and investing $11,000,000 in public improvements and with such great credit abroad, there would be Cubans who would conspire to change the constitutional order by placing force, violence and anarchy before the law, order and peace, to the country's shame and sorrow.

The message sketched the events of the revolution, the imprisonment of alleged conspirators and the landing of the military force, and said it would not be discreet to send more soldiers from Havana. The revolution found the government without sufficient arms, ammunition or horses and the administration had done the best it could in providing these, calling volunteers, organizing militia, etc. The message continued: "The growth of the rebellion has been such that it cannot with our resources prevent the rebel forces scattered over an extensive area from entering towns and destroying property."

When the Senate assembled, it was one short of the necessary two-thirds for a quorum. After the message and blanket bill had been read, Senators Ilacks, Liberal and Señor Sanguily, Independent, called attention to this, disclaiming any intention of obstructing Congress during a grave situation, but insisting that the discrepancy be made a matter of record.

Senator Bravo Correoso, another Liberal, made a motion that in an extraordinary session the quorum was not necessary, and the view was affirmed by a party vote.

Senator Sanguily made an appeal for peace, begging the Senate to forget partisanship and to seek a peaceful way of securing peace. He pledged himself to support the President in every way to secure the possibilities in accordance with American intervention.

SAN FRANCISCO EARTHQUAKE.

Graham Becomes Executive Committeeman for Non-Partisan Movement.

At a meeting of the executive committee of the Non-Partisan movement, held in the Board of Trade rooms, No. 424 South Spring, yesterday afternoon, it was decided that the time stated in the call was sufficient to insure a full attendance of business men, and that no change in the time would be made. Mr. Graham resigned the chairmanship of the executive committee, and Chairman Dunn appointed Mr. Graham chairman of the committee. Mr. Graham declined to serve on the committee at this time as possible, but consented to act as

FAST, SLOW, DON'T PLEASE.

Cars Speed End of the Eight-Mile Law.

Beach Rebels at a Strict Observance.

Try Again to Succeed Pedestrianism.

The two days and nights of awful pain and unspeakable woe, caused by grinding of teeth, the destruction of conversation along the sands and the loss of good fat jobs for the boys, the people of Long Beach decided that walking is not good for them and will again patronize the electric cars, which in consequence will once more be speeded up from the snail's pace to which they were reduced by the objectionable speed ordinance.

The opposite towns were regarding with glee jibs the spectacle of Long Beach suffering from a dose of the medicine which they had sought to administer to the Pacific Electric Railway. To the victims themselves it was by no means a laughing matter. After the first few days the pokiness of an eight-mile gait within the city limits and a schedule of an hour and fifteen minutes for a round day, the dose became almost more than could be endured.

Last night a special session of the Board of Trustees was called, and at the request of the retail merchants the speed ordinance was marked for repeal. An ordinance rescinding the speed ordinance was presented for first reading, it can not be advanced to second reading within five days, but in the meantime the assurance was given that undoubtedly the Pacific Electric will be advised that it is not the intention of the authorities to prosecute for violation of the speed ordinance while it is dying, but will restore the former schedule forthwith.

It is possible that the Board of Trustees will substitute another ordinance covering speed regulations of all wheeled vehicles within the city limits, it is generally conceded that the new ordinance will be milder and more conservative in its terms, but will not contain the back kicker which made the ordinance which so thoroughly disgusted its authors.

THOSE DISTINGUISHABLE.

Long Beach people in Los Angeles can be easily distinguishable by their apoplectic tinge of their faces and the strong words with which they ornamented the atmosphere while talking between the prosecution of the new eight-mile-an-hour ordinance within the city limits of the city and the management of the Pacific Electric Railway was still in statu quo was all on account of the presence of the law on the part of the company. The ordinance provided for eight miles an hour while the cars were run on a speed basis of all day, as on the day before, returning exactly to the schedule of the recent Councilmanic ordinance.

The motorman of the electric line, issued a specially compiled schedule to the conductors, showing their exact time at different points. The manner in which the motormen obeyed the new schedules and crept over the first miles within Long Beach, and then furiously the cars flew at the end, was maddening to travelers. Everybody took it all they recognized that the part the justice of the law by the company, and their wrath in expressing their views of the framers of the

DAVE MCMILLAN.

Dave generally has been given an erroneous idea of the attitude of the company with regard to the speed schedule of Long Beach and J. McMillan, superintendent of transportation of the Huntington yesterday afternoon. He is naturally inclined, and a lot of fellows following their usual habit to have the impression that they are engaged in a most telling and annoying the people of Long Beach because they passed a speed ordinance. This is far from being true, and is shown by the fact that we endeavored to give Long Beach the service which it has enjoyed in the past even after the passage of the ordinance.

"But the arresting of our train crew was not all by any means. It may interest the suffering Long Beach residents to know that we took action in the matter only after J. H. Enlo, not content with securing the arrest of the train crew yesterday, notified our superintendent that he better bring down eighty extra crews as he intended filling the Long Beach jail with Pacific Electric trainmen. He further boasted that he would take an automobile and pace every car coming into or leaving the city, and if he found that any time any of the motormen were exceeding the eight-mile limit of the ordinance he would have the crew arrested.

"Under the circumstances, what other action than what we have taken for the protection of ourselves and our motormen can be expected?

"I have just had the pleasure of entertaining a committee representing the Board of Trustees and the Chamber of Commerce of Long Beach. They came in and asked if we couldn't arbitrate. Now, what do you think of that, arbitrate?

WHAT TO ARBITRATE?

"I asked them what, in heaven's name, there was to arbitrate in the enforcement of the law which they were responsible for themselves. I told them that whatever might be the views of the company on the justice or the practicability of the speed ordinance did not enter into consideration, as we were determined to abide by the law.

"Then they charged that our cars were not running eight miles an hour, that through spite our motormen were not running faster than three miles an hour. The manifest absurdity of this I showed them by pointing out the exact schedule we have made for the run within the city limits of Long Beach, allowing seven and one-half minutes to the mile, which is just eight miles an hour.

"They protested that all the beach business would be diverted from their city, which we could not deny, as it undoubtedly will be if the car service remains as it is at present, and it surely will remain so as long as we are held up by the present speed ordinance."

The hour and fifteen-minute schedule to Long Beach, which was maintained all day yesterday, resulted in cars leaving the Pacific Electric depot about once an hour, instead of every fifteen minutes, as on the regular forty-minute schedule.

The traffic officials of the company declared that they were unable to put any more cars on the Long Beach line, as it had its full quota, and if the cars were prevented from making the round trip in the hour and a half usually required, that the other lines could not be made to suffer in consequence.

VALENTINE RESIGNS.

Graham Becomes Chairman of the Executive Committee of the County Non-Partisan Movement.

At a meeting of the Executive Committee of the county Non-Partisan movement, held at the committee rooms, No. 424 Merchants' Trust building, yesterday afternoon, L. H. Valentine stated that on account of pressure of business he was compelled to resign the chairmanship of the Executive Committee, while retaining the chairmanship of the parent organization. He remains on the Executive Committee, and will devote as much time as possible to the affairs of the committee. S. C. Graham was elected to fill the position of chairman, made vacant by the resignation of Mr. Valentine. The committee is working hard on the ticket, and is expected to present it to the full organization in a few days.

WORKMEN FALL THIRTY FEET.

Amid the crash of timbers being broken by the collapse of a scaffold, three carpenters fell headlong thirty feet to the ground yesterday at the Euclid-avenue school, the men being Richard Strand of Compton, John Westlake of Stanton and Ross Hood of No. 627 East Forty-ninth street.

Strand sustained a fractured leg and many cuts and bruises. Westlake was injured internally. Hood had his wrist broken. An ambulance call was sent to the Central Station, and the men were taken to the Receiving Hospital.

The injured workmen were extricated with difficulty by their companions from the planks and boards which lay heaped over them.

Faulty construction of the scaffold is said to have caused the mishap.

POLICE COMMISSION CONCEALING CRIMES.

In suppression, officially declared of the city's peace officers by the Police Commission, the people of Los Angeles in ignorance of crimes in many instances.

Numerous of dismissal officers are now said nothing of what has happened to men working with them, heads of their departments. This suppression, has for three days existed in the central station. Reverences to the letter is learned from uniformed men

When the Police Commission has its three men censors of news who decide what the people of Los Angeles shall know concerning crimes committed in the city, consists of Chief of Police Walter Auble, Captain Paul Flammer, and Captain Thomas Brodhead. Each of these three be present in person and give him permission, before telling of any crime is in contemplation from the text of the Police Commissioner's order.

Thus, should a prominent citizen be killed by burglars at 10 o'clock in the evening, and an officer let reporters or the public know this fact, he would be violating the rule, and subject to loss of his position. Chief Auble named neither Chief Auble, Captain Flammer nor Capt. Brodhead at the central station. The fact of the murder could not pass from police to the people until next day.

Should this rule has been observed to the letter. As a consequence police officers have begged reporters to ask them concerning crimes committed concerning crimes. Information gained through trust of the officers, many talked, these officers still that telling such news was denied.

The Commission's order says that before getting news of a crime reporters in a case must give information of said crime's commencing with him, or to the particular department. The effect of the above is appended order's effect has been. Many reports and reliable robberies have been kept from the central station. Even cases were fakes. Others were genuine. A number of these in during the year. In some was the public allowed to know of such crimes until late next day. In many cases the knowledge never did reach the public through the police.

An example is the robbery of John H. Brown by a woman, who met him in the Saddlerock restaurant on Spring street, near Third. This robbery took place last Sunday night. The victim spent the next three days about the Police Station. He had lost $185 and wanted it back. The robbery was not given publicity when it was reported, nor did publicity come for three days. Then one of the victim's companions saw the woman and telephoned to the police. They made the arrest. No bulletin was issued. Through their own eyesight and hearing central station reporters learned of the arrest. They then gleaned the facts from the victim. Incidentally, the woman was released the next day.

In all the long list of murders which have shocked Los Angeles during the summer just past, none save the murder of Mrs. Cook by Fred Cook were given publicity by police officers. In every case the news came in, either through outside channels, or by virtue of the fact that every news gatherer in the central station uses his eyes and ears to the best of his ability. The same is the case with every big crime during the past year in the city. In all these cases the public has learned of such things because its informants, the newspapers, broke through a ring of censors and emerged with the information.

A few instances of suppressed crime have been cited. They are but a few out of many. What knowledge the people of Los Angeles gain of crimes committed in this city is obtained in spite of the efforts of the police.

RELIGIOUS.

THIS CHURCH A MONUMENT.

Handsome Structure Reared at Decade's Close.

Naomi Avenue Christian Church Name Chosen.

Mission Congregation Has a Stately Edifice.

The Naomi-avenue Christian Church will be dedicated Sunday morning a week. Rev. C. C. Chapman of Fullerton will preach the dedicatory sermon at 11 o'clock. At 3 o'clock in the afternoon there will be a congratulatory service and communion, and in the evening at 8 o'clock Frank K. Lewis, secretary of the Southern California Missionary Society, will deliver an address.

Ten years ago the church was organized as a mission and was supported by the First Christian and the Broadway Christian churches. The

Naomi Avenue Christian Church, to be dedicated a week from tomorrow, and the pastor, Rev. Willis S. Myers.

organization has grown steadily. For a time the congregation worshiped in a hall at Central avenue and Eighth streets. Later a lot was secured on Eighth street just east of Central avenue, and in a building erected temporarily on the property services were held.

The building of the present structure was commenced May 1 and now it is almost ready. The dedication of the handsome church will mark an important era in the life of the congregation. The entire cost of the building is $15,000.

Rev. Willis S. Myers was called to the pastorate in August, 1904. Under his ministry the church has enjoyed a rapid growth, and 135 have been added to the membership. Rev. Mr. Myers is a forceful speaker and has the enthusiasm of youth to back his ambition to strengthen the spiritual life of the organization.

The style of architecture is English Gothic, 75x100 feet. The exterior is of shingle, with sandstone trimmings. The interior is finished in slash-grain Oregon pine.

The auditorium has the corner pulpit and bapistry arrangement, with choir and pipe organ loft on the left. An inclined floor, art glass windows and open beam work ceiling. The auditorium has a seating capacity of 600; the main Sunday-school room will seat 400, and the two rooms can be thrown together by sliding doors.

There are five separate classrooms, a choir room, robing-room and a ladies' parlor, with pastor's study and reception hall in the tower. In the basement there is a large dining-room, 36x54 feet, a kitchen and furnace-room. The building is lighted with electricity.

PASTOR RETURNS.

Rev. Jesse P. McKnight, pastor of the Magnolia-avenue Christian Church, has returned from a month's stay at Catalina, and will preach on Sunday, both morning and evening.

FONG FU SEC HONORED.

Fong Fu Sec, a Chinese graduate of Pomona College and of Berkeley and Columbia universities, was given a reception last night at the Chinese Mission of the Congregational Church, No. 103½ Commercial street. The young man has accepted the chair of English literature in the Canton Imperial University and will soon leave for China. Several hundred Chinese and American friends attended. Addresses were made by Rev. Warren F. Day, Dr. W. A. Lamb, Rev. Frank Forbes and Miss F. M. Findley, superintendent of the mission.

MEN'S PRAYING BAND.

The Evangelistic Men's Praying Band of the First Methodist Episcopal Church will hold a meeting for one week, beginning Sunday night at 7:20 in the Eastlake chapel, Hancock and Darwin streets, East Los Angeles. These men have been very successful at Grace, Garvanza, St. Mark, and Pitzer churches.

BIBLE LESSONS.

FOR SUNDAY-SCHOOL TEACHERS AND OTHER BIBLE STUDENTS.

Prepared for The Times by J. S. Kirtley.

SUNDAY, SEPTEMBER 16.

Mark xii: 13-27. Jesus Silences Pharisees and Sadducees.

THE CONNECTION.

It was Tuesday of the week of His death. After the triumphal entry on Sunday, He went to Bethany to spend the night, came in on Monday, pronouncing a blight on the fig tree as He came, and returned that night also to Bethany. On Tuesday morning they came in again, noticing the withered fig tree as they passed it, and spent most of the day within the temple enclosure in the fiercest controversy He had ever had with His enemies. The officials had arranged to entrap Him with questions, with the hope of humiliating Him before the people and also of getting Him to say something that would be construed into treason against Rome or against His own nation. They were divided among themselves, but were united against Him. They first asked about His license to teach and work miracles and for reply were convicted of lying and cowardice and had parables of fierce judgment spoken against them. The Pharisees are put to flight. Next the Herodians come forward with a question about taxes and when they are confounded by His answer, the Sadducees put their question about marriage.

THE LESSON.

I.

The Question About Taxes, 13-17.

"And they send unto Him certain of the Pharisees and of the Herodians, that they might catch Him in talk. And when they were come, they say unto Him, Teacher, we know that Thou art true and carest not for any one; for Thou regardest not the person of men, but of a truth teachest the way of God. It is lawful to give tribute unto Caesar, or not? Shall we give, or shall we not give? But He, knowing their hypocrisy, said unto them, Why make ye trial of me? Bring me a denarius, that I may see it. And they brought it. And He saith unto them, Whose is this image and superscription? And they said unto Him, Caesar's. And Jesus said unto them, Render unto Caesar the things that are Caesar's, and unto God the things that are God's. And they marveled greatly at Him.

1. The point of the question. It was asked, not by a truth seeker, but by a trick player. It was not impulsive and off-hand, but cold and calculating. It was a shrewd question, well devised to entrap an ordinary man. Taxation was a burden and was considered a sacrilege besides. To have to pay taxes to a foreign master was humiliating to the favored nation. The cruel amount of the taxes made it worse. The brutal method of getting it by force and fraud made it still more detestable to them. It was a delicate question. Nothing could discredit Jesus with the people quite so much as a wor approving the odious and onerous Roman taxes. On the other hand, Rome was just as sensitive about it as were the Jews. Tax dodging was treason and adverse criticism was likely to bring punishment. Nothing will sound so treasonable to Rome as a word from Him against taxes.

They have put a shrewd question that they think will compel Him to offend the Jews or the Romans. They do not care which. If He offends the Jews they will stir up a mob to kill Him on the spot by violence or demand that Rome permit them to execute Him according to their own laws. If He speaks against the taxes, they will report Him to the Roman officials for treason and compel them to arrest Him. They think they have a perfect trap, perfectly set to capture Him. They think there is only one of two things for Him to do—keep silent or speak one of two things. Silence will discredit and humiliate Him; speech will be fatal.

And their spirit was in harmony with their purpose—hypocritical and insinuating. They professed a desire for information and a confidence both in His wisdom and His trueness. They think they have Him in a dilemma and are awaiting His reply with sinister satisfaction.

2. His adroit and simple reply.

It was due first to His insight. He saw into them instantly, thoroughly and what He saw was deadly deceit. He saw into the question they asked—saw such deep truths involved in it as they never dreamed of. He had no need to give either of the answers they expected. He could select, out of all things to be said, whatever He wished and could thereby surprise and subdue them. His answer was also due to His perfect self-command. They were not hurting Him, they were committing suicide. At once, yet without haste, He could select the answer that suited the case. In His reply He went down beneath the question and without touching the surface points that they had raised. The two principles which He brought up for them are that no one should ever dodge his duty to the state, as set forth under the term Caesar, nor his duty his God.

3. Its effects. They were nonplussed and had nothing more to say. Their cudgel had been quietly taken out of their hands. They could not say a word in answer to the man who exposed their shallow and sinister thought in that manner. They marveled at His insight and dignity. The people heard Him and were confirmed in their previous admiration for Him. Its remote effects we are not done with yet. Men have been fathoming the depths of His words in recent years and have found Him giving us soul liberty—the right to worship God as He may lead us, without any interference from the state. Not till Roger Williams founded Rhode Island had the deepest teachings of these words ever been recognized by civil government.

II.

The Question About Marriage, 18-27.

"And there come unto Him Sadducees, who say that there is no resurrection and they asked Him, saying, Teacher, Moses wrote unto us, If a man's brother die, and leave a wife behind him, and leave no child, that his brother should take his wife, and raise up seed unto his brother. There were seven brethren, and the first took a wife, and dying left no seed; and the second took her, and died, leaving no seed behind him; and the third likewise; and the seven left no seed. Last of all the woman also died. In the resurrection whose wife shall she be of them? for the seven had her to wife. Jesus said unto them, Is it not for this cause that ye err, that ye know not the scriptures, nor the power of God? For when they shall rise from the dead, they neither marry, nor are given in marriage; but are as angels in heaven. But as touching the dead, that they are raised; have ye not read in the book of Moses, in the place concerning the Bush, how God spake unto him, saying, I am the God of Abraham, and the God of Isaac, and the God of Jacob. He is not the God of the dead, but of the living; ye do greatly err."

(1.) The humor of the situation. It was tragical, desperately so. It was also almost laughable. The Sadducees asked the question with the approval of the Pharisees. Strangely, the question showed the contempt which the Sadducees had for the doctrine of the future life that was dear to the Pharisees and the two sects had fought many wordy battles over it. The latter were willing to give their enemies an exposure of their common enemy, Jesus. The Pharisees winced, but waited with sullen hope. The Sadducees laughed in glee at the way they would show up Jesus and turn the laugh against Him, at the same time giving their allies, their enemies, a little drubbing. They thought it was glorious sport. They had Jesus cornered.

(2.) His reply. It exposed them to themselves and to the crowd. It showed them their insincerity, for they did not believe in the resurrection at all. It showed them their ignorance for the scriptures taught continued existence, while they denied it. It showed them their shallowness, for, even with continued existence, the grotesque supposition they put forward was an inept and awkward blunder. It was stupid. It exposed their lack of refined imagination, for any one should naturally have sense enough to know that relationships based on physical organizations pass away with the physical conditions that made them possible. It showed their insensibility to the mighty and ever present power of God. They knew the law that one might marry his brother's widow and the children would be accounted the first husband's, but they know not the life in those persons.

The defects He discloses in them are the defects out of which most of our errors come—ignorance of the Bible for one thing. And yet they may have taken some passage, here and there, out of its setting and appealed to it, in support of their theories. There was also wanting in them the religious life. They had no sense of God. Their spiritual capacity they had extirpated by disuse and misuse. Even without the scriptures, one with a true sense of God's presence in the world would know that our relations to each other in the spirit world are spiritual relations. But there is a statement that is worth our special notice. It is that the whole implication of the scriptures, as well as specific passages, requires immortality and resurrection. If He is the God of men who have left the earth, then they must be living. Every inference as well as every statement teaches the truth.

WHAT THE MASTERS SAY.

That, in giving an answer of which His enemies could not lay hold to his injury, he should have reminded them of their obligation to the government to which they were, in fact, subject (thus implying that the true kingdom of God was not national) and should also have recalled them to their forgotten duties to God, is wholly in accordance with his character as a moral and religious teacher. That He should have recognized the legitimacy of government was in accord with His entire spirit. The watchword of the Christian is not my rights, but my duties.—[Mathews.

If this question (of the Sadducees) was asked with the expectation of making Jesus ridiculous in the sight of the people, it was a marked failure, for His reply was so simple and straightforward that He won the admiration even of some of the Pharisees. The most significant feature of it was his argument from God's reference to himself as the God of Abraham, Isaac and Jacob; for in that He taught that the fact of fellowship with God implies that God's servants share with Him a life that death cannot vanquish.—[Rhees.

POINTS TO IMPRESS.

(1.) That hate is always foolish.

(2.) That even evil men know that Jesus is good.

(3.) That our duty is what is due from us.

(4.) That when we accept benefits from the State we should cheerfully discharge duty toward the State.

(5.) That any one that wants truth rather than more triumph can learn.

(6.) That the self-righteous are usually ignorant of the simplest things.

(7.) That the scriptures will settle all our questions.

(8.) That a lofty career awaits us on the other side of the grave.

CHRISTIAN ENDEAVOR.

THE WILL THAT WINS.

Terse Comments Upon the Uniform Prayer-meeting Topic of the Young People's Societies, Christian Endeavor, Baptist Young People's Union, Epworth League, etc., for September 23. "A Strong Will: How to Get It, and Use It for Temperance."—[I Pet. iv, 1-11.

By William T. Ellis.

Self-indulgence (and all intemperance is self-indulgence,) is innate weakness. It is the mark of the child, rather than of the man. It rules with undisputed sway in the lower orders of society, where men obey their own impulses as first law. It is among such that hate is more common than love, suspicion more common than frankness, deceit more common than honesty, and crime more common than unselfish helpfulness. The person whose chief inclination is to indulge self shows himself thereby to be allied, to the degree of his self-indulgence, with all that is weak and low and unworthy in human nature.

Only conquerors of self can conquer the whole world.

Strong characters all have strong convictions. They are accustomed to the use of the strong and mighty "Yes" and "No." And their "Yes" means "Yes," and their "No" means "No." They dare to disagree with anybody and with everybody, if their consciences so dictate. Majorities have no terrors for them. To them it is a small matter whether they are praised or not, but it is a great matter whether they are right or not.

Weakness of will always works woe.

It is the man with convictions who convicts men.

The average person needs an infusion of strength. He is inclined to weakness. His temptation is to be a part of a conglomerate crowd, when he should be an independent, individual personality. Instead of standing out, in sun-crowned manliness against ignoble tendencies, he becomes a craven follower of them. It is easier to be good-natured and complaisant than to be right and peculiar. Yet whoever would acquit himself like a man must be strong; for strength is the supreme seal of manhood.

Courage is a consequence of convictions.

We must be strong in ourselves before we can be strong for Christ. A decided character is a first requirement in him who would help push outward the borders of God's kingdom. If we are to count for Christ and righteousness, in the world, we must first count as men. Ciphers only complicate the problem of life. We who are sons of God, princes of the blood royal, should live the strongest, completest, and the most powerful life. For it is by our strength, by our power, and by our attractiveness, that the gospel of our Father is to be commended to the world.

New men alone can make a new earth. When men break away from the dominion of all lusts, when they become free in their self-restraint and temperance, when soul becomes king over body, when men yield obedience to their higher reason, and not to their passions, then will the earth be transformed into the very likeness of heaven.

The triumph of temperance can be accomplished only by the courage of the Christian.

The drunkard sells for a dram his divine right to rule himself. He drowns his kingship in the intoxicating cup.

There is strength in self-denial. It is good to do hard things simply for the sake of learning to do hard things. There is wisdom in the practice of some high souls who deal rigorously with themselves, just to keep their wills dominant over their wishes. None of us can trust himself always to follow his inclinations.

He who would be strong in his own soul must keep his spirit in control.

Union with Jesus is His own prescription for power and increase. As we abide in Him we grow. For Christian growth is due to divine power within, and that power comes to the branch through the Vine. Apart from Christ we perish; present with Christ we prosper.

Self-restrained, strength gained.

Satan is satisfied to have us abstain from strong drink if he can only make us intemperate in some other respects.

NEWS AND NOTES.

The French government, in legislating for the separation between man Catholic laymen might form societies to hold the property hitherto held by the church.

The Student Missionary Conference recently held in South Africa by John R. Mott, was the first fraternal assemblage of the Christian forces in that country since the outbreak of the Boer War seven years ago.

A new settlement building has been erected by the University of Pennsylvania in a laboring district of Philadelphia, at an expenditure of $60,000. The funds for its maintenance will be secured from the faculty, students and alumni of the university.

The leading Christian workers in fourteen centers in New York City last year were college men from Yale, Amherst, Columbia University, and the College of Physicians and Surgeons. So great was their success that this year the call is made for thirty men.

A recently issued report of the Internal Revenue Bureau reveals the fact that the people of this country consumed 160,000,000 gallons more beer during this past year than ever before, with a commensurate increase in the use of tobacco, at a total expense of $250,000,000.

Labor Sunday was observed in many churches on September 2. Although it is only a few years since this custom was instituted the observance of the day has been increasingly adopted by the churches as an opportunity to consider the relation of the church to labor.

A widely-circulated open letter, signed by all classes of men, has been presented to the Pope, asking that the tomb of St. Peter in the great church which bears his name in Rome should be opened, that positive proof may be obtained that this was the actual resting place of his body.

France is falling into line with the other nations on the rest day question. Laws regarding Sabbath observance have recently been passed by the government, which, while they make no requirement respecting worship, demand that one day in seven be set apart as a rest day with an entire cessation from all labor for all men.

A prominent leader in the British Parliament, R. W. Perks, stated recently that in order to test the efficacy of foreign mission work he placed a report of twenty years ago side by side with one of the present time and compared the figures. As a result of his study he increased his annual gift for this work from $50 to $2500.

Lord Curzon, during his American tour, is contemplating a visit to the headquarters of the various missionary societies whose representatives have accomplished much for India's betterment. As Viceroy of India he has had an opportunity to witness the far-reaching results of the work of the missionaries, and this public expression of his appreciation of their labors, especially in connection with the famine relief, refutes his views on this subject as voiced in his book on the Far East, written some years ago.

Christian Endeavorers from all the world gathered at the recent convention at Geneva, Switzerland. At one of the meetings there were representatives from thirty nations; addresses were given in twenty-five different languages, and the flags of thirty nations were stacked together on the platform. The programme bore the first clause of the Lord's Prayer and of the Twenty-third Psalm, a Bible invocation and benediction, and a verse of "Blest Be the Tie That Binds" printed in twelve different tongues, which were all that the printers of Geneva could cope with.

Special Sale of Lots Next Monday

--IN--

Poole & Jones Tract

The Jefferson street frontage east of Normandie avenue will be sold on Monday, Sept. 17, at the very low price of $2,000 for inside lots, terms $500 cash and $20 per month.

Jefferson street is now an important business street, and when the paving is completed will be one of the most desirable avenues of trade in Los Angeles. To secure a quick sale the owners have decided to sell at the above unprecedented low price.

It is an absolute fact that such an opportunity to secure a high class business lot at a low price and such easy terms has not occurred in Los Angeles in the last decade.

--TRACT OFFICE--

Normandie and 29th St.

JONES RYDER LAND CO.

CHURCH SERVICES.

SUNDAY, SEPTEMBER 16.

FIRST BAPTIST CHURCH, FLOWER ST., between Seventh and Eighth; Dr. Northrup's subjects, 11 a.m. and 7:30 p.m., respectively, are: "Denominational Ideals as Revealed by History;" "A Lawyer Seeking After Truth." Sunday-school at 9:30 and Young People's Meeting, 6:30. Tourists, traveling men and Baptist new comers are especially urged to attend our services. Annual business meeting of the church next Tuesday night. Splendid reports for the year's work will be read. Young men are wanted at both services. Did you not promise the old folks at home when you came out to the land of flowers, fruit and sunshine that you would attend church? Have you fulfilled that pledge? Let us help you by this royal invitation and hearty hand-shake at the church door. 15

TEMPLE BAPTIST CHURCH, FIFTH AND Olive; pastor Robert J. Burdette will preach at 11 and 7:45. Topic of morning sermon, "The Kingdom Invisible." Evening, the first of a series of three evening sermons, "The Speaker;" September 23, "The Hearer;" September 30, "The Common Blessing." Music under direction of Bruce Gordon Kingsley, Mus. Doc. Bible School at 9:30; Young People's meeting at 6:15. A most cordial invitation is extended to all persons to worship with us, with a special welcome for visitors and strangers in the city. The church is centrally located, in the great Auditorium Building, convenient to all downtown hotels. 15

THE LOS ANGELES FELLOWSHIP, BENjamin Fay Mills, permanent minister, Mary Russell Mills, associate minister, will speak at Blanchard Hall, 236 S. Broadway, at 11 o'clock on "The Church of the Spirit." Music by Miss Helen Teppe, soprano, and Mr. Alfred E. Walper, violinist. All seats are free and the public cordially invited. Sunday-school at 9:30 in Blanchard Hall, Charles H. Mills, superintendent. The lyceum at 9:45 in music room, 232 S. Hill st. Leaders, Reynold E. Blight and Elliott E. Shepard. 16

FIRST CONGREGATIONAL CHURCH, HOPE st. between 8th and 9th. Rev. William Horace Day, D.D., pastor; Rev. Warren F. Day, D.D., pastor emeritus, in the morning, the annual Christian Association service. Mr. Luther will represent the Young Men's Christian Association, and Miss Tathani will speak for the Young Women's Christian Association. Dr. Warren F. Day will preside. In the evening the third of the series on the Christian Church will be given. Topic, "The Book of the Christian Church." 15

IMMANUEL PRESBYTERIAN CHURCH, corner of Tenth and Figueroa streets. Rev. Hugh K. Walker, D.D., the pastor, will preach tomorrow at 11 a.m. and at 7:30 p.m. In the morning communion service with an address, "The Perfecting of the Saints"—some anniversary thoughts for Immanuel Church communicants; former church members are cordially invited to attend if possible. Evening sermon, "The Condition of a Crowned Christian Career." 15

ST. PAUL'S PRO-CATHEDRAL, 523 S. Olive st., hear all the leading hotels; the Rev. J. J. Wilkins, D.D., dean and rector. Services 7:30, 9:30 and 11 a.m.; Young People's meeting, 6:45; evening prayer and sermon, 7:30 p.m. The rector will preach. Subject, morning, "The Church at Work;" evening, "What is the Use of Going to Church?" All welcome. Strangers are invited to tarry for a moment after any service to meet the clergy. 16

SECOND CHURCH OF CHRIST, SCIENtist, Simpson Auditorium, 734 S. Hope st. Services Sunday, 11 a.m. and 8 p.m.; sermon from the Christian Science Quarterly. Subject, "Reality." Children's Sunday-school, 9:30 a.m. Wednesday evening meeting at 8 o'clock. Reading rooms, 510-511 Herman W. Hellman Bldg., Spring and Fourth sts., open daily, Sundays excepted, from 9 a.m. to 5 p.m. 16

MAGNOLIA AVENUE CHRISTIAN CHURCH, West 25th and Magnolia avenue, Jesse D. McKnight, pastor. ROOM PROBLEM BOTHERS.

Huntington Beach High School Trustees Troubled to Find Quarters for Pupils.

HUNTINGTON BEACH, Sept. 14.—The trustees of the new High School here are busily engaged getting everything in shape to open Monday in the Methodist auditorium on Eleventh street. The school will be held in the building until the High School is built. The teachers engaged are S. M. Abbott, principal, Edward Soloman, vice-principal, and Miss Bixbee. A large out of town attendance is expected as there is no High School nearer than Long Beach or Santa Ana, which has been of great inconvenience to pupils heretofore. The directors of this new High School are J. M. Cain, J. L. Farrar, J. C. McDowell, of the Peatland district, L. S. Wilkenson of Newport Beach, and C. W. Warner of Huntington Beach.

HUNTINGTON BEACH NOTES.

D. A. Munger, general agent of the Pacific Electric Company and [illegible] Brown, commercial agent of the [illegible] Lake Railroad, visited at Huntington Beach yesterday, and with the local agent of the Pacific Electric Company, Isenberger, spent several hours driving through the celery country.

There are numerous [illegible] about here of late. Small [illegible] digging the younger ones out of the ground and putting them to [illegible]

Lena Reader came to Huntington Beach two weeks ago and commenced to hand out "temperance" [illegible] on Main street near the postoffice from a small movable stand. [illegible] she did something beside dispense temperance, she got out in the street and engaged in a fist fight with a [illegible] She was arrested for disturbing the peace. The woman was [illegible] short time to leave town, which she did.

The celery planting season is [illegible] over. The Golden West Company has 450 acres, J. F. Lewis has [illegible] acres, J. F. Shaffer and Gerhart Robert also 100 acres. In the vicinity of Gilbert, the Japs have put out a large acreage.

INJURED BY SEWER GAS.

S. Ingmires, chief sewer inspector of the city, and Harry Gould, one of his assistants, were burned yesterday by an explosion of sewer gas at the corner of Main and Los Angeles street. Supposing the sewer had caused water to back into adjacent buildings, Ingmires and Gould were going down a manhole to let out the drain, gas caught fire from a lantern. The flame shot fifty feet into the air and burned about sixty seconds. The explosion threw Ingmires and Gould several feet up the street. Other persons there would have been fatally burned.

JEWISH SERVICE.

A free Shichos service, preliminary to the Jewish New Year services, will be held by Rabbi Isidore Myers, will be held in Simpson Auditorium tomorrow morning at 6:45 o'clock, when the Cantor Katz from Vienna will officiate.

Worth A Trial

DR. PRICE'S

WHEAT FLAKE CELERY

FOOD

"Is the most satisfactory of all the numerous breakfast foods now on the market. A most delicious breakfast dish, served hot—with cream and sugar—very nice baked with layers of sliced apples, a little cinnamon, sugar and butter, served as a pudding with cream. It seems to suit the most delicate stomach and is altogether worth a trial by every housekeeper.

MRS. DR. G. W. BOSKOWITZ, 140 West 71st St., New York City."

SATURDAY, SEPTEMBER 15.

TWO ELECTIONS WILL BE HELD.

Voting on County Bond Issue to Be Special Affair.

Merger With State Balloting Would Cause a Tangle.

Necessitates Extra Expense of Twenty Thousand.

The Board of Supervisors will not [illegible] the bond election for county improvements at the same time as the general election, on November 6. So much has been determined upon, though the District Attorney has not formally handed down an opinion on the matter to the board.

It will cost at least $20,000 to hold a special election, and the Supervisors are desirous of saving that amount to the county if the question of the bond issue could legally be submitted to the voters at the time of the general election. Chief Deputy District Attorney [illegible] took the matter up, and has arrived at the conclusion that it would be legal to hold the bond election at the same time as the general election, but it would not be politic to do so for several reasons.

There will be about 2000 election officers supervising the election next November, and at a moderate estimate it is reasonably certain that about 20 per cent. of the number will twist things up if there is any way to do so. For it is somewhat proverbial that election officers do things that would never occur to the ordinary mind. Then again, the question of the county bonds would have to be submitted to the voters on a separate ballot, and there would have to be a separate ballot box for their reception. Voting on the bonds could not be carried through the voting machine. The result in many cases probably would be that the ballots would find their way into the general ballot box and vice versa.

MIGHT CAUSE TANGLE.

All mistakes of this character might result in the invalidation of the returns from a number of precincts, and an almost endless amount of trouble. And last, but important of all—so far as the importance of the bonds is concerned—bond buyers seize upon the slightest pretext to challenge the validity of an issue, and with two elections held upon the same day it might easily be that objection would be raised just for the purpose of having the courts decide upon the validity of the issue, and, of course, that could only result in the [illegible] Court having the last say. The bonds would thus be lost.

Though $20,000 appears a nice lump sum when distributed over the entire $3,000,000 bond issue contemplated it by no means amounts to little, when it is considered that in the special election lies the [illegible] absolute safety. The necessity of raising the above sum of money has already been given in detail by the Times. The county is practically free from debt, the few outstanding bonds being merely carried over for a term that they cannot be legally redeemed before maturity.

There are five distinct propositions to be voted by the $910,000, and each issue, with the sum of money required, will be submitted to the people as a distinct issue. These several improvements are named herewith in the order of their importance:

The sum of $530,000 will be required to purchase the land abutting upon the southern boundary of the Courthouse property. There is a building standing on the New High-street site that is earning good interest on the investment, but on the Broadway side are only two small shacks and inferior buildings. With the old jail building and the old engine-house removed, the vacant ground extending from the Courthouse south will suffice for a Hall of Records worthy of the city, and also for the other offices made necessary by the congestion existing at the present time.

TO IMPROVE COURTHOUSE.

For the improvement of the Courthouse, of which the building referred to above will form a part, the sum of $300,000 will be required. Then the county officials that were ousted some months ago will be reinstated, and also a law library.

For an addition to the County Jail $100,000 will be needed, and whether another floor will be added or an entirely new wing provided is as yet uncertain. For the County Farm rather extensive changes will have to be made, and $50,000 made in accordance with the requirements of a recent enactment of the Legislature that the harmless insane receive special care. Heretofore these unfortunates have been sent to the State Hospital, only to be returned to the County Hospital, where they were occupied accommodation properly belonging to an entirely different class of patients.

The last but by no means least, $60,000 will be required for a detention home. The old jail building that is at present used as a detention home, is rather unsuitable, inconvenient, and [illegible] the wrong surroundings, even if it were not to be razed to the ground [illegible] will be, to make room for the improvements.

These five sums of money total up $910,000, and it is proposed to issue 4 per cent. bonds to cover the amount. The bonds of Los Angeles county form a [illegible] security and no difficulty [illegible] is contemplated in placing them readily.

INCANDESCENT TROLLEY.

Loud and Startling Crimson Illumination Furnished Along Pasadena Avenue Last Night.

Residents along Pasadena avenue, in the vicinity of Avenue 44, had their [illegible] illuminated early last evening [illegible] in a strange and almost terrifying [illegible] of an incandescent trolley [illegible]

A passing car jarred a break into the [illegible] wire, and the "overhead" came [illegible] for blocks in graceful loops and [illegible] Then, as an end came in [illegible] with the ground, the whole [illegible] slowly to a deep, dull red, and [illegible] there are no municipal lights in [illegible] vicinity, the municipal lights in [illegible] blocks had the festival appearance of a special crimson illumination. [illegible] interruption of traffic, no es[illegible] damage was done.

[illegible] closes in house for only $300 [illegible] monthly installments; price $1850. [illegible] at the same time benefit [illegible] to follow. JONES & RYDER LAND CO., 218 West Third street.

[illegible] Want to Go East C. Haydock, [illegible] Central R.R., 118 W. Sixth.

[illegible] Cough Syrup. Best for irritating [illegible] coughs. All Sun Drug Stores.

Have Your Sunday Dinner [illegible] Private, course dinner, 50c. Best in [illegible] 25 Seventh st.

[illegible] Property. The valuable income [illegible] Main and 28th streets, is offered [illegible] investment price. Only $16,000. Apply to JONES & RYDER LAND CO., Business Property 218 West Third street.

TWO ELECTIONS WILL BE HELD.

ding on County Bond Issue to Be Special Affair.

mulates Extra Expense of Twenty Thousand.

The Board of Supervisors will not the bond election for county im- ments at the same time as the al election, on November 6. So has been determined upon, the District Attorney has not formally handed down an opinion the matter to the board. will cost at least $20,000 to hold a al election, and the Supervisors desirous of saving that amount to county if the question of the bond could legally be submitted to the at the time of the general elec- Chief Deputy District Attorney ined the matter up, and has ar- at the conclusion that it would legal to hold the bond election at same time as the general election, would not be politic to do so for several reasons.

There will be about 2000 election of- s supervising the election next sunday, and at a moderate estimate is reasonably certain that about 20 per cent of the number will twist around if there is any way to do so, which is somewhat proverbial that election officers do things that would never occur to the ordinary mind of man. Again, the question of the county bonds would have to be submitted to the voters as a separate ballot, and would have to be a separate bal- lot for their reception. Voting on bonds could not be carried through the voting machine. The result in this case probably would be that voters would find their way into the general ballot box and vice versa.

ANOTHER CAUSE TANGLE.

Trouble of this character might re- sult in the invalidation of the returns from a number of precincts, and an enormous amount of trouble. And most important of all—so far as the sale of the bonds is concerned—would serve notice upon the slightest pre- text to challenge the validity of an issue with two elections held upon the day it might easily be that the issue would be raised just for the purpose of having the courts de- cide the validity of the issue, and, as the decision could only result in the bonds in favor having the last say. Would this be lost.

The $20,000 appears a nice lump sum to be distributed over the entire county, and issue contemplated it seems to little, when it is con- sidered that the special election lies within absolute safety. The neces- sity for the above sum of money has been given in detail by the County is practically sold, the few outstanding bonds merely carried over for the time they cannot be legally redeemed before maturity.

There are five distinct propositions to be voted by the $210,000, and each one for the sum of money re- spectively submitted to the people for their consideration. These several im- provements named herewith in the order of their importance:

The sum of $150,000 will be required for the land abutting upon the north boundary of the Courthouse grounds. There is a building standing upon Her High-street site that is a good interest on the invest- ment, but on Broadway side are only old shacks and inferior build- ings. With the old jail building and the police-house removed, the va- cant ground extending from the Court- house will suffice for a Hall of Records for the city, and also for the other offices made necessary by the offices existing at the present time.

IMPROVE COURTHOUSE.

The improvement of the Court- house, of which the building referred to will form a part, the sum of $50,000 will be required. Then the offices that were ousted some time will be reinstated, and also a new jury.

In addition to the County Jail will be needed, and whether an- other will be added or an entirely new one provided is as yet uncertain. The County Farm rather exten- sive changes have to be made, and these to be made in accordance with the provisions of a recent enactment of the Legislature that the harmless in- mates require special care. Heretofore these unfortunates have been sent to the County Hospital, only to be returned to the County Hospital, where they have no special accommodation properly belonging to an entirely different class of institution.

Then by no means least, $60,000 is required for a detention home. The present building that is at present used as a detention home, is unsuitable, inconvenient, and in the wrong surroundings, even if it were not to be razed to the ground to make room for the im- provement.

The sums of money total up $210,000, and it is proposed to issue 4 per cent bonds to cover the amount. The people of Los Angeles county form good security and no difficulty is contemplated in placing the issue.

I CURE MEN
THEN WHY WAIT

DR. TAYLOR
The Leading Specialist

Until your whole system is polluted with disease, or until your nervous system is tottering under the strain and you become a physical and mental wreck? With special diseases and weaknesses you can make no compromise. You must conquer them now by the right treatment, or they will fill your whole life with failure, misery and woe. Uncertain, improper or half-way treatment can only do harm. There is no cause productive of more sorrow, suffering and misery than neglected or improperly treated special diseases. In fact, the worst cases I have treated were those that had been improperly treated before coming to me, some having been maimed for life by bungling surgical procedures. I do not advocate such methods of mutilation or destruction in an effort to make a quick cure. Every afflicted man owes it to himself to get cured SAFELY and thoroughly.

I make no misleading statements or deceptive propositions to the afflicted, neither do I promise to cure them in a few days in order to secure their patronage, but I GUARANTEE a complete, safe and lasting cure in the quickest possible time, without leaving injurious after effects in the system, and at the lowest cost possible for honest, skillful and successful services. I cure

Weakness, Varicocele, Contracted Disorders, Unnatural Losses, Stricture, Contagious Blood Poison and All other Diseases Common to Men.

I Treat and Cure All Diseases Common to Men. You Pay Me When I Have Cured You.

A Lifelong Cure

Others May Treat But We CURE

You must come to us sooner or later. Why not now? Refuse to suffer longer on promises of others.

Our Best Reference Is Not A Dollar Need Be Paid Until Cured

There are so many men suffering from chronic Pelvic diseases and the greater number of these victims are still more unfortunate in treating with doctors who know only enough to produce temporary results, or a false cure, if they succeed in benefitting the sufferer at all. There is no such thing as a partial cure of a disease, and the physician whose method does not eradicate every vestige cannot rightfully claim to do more than relieve. Our Pelvic methods insure every man

A LIFE-LONG CURE FOR LOST VITALITY, PROSTATIC TROUBLES, VARICOCELE, KIDNEY AND BLADDER, BLOOD POISON, SPECIAL DISEASES.

STRICTLY RELIABLE

Our cure is a thorough and scientific course of treatment, which acts at once upon the nerve force, stopping the drain and replacing the worn out and run down tissues. It increases the weight in sound, healthful flesh and muscle that gives strength and fills the brain and nerves with fresh vitality, building up the entire system and transforming the sufferer into a type of perfect manhood.

STRICTURE You may have been "sounded" and "dilated," but you are not well and you know it. Perhaps you are relieved, but that is all. There may be others who know how to cure Stricture without operating, but we do not know who they are. We do know that we cure it, and you stay cured forever.

BLOTCHES and Skin Diseases cause great discomfort of body and mind. See the young man with pimples all over his face. See the fingers pointed at him. We can remove them in seven days, and cure you. We are your friends.

VARICOCELE Any doctor can treat it, but it requires the knowledge and skill of an expert to cure. We cure it and without an operation.

WEAKNESS Many men, young and old, have spent a small fortune in trying to regain their vitality. They become discouraged and disgusted. They get the blues. They have tried all patent medicines and only grown worse. Poor souls. Health and happiness can only be reached by a thorough, scientific, conscientious course of treatment. We can cure you, but not upless you use our treatment. Begin now.

LARGEST AND MOST RELIABLE PLACE IN THE CITY.

Write if you cannot call. All correspondence strictly confidential and all replies sent in plain envelopes. No names, cases, letters or photographs of patients published or exposed. Enclose 2-cent stamp to insure reply.

DR. GREENE & CO.

Rooms 12 to 16, No. 254 S. Broadway, Rindge Bldg.

MEN

ACURE Depends Upon the TREATMENT

Which must be direct, thorough, exact and right. My services are this and more—they are safe and painless.

VARICOCELE CURED FOUR TO SIX DAYS

Many men suffer from varicocele and have many times treated without satisfactory results. I want to say to all such that my treatment, personally applied, will cure you in 4 to 6 days, and the cure will be permanent.

FUNCTIONAL DECLINE.
Termed Weakness by Some.

The success I have had in restoring functional derangement has been a great surprise to many who have met with failure in former treatment. It's the right treatment applied in the right way that brings the satisfactory results. By my direct method all inflammation is removed, and free, healthy circulation is established.

CONTRACTED DISEASES

Failure to quickly cure these conditions is due to harsh measures, which are the direct cause for chronic conditions. My treatment is most cleanly and perfect.

I cure Rectal, Kidney and Bladder Troubles, Piles, Fistula and Blood Diseases, Wasting Nervous and Chronic Conditions, causing functional derangement, impairing strength and vitality.

HOURS—8 TO 4, 7 TO 8. SUNDAYS, 9 TO 12.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Teachers' Meeting.

There will be a teachers' meeting this morning at 10 o'clock in the auditorium of the Normal School. The Superintendent of Schools will deliver an address, and others will talk on topics pertinent to school matters.

Ohio Society at Naples.

The Naples Company will entertain the Ohio Society on Saturday of next week at Naples. This will be its September outing. Free boat rides on the bay, free coffee, good speaking and music will add to the pleasures of the day, and all Buckeyes in Southern California are invited. The fare will be 50 cents round trip.

Gashed by Steel Point.

The steel point of a broken foil fell from the stage at Fisher's Theater last night and cut a small gash in the face of W. P. Myers, No. 641 South Flower street. The injured man was sent to his home, and a doctor attended him. The wound is a slight one, extending an inch below the eye on the left cheek.

Two Night Schools.

Because of the interest taken in the night school, conducted last year, the Board of Education will open two separate schools, one at Castelar street and the other in the Olive-street building. Scores were enabled to take the special courses offered last year, and the cosmopolitan crowd which attended regularly included Chinese and Japanese pupils, and a man aged 60, who was learning to read and write.

Dead Horse Draws Crowd.

A horse with the "blind-staggers" dropped dead yesterday afternoon in front of the Hollenbeck Hotel. Its owner left the animal lying on the street and went to the nearest telephone to notify the "boneyard hearse." A large crowd gathered, and there was much speculation as to the cause of the animal's death. Several were sure a street car had killed the brute, others were convinced it was an automobile collision.

Benefit Ball for Refugees.

Arrangements for an entertainment and ball for the benefit of San Francisco refugees living in this city were made last night at a meeting of the Refugees Association; it will be given October 3. The association will probably be incorporated in the near future. One of the chief aims of the association will be to keep up a complete list of refugees living in this city and give out credentials for the same. The idea of this is to stop the fakers who are buncoing charitable people out of their money by falsely claiming to be refugees.

Home-Made "War."

Resting a day after his feat of projecting "Col." Dan Burns upon the unsuspecting and startled world as a reformer, Editor Earl of the Evening Express has unearthed another sensation. Its an Indian war—at Manvel, on the desert. Two wild and woolly chiefs of the Cocopah and Piute tribes fell on the street and shot each other's jaw bones off, and a white man who attempted to interfere was ground into snuff by their wrath. Sad to say, the Express seems to have strayed from the truth. There has been no Indian war, no pulverized white white man, and no slaughtered injuns. Was Editor Earl smoking the same brand when he extracted the same burning and reformatory remarks from "Col." Burns?

BREVITIES.

This afternoon at 1 o'clock and this evening at 7 the big Garden Fete benefit, Barlow Sanatorium. Vaudeville, negro minstrels, midway, side shows, Cleo, merry-go-round, Indian camp and various other attractions, 23rd st and Figueroa. Take University cars on Spring st., Friday evening, Saturday afternoon and evening. All welcome. Everybody come. Admission 25 cents; children 15 cents.

Omar Khayyam—lecture by Burt Estes Howard—University Church, tomorrow evening. (925 South Flower.)

Mrs. Grigg, principal of Cumnock School, has returned and is at home 10 to 4 daily, 1500 Figueroa street.

MENACES JAILER WITH KNIFE.

Prisoner Suffering from Alcoholism Runs Amuck and Is Overpowered After Fight.

Yelling like a Comanche Indian and armed with a long, keen butcher knife, William Patterson ran through the corridors of the City Jail last night and towards Jailer Murray. After a struggle in which the jailer came near being cut, Patterson was overpowered and locked up.

Patterson was arrested three days ago for drunkenness and was sentenced to four days. Since his confinement he has been ugly. The police surgeons say that he is on the verge of an attack of delirium tremens and was mentally affected when he made his attack on the jailer.

Sneaking out from the lower tanks about 9 o'clock, Patterson stole into the jail kitchen and there secured a knife. He made his way past the trusties on duty and ran towards the jailer's office. As he entered he flourished his long knife and yelled. The fight followed.

A new 5-room close in house for only $200 cash and $20 monthly installments; price $1950. Own your home and at the same time benefit by the increase in the value of the property which is sure to follow.
JONES & RYDER LAND CO.,
213 West Third street.

NEW FACTORY FOR ANGEL CITY.

LARGEST SHIRT AND OVERALL MILL ON COAST PLANNED.

Company Will Erect Building at Twelfth and San Julian Streets. Five Hundred Women and Girls Will Be Employed and Number Is to Be Increased to One Thousand.

The largest shirt and overall factory on the Pacific Coast will be established in this city by Cohn, Goldwater & Co. Work will be begun next week on a four-story concrete building to cost $50,000, and which will house $15,000 worth of machinery. The plant will have a capacity for the employment of 1000 women and girls. Immediately after the completion of the factory 500 persons will be employed, and this number will be increased gradually from time to time.

The site purchased by the company is the northwest corner of Twelfth and San Julian streets, two lots with 150 feet frontage on Twelfth street, and 115 feet on San Julian to an alley. The property was sold by E. R. Brainerd, through the agency of F. E. Robinson & Co. The consideration was $25,600. There are two cottages on the property and these will be removed at once to make room for the excavations.

New factory to be built here, largest on Pacific Coast, which will give employment to five hundred women and girls.

The building will be 100x150 feet in floor area. There will be nine stores on the Twelfth-street frontage. One-half of the first floor will be reserved for the piece work and finishing department of the factory. The second floor will have the cutting department and a restaurant and rest-room for the employés. Food will be served to the workers at cost price.

The third floor will have dressing-rooms for the girls and lockers for their individual use, and the balance of this floor will be occupied by the shirt department, where 100 machines will be in operation. On the top floor there will be 400 machines for sewing of overalls and similar heavy goods. All machines are to be operated by power, and the company will have a power plant established on its first floor.

This factory, which is now operated at No. 244 New High street, was started fifteen years ago by Morris Cohn on North Los Angeles street. A year ago the company completed its five-story block at No. 216 South Los Angeles street, where it occupies the entire five stories with its wholesale business.

BURNED AS SHE FIGHTS FLAMES.

WOMAN NEARLY PERISHES IN TRYING TO SAVE HOME.

Mrs. M. E. Spangler May Die as Result of Injuries Received While Attempting to Stay Progress of a Fire—Men Seize Her and Drag Her to Place of Safety.

Mrs. M. E. Spangler was nearly burned to death last night about 7:30 o'clock, while trying to save her home at No. 853 Lee street from destruction. Although the flames had gained great headway in nearly every part of the house, Mrs. Spangler worked desperately and was finally rescued by neighbors. She was removed to the home of E. A. Spangler at No. 1009 Lee street, and at midnight was in a critical condition.

Heat from a stove placed near the wall of the tenthouse in the kitchen charred the woodwork and ignited it. Flames ran up the canvas sides of the house and caught the woodwork of the house.

Mrs. Spangler took hold of the hot stove, pulled it from the blazing woodwork, and began to tear the burning walls down in a vain effort to stay the progress of the blaze. Finding that she could not save the house from destruction, Mrs. Spangler again entered the house to carry out articles of furniture.

Vain efforts to dissuade Mrs. Spangler were made by her friends, but she paid no heed. Finally, two men dashed and seized Mrs. Spangler and dragged her to a place of safety.

The doctors say that they cannot tell how serious her injuries are until later. It is evident that she inhaled much of the poisonous heated gas while in the house during the fire. Before the department arrived the house was totally destroyed.

WANTS MORE POLICE.

Ninth Ward Improvement Association Will Ask for Station and Six Additional Patrolmen.

Ninth Ward people want a police sub-station and six extra patrolmen. Councilman Blanchard will be asked to present the request of citizens of Boyle Heights and vicinity for better police protection. Action was taken, and a committee was appointed to take the proper steps in the matter, at an enthusiastic meeting of the Ninth Ward Improvement Association last night in A.O.U.W. Hall on East First street. The Ninth Ward has one patrolman during the day, and two at night.

Unless the residents of Euclid Heights secure at least thirteen additional lots, the park site on Euclid and Stevenson avenues, which has been offered the city, will not be accepted. The Park Commissioners looked over the ground yesterday, and decided not to accept the offer at present.

Get That Clock Fixed

If your clock isn't accurate, it ought to be. Costs very little for expert clock repairing at the Geneva. If you'll call phone 2064 or Main 6418 we'll send our wagon for your clock and save you the trouble of carrying it. No extra charge for the wagon service.

BEAUTY AND CHIVALRY OUT FOR CHARITY IN BRILLIANT AND PICTURESQUE FETE.

WONDER GARDENS.

WHEN Thomas A. Edison invented the incandescent light he made possible a scene such as was presented last night within the lawns and gardens of three residence plots on Figueroa street. But before Edison ever was, God placed the glow of charity in the human heart. After Edison came Dr. Barlow and his sanatorium. Then came they who planted the lawns and the gardens, and gave them over to the uses of charity. Anon, on a summer's evening, came the crowds to make the fete. They passed from the commonplace through turnstile gates, and stood in Fairyland.

The Barlow Sanatorium Garden Fete is a society event, yet there were present last night only the representatives of one class of society. In the gardens of wonder stood that portion of society which has the wealth of this world's goods to command. And there was a great throng of them. Los Angeles is a wealthy city. Under the flame of the lights were hundreds upon hundreds of men in full evening dress. Wherever one turned the eye was dazzled by the flash of jewels and precious stones on the hands and bosoms of almost numberless women. There were young girls in the pageant of color decked in the mimic garb of gypsies and the picturesque peasant raiment of quaint countries over seas. But never Romany nor peasant wore covering costly as that which hung from the shoulders of these merry Barlow girls. To dress that show and to adorn the fete in all its ramifications would require, as a commercial venture, a capitalization of many thousands of dollars.

Doubtless the other portions of society would miss so brave a show. It is inconceivable that any one in society would miss so grave a show. It was made for no special coterie, and it were no more a pity that it should be missed by the man with the "sack" than the man with the hoe. It is a spectacle the like of which has never been seen in the town. Tonight the populace will be there, not in throngs, but in armies, jammed shoulder to shoulder in mighty impacts, and trampling three of the finest lawns in the world into dry dust.

It was the good fortune of the writer to be among the first half-dozen persons who passed through the turnstiles after the tickets at the "box offices" had been placed on sale. It was the right time to make an appearance. The twilight had just faded, and night was just throwing the first soft folds of her shadowy mantle across the sunset hills. One moment the prosaic street. The next the magic world of the lights. In the midst of a broad expanse of deep green grass there suddenly shone a white chateau, and soon it lived, as in a dream, with fair women, white as the lights that shone upon them and beautiful as were in youth the grandmammas of them who bent and swayed in the stately minuets. Then, right and left and all around upsprang the miracle of flame.

Three not uncommon city lawns and gardens—that's the whole space in which the fete was permitted to encompass itself, as a matter of reality. And yet how could this be? From whence came these vague, stretching distances; that vast estate aflame as far as the vision could reach? It was the mirage of the lights. You stood on the portico of a palace, and away yonder you saw the fires of a gypsy camp at the edge of a dim forest. You passed from the glare of banquet halls to wander through crowded highways leading at length out upon the twilight of country lanes, into the will-o'-the-wisps of meadows and the trail of milkyways amid the soft traceries of summer stars.

It is another world—that place out there on Figueroa street behind its flimsy walls of canvas. It is a world that children see when they wander alone in nurseries, and sit with fairy books in sunny corners. It is peopled with men from the books that dreamers wrote for dreamers to read. It is filled with fairy princesses, with Nubian dancing girls, sorceresses of the Nile, and Romanies and the luring eyes of Angolalia.

IN THE MIDST OF IT.

Just who was the prettiest girl at the fete was something to set any head whirling, and more than one gay young bachelor was puzzled. And there were plenty of bachelors, too, and some—well, they were not all young, but they were all gay, anyhow; but who would not be?

'Twas hard to tell just where to pause, anyway, for on every side the newcomer was greeted by criers, who each outdid the other in loudness of voice and "loudness" of "make up" to a great extent.

But urged by the crowd, one moved, and the tea booth just to the left attracted much attention, presided over by fair ladies in dazzling gowns. R. H. Herron was there, too, smiling, and even poured tea, and raked in the coin with glee. He said: "Oh, don't mention that I'm with the ladies," just as if every one did not know he adored them. Well, this same tea booth was one of the star attractions. Teakwood

NEW SPELLING HOBBY OF HIS.

Says He Knows More About It Than Home Rule.

Timothy Healy, Irish Leader, Here on Visit.

Talks on Irish Questions and Spelling Reform.

Timothy Michael Healy, member of Parliament for County Louth, and long a leader in the Nationalist cause, is in Los Angeles on a vacation visit to the State that he saw twenty-five years ago, when it was not the country it is now. He does not look like a roaring leader of the recalcitrants, as the imagination pictures him, a steel-spring figure of a man ricocheting over the benches in full tide of impassioned speech. He has a calm and rather benevolent appearance, more like a German professor beaming on his pupils.

But behind his glasses his eyes are straight and true and seem to hit one straight out, and his voice, though low and even, leaves no doubt of his sincerity. He is a figure of leadership, although in a solider and more quiet way than many would expect from an Irish leader in the House of Commons.

For twenty-six years he has had a seat in the House, with the exception of about four months in 1886. Then, as he said last night, he "was defeated by the Orangemen, all on account of Gladstone and home rule."

Speaking of the seats he has held, he said: "I suppose I have represented more constituencies than any other man in Parliament at the present time. Our conditions are different from yours. Your offices are paid, and there is a feeling that they ought to be passed around. Then a man here must be a resident, which is not the case with us. Your country is so vast that a man from Maine could not possibly represent California. England and Ireland are smaller.

"The people there like to see the same faces in Parliament, and if they fail in one district they come in from another. Then you have so much talent here—and you use it up so quick."

AIMS OF NATIONALISTS.

"What are the immediate aims of the Nationalists, Mr. Healy?

"A separate nationality for Ireland is the final hope and ideal, but I shall never see it, nor may my children. At present we have good hopes of concessions from the Liberals. In the past twenty years there has been a change in England. Men seem disposed to repair the damage they have done, and the party in power is committed to some action that we believe will help us."

"There is a feeling in America that the present condition in Ireland is due perhaps more to internal conditions than to the political relations between her and England—that the emigration to America and elsewhere is the most serious problem you have to face. How true is that?"

"It is largely true. Ireland is a country bleeding at every pore—a broken and defeated country. The vital strength of the country, the strong young men and the marriageable women, are leaving it. Literally, those that are left behind are the maim, the halt, the blind, the diseased, the crippled, the insane. There are counties where it is impossible to get a man to plow, where the entire land is given over to grass, where even the cabbages are imported.

"But what is the cause of this? England has done it. There is no hope in the country for the strong men. There is no hope of advancement, few places that the Irish may fill. More and more this condition is being remedied, but it has existed and still does in some ways."

HYDE'S WORK VITAL.

"What part has the Gaelic League and the work of Dr. Hyde and his associates in the political situation?"

"It has no direct political part, but it is vital nevertheless. You may think the aims of the league somewhat fantastic, but let me explain. The killing of the Irish language was part of the attempt by the English to Anglicize the island. It didn't make the people English, it simply made them mean. The result has been the taking away of ideals, of the high regard for women, of the chivalry that once was taught by the stories and folklore. In the evening the peasant used to talk of

(Continued on Ninth Page.)

RESCUES BOYS FROM DEATH.

Man Breaks Into Blazing House and Saves Two Lads Amid Flames.

Undaunted by sheets of flame, Charles Kerns, a building contractor, burst open the door of a blazing residence yesterday and saved two little boys from being burned to death. A Carnegie medal is certainly due him for his highly heroic life-saving work. Kerns was directing his force of mechanics on a building opposite No. 951 East Forty-first street, the home of Mr. and Mrs. Fred R. Graff. Kerns noticed smoke issuing from the Graff house, and rushed to the place. Fearing that a child might be held prisoner behind the locked doors, or that some person was asleep, Kerns kicked in a door. Making his way through the burning rooms, Kerns finally found the two Graff boys cowering in the rear of the hall. He carried them out, and a moment later the house collapsed. The rescued lads, aged 2 and 3 years, had set the house on fire by playing with matches. The flames were fed by the explosion of a gasoline tank. The building and its contents were totally destroyed, causing a loss of about $800.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

At a meeting of the Fire Commission yesterday engine permits were granted against strong protests, on the ground that the city must have industries.

Charles McKeag, secretary of the Mayor, was yesterday chosen to fill the new position of secretary to the Fire Commission.

S. Baker and C. E. Howard, the latter a photographer, were arrested yesterday, charged with passing worthless checks. Baker was locked up. Howard's friends went to his rescue and settled the case.

Mrs. Ethel Rebecca Wilt created a scene in Judge Gibb's court yesterday when she was compelled to release the custody of her son to her husband, who is suing for a divorce. She cried out that she had been betrayed by her attorney.

Dr. J. C. Lindsay was awarded $5000 damages by a jury yesterday in his suit against Emil Celcovich and Michael Streiker, lessees of the Remick Building, where Dr. Lindsay was injured in an elevator accident.

Fifty-four aliens were admitted to citizenship yesterday, breaking all local court records for one day's naturalization grants. Thirty-one applications were also received during the day.

The grand jury returned two indictments yesterday, the names of the offenders being withheld. It was learned that both of the persons indicted are now out of the city.

Two worthless check passers were taken in by the police. The offense is said to be becoming common in Los Angeles.

AT THE CITY HALL.

"ENCROACHMENT" OF INDUSTRIES.

FIRE BOARD OILS WHEELS OF PROGRESS.

Growing City Demands That Manufactories Must Be Given a Chance. McKeag Elected to Place Created for Him—Park Sites Once More Declined.

A difficult task stares the Fire Commission in the face at every meeting. Industrial activity in Los Angeles is increasing rapidly, and from every quarter petitions are coming in for permits to operate power plants of every description. Almost with exact regularity the larger number of the residents of any given section are in the fight with a protest against the encroachment upon their "residence" district.

It is a hard proposition for the Fire Commissioners because they recognize the fact that if Los Angeles is to grow and prosper she must have manufacturing establishments, both to produce that which the people must have, and also to furnish employment for the bone and sinew—her laboring population. It is difficult, again, because the people who protest, and who are often almost unanimous in opposition to the proposed industry, have gone to the outskirts of the city and purchased homes under the impression that they were getting entirely away from the hum and noise of mills, and the "chuck-a-chuck" of their engine exhausts.

A hot contest has been waged against these encroachments by residents around Main and Jefferson streets. It is a beautiful, garden-like section, but it is the junction of several street railway lines and the Southern Pacific Railroad, and appeals naturally to industrial plants, several of which are now doing business there. Recently P. Duffy applied for permission to operate machinery in a planing mill, just west of Main and south of Jefferson, and the fight has been going on for several weeks. Yesterday he was given his permit, on condition that he move the mill 100 feet from the nearest residence. The protest was very strong, but the business situation was thought to be paramount.

G. W. Weifenbach has filed his petition to operate a power plant at his marble yard, just opposite Duffy, at No. 145 West Thirty-fifth street, and this will be considered at the next meeting of the commission. A protest is looked for, but it looks blue for the objectors.

Another application considered yesterday was from J. A. Clark, who wishes to run a gasoline engine in a furniture factory, a few blocks farther out, at No. 178 West Thirty-ninth street. The protest was signed by almost every property owner in the neighborhood, but the commission had looked over the ground and decided that there was no reason for objection, except the distaste of the residents at having their residence neighborhood invaded by industries. The petition was granted in spite of the protests.

The application of D. Allen for a brass foundry at No. 3115 Maple avenue, which was refused last week, was reconsidered and re-opened for a rehearing at the next meeting of the commission. Mr. Allen says he anticipated no objection, and therefore did not appear at the former meeting to defend his application.

An application of J. C. Rombold for a permit to establish a steam boiler in a mill at No. 1164 East Twenty-third street, to be considered at the next meeting, has already stirred up a hot telephone protest.

What looks to be another of the same kind, only "more so," is the application of L. E. Sowers to locate a gasoline engine in a planing mill at No. 997 Hobart boulevard.

JOG, OR NO JOG.

OPENING OF TWELFTH STREET.

A large delegation of people interested in the proposed opening of Twelfth street, between Figueroa and Georgia street, presented two sides of the proposition to the Board of Public Works yesterday. There are so many "jogs" in the streets out that way that it is easy to get mixed, and President Anderson expressed himself several times during the discussion to the effect that it would certainly be ill advised for the city to form any more jogs. He favored a street cut diagonally from Figueroa street to Georgia, as advocated by one part of the property owners, while another portion of them contended for the jogs. Still another proposition was to continue the street straight through from Figueroa to Sentous street, by cutting a strip from the lots on the south side of Twelfth street, as it is now open from Georgia to Sentous, where there would still be another jog or curve. The matter is to be left to the decision of the board, according to its best judgment, after the ground has been viewed.

M'KEAG GETS HIS.

SECRETARY TO FIRE BOARD.

Charles McKeag, who has been secretary to Mayor McAleer since the latter's election, and who has also been acting clerk of the Fire and Police commissions, was yesterday put in position to hold his job, whether McAleer should be the next Mayor of Los Angeles or not. He was elected by the Fire Commission to the place of secretary of that board, a position created by the City Council a few weeks ago, and carrying with it a salary of $150 a month. The same ordinance makes it the duty of the secretary to act as clerk to the Police Commission without compensation.

It is generally understood that the place was created for Mr. McKeag, and as he is a genial, competent secretary, there seems to be no kick. In addition to this fact, he took the civil service examination for the place, and passed by the remarkable percentage of 98.7.

PARK SITES DECLINED.

TIME FOR CONSIDERATION.

The Park Commission held a special meeting yesterday, after having inspected the proposition that they become responsible for the maintenance of five blocks of "park ways" in the center of Andrews boulevard, when that street is completed. The request of the promoters was denied, but it is likely to come up again at a future meeting of the board, Mr. McGarry giving notice that he would move a reconsideration.

The proposition of W. H. Workman and J. Harvey McCarthy to present to the city nine acres of ground for park purposes, on Euclid Heights, was laid on the table for the time being, with indications that it, too, will have a future rehearing.

A communication was addressed to the City Council asking that the number of park employes be increased from seventy-five to eighty-five. It is not desired to put all these men on at once, but to hold them in reserve for emergencies.

FIREMEN'S TROUBLES.

CIVIL SERVICE SLIPPED.

L. L. Amick is a young man who never drove a horse; who didn't know what it meant when the captain of Engine Company No. 10 asked him how "that horse corked himself," and yet he is the same young man who passed examination before the Civil Service Commission for a driver in the Fire Department, was certified by them and appointed to No. 10.

He has been there for a year and a half, doing pretty much as he pleased, obeying orders as a rule under protest, and acting generally as if he had the Fire Department by the horns. He finally reached the limit, and was placed on the carpet before the Fire Commissioners for insubordination.

Amick in fact seemed to want the captain to say "please" when giving orders; acknowledged that he isn't a teamster, doesn't like to drive horses, and that he had taken the examination because there is more money in it. He attempted to defend his conduct toward the captain, but was dropped from the rolls with a thud "for the good of the service," the vote being unanimous.

The case of Lieut. E. Whalen of No. 19 was different. He got drunk and acknowledged it, but he has been a good fireman in the department for four years, and this is his first offense. He was fined $20 and warned that another offense would cause him to be dropped.

GROWING CITY, ENGINEER FAR BEHIND.

Ralph Sullivan, representing several improvement associations in the University section of the city, appeared before the Board of Public Works yesterday to learn something of the progress of the paving of Jefferson street. The people living along the street are anxious to have it paved and are ready to put up the cash to have it done at once, but they are up against one of the problems of a city that grows. Twenty miles of paving are now under way or ready to be commenced, and the engineer's office is two years behind with its work, and it was demonstrated to Mr. Sullivan that Jefferson street will have to wait its turn, no matter how willing the people may be to pay for quick service.

AT THE COURTHOUSE.

MOTHER FORCED TO LEAVE SON.

ORDER OF COURT GIVES CHILD INTO CARE OF FATHER.

Wife Being Sued for Divorce Cries Out That Attorney Betrayed Her and Creates Scene in Attempt to Retain Hold on Lad—Repudiates Agreement of Her Counsel.

Mrs. Ethel Rebecca Wilt was compelled yesterday to release the custody of her five-year-old son, owing to a court order in favor of her husband, Herbert Wilt, who is suing her for a divorce.

When the husband offered to take hold of the child in the courtroom to take him away, the young mother objected, but was restrained. She was advised to let the child go quietly, but with a piercing shriek she fought to hold her boy and cried out that she had been betrayed by her attorney and that she had never consented that the little one be taken by the father.

It was some little time bfore the sorrowing mother could be quieted. The difficulty arose out of her ignorance of one of the forms of court. The wife was cited to appear yesterday in the divorce suit and show cause why the husband and father should not have the custody of the child pending the decision of the suit. At the last moment the attorney for Mrs. Wilt informed Judge Gibbs, in court, was willing to stipulate that the plaintiff have possession of the child pending the trial of the divorce suit, reserving, however, the right to see her boy once a week. That stipulation wiped out the citation and ended the day's hearing of the case.

Just what Mrs. Wilt thought had been done, or what significance attached to the words of her attorney was not learned. She was so overcome, however, when the moment arrived for her to surrender her child that she repudiated the agreement she had entered into.

The Wilts lived at San Francisco and it is alleged that the wife sold off the furniture of the home and returned to Los Angeles with her child. The husband claims that she deserted him, but friends of the wife claim that as the proper time it will be shown that he was cruel in his behavior toward her.

LOCAL RECORD-BREAKER.

MANY ALIENS NATURALIZED.

The naturalization of aliens is occupying a large part of the time of one judge each Friday morning, and yesterday the record in this regard was broken. Judge Gibbs gave papers to many applicants, and later Judge James admitted a number.

Altogether fifty-four applicants were admitted to citizenship, the highest number for one day ever known in the local courts. There was a dearth of ignorant men among those appearing. Nor did they belong as a group to the city and suburbs. They came from all over the county, Swedes, Germans and Swiss being most numerous; and the answers made showed that they were well informed regarding the mode and method of government in this country.

During the day there were also thirty-one applicants for first papers. This batch was not up to the standard of those admitted to citizenship. The editor of a foreign paper who has been interesting himself for some reason or other in rounding up the foreign contingent, brought several aliens to the Courthouse.

INDICTMENTS RETURNED.

GRAND JURY MAKES REPORT.

The grand jury reported to Judge James yesterday for the purpose of handing down two indictments. The court having glanced at the two documents, ordered two bench warrants to issue, and then the grand jury retired again to their room and shortly afterwards adjourned. A little later the warrants of arrest were placed in the hands of Under Sheriff Yonkin for service, but information regarding the two persons indicted was refused absolutely. Later in the day, however, it leaked out that neither of the persons indicted is in the city, and that it may be some days before service can be obtained.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

AWARDED DAMAGES. Dr. J. C. Lindsay was awarded $500 damages by a jury yesterday, in Judge Bordwell's court, in the suit against Emil Celcovich and Michael Streiker, owners of the Mammoth Shoe Store, and lessees of the Remick Building on South Broadway. Dr. Lindsay was injured in an elevator accident there last year.

BRUTE IS HELD. Frank B. Collins was yesterday held by Justice Young to answer a felony charge in the Superior Court in the sum of $1500. The defendant is charged with an attack on a 9-year-old girl, Hazel Belle Stickly, outside the city limits, on the San Fernando road.

WOOD CAMP QUARREL. Nicholas Kramer was arrested in a wood camp near the Cienega schoolhouse yesterday by Constable De la Monte, and was held in $100 bail by Justice Young. Kramer is charged with having assaulted William P. Railsback, who runs the camp. The latter claims that the man had not worked for ten days but hung around and finally became abusive and made the assault. The accused, however, claims that Railsback had held back part of his wages, and that the trouble grew out of a dispute.

CLAIMS MAINTENANCE. Bertha L. Kreamer has begun a divorce suit against Rollin A. Kreamer to compel him to contribute $30 a month to her support, pay $75 attorney's fee, and also pay costs of the suit. They were married in Colorado in 1901. She claims he deserted her last November. The husband is employed by the Los Angeles and Redondo Railway Company.

WOMEN'S CORPORATION. The Land, Sand and Sea Investment Company has incorporated with a capital stock of $200,000, of which $350 has been subscribed. The directors are: Susan M. Sweet, Clara S. Foltz, Anna M. Logan, Los Angeles; Francis A. Waddingham, Riverside; Mary G. Dawes, Long Beach; Della M. Sweet, South Pasadena; and Caroline B. Leonard, San Francisco.

WOMAN GETS DIVORCE. Florence A. Sayers has been granted a divorce from William B. Sayers, on his desertion.

THE INFERIOR COURTS.

TWO MEN FACED BY BAD CHECKS.

ONE LOCKED UP AND OTHER ESCAPES PROSECUTION.

Police Say That Crime of Passing Bogus Paper Is Becoming so Common That It Is Regarded as Mere Matter of Routine—Victims Try for Settlement of Amount Paid Out.

S. Baker was arrested and locked up in the City Jail yesterday on a warrant sworn out by A. J. Munn, a well-known local bank director, who charges Baker with having secured money from him on a worthless check. According to information given out by the police, Baker has passed a number of bogus checks on other persons.

Hardly had this case been attended to in the office of the city prosecutor, before C. E. Howard, a photographer whose name is well known in this city, was brought into the Central station by two detectives on a similar charge. According to the officers, he had floated a number of bad checks and several alleged victims wanted him. But the man who had asked for the arrest on complaint to the detectives' office did not sign a complaint. Howard's friends settled the case.

The crime of bad check passing is getting so common in Los Angeles, according to the police, that merchants take it as a matter of routine. And as a rule these same merchants are slow when it comes to prosecution. The main idea in many minds seems to be settlement of the loss. This accomplished, the affair ends. It is also a matter of record that probation releases from custody are frequent for this offense.

Hits Man With Rock.

Joseph Robertson was arrested on a battery warrant issued by the city prosecutor's office yesterday. Robertson struck a man with a rock. A detective saw the attack and took the assailant to the Central Station with a big crowd at his heels. Though the injured man had vanished the warrant was issued and the officer will prosecute the case.

Boy Confesses Freely.

"I stole then, and I stole before, and I am disgusted with myself," is the way a small boy put his case to Police Judge Chambers. He and companions had robbed a Japanese store three weeks ago, and he had been at the Detention Home two weeks. Now he wants to go to his own home and to school. His confession was so candid and his behavior at the Detention Home has been so good that the young prisoner was released on probation.

Lucky Knife Wielder.

S. Carmona, who stabbed L. Marshal and was arrested, knife in hand, by Patrolman J. W. Murphy, was lucky in pleading guilty to a battery charge yesterday. The prosecuting witness is about to leave the State, and a District Court prosecution would probably result in a heavy sentence. Carmona appeared in Judge Chambers's court on the minor charge yesterday and pleaded guilty. The officer detailed the circumstances—how Carmona ran amuck, knife in hand, thrust his weapon into Marshal's body, then fled with the dripping steel up into the rooming-house where he worked. There the officer disarmed him. The court will pass sentence today.

Mobbed Barber Released.

George Lewis, the barber who was mobbed Wednesday night, will not be prosecuted because Police Judge Chambers refused to issue a warrant on a charge of obtaining money under false pretenses. The city prosecutor's office had concluded it would be impossible to get a conviction. Lewis is cited as one of a number of barbers who have made a practice of extorting as much money as they could from strangers.

"Duplicate" Auto at Large.

A mania for "double 23" would have gotten Edd Braley of Pasadena into trouble had it been possible for the police department to get a complaint. As it all came out, two machines with that number can now travel the city's streets. For some time the department has known that Braley had an auto with the same number as that of Dr. Charles P. Wagner. The latter's motor car is listed properly.

On orders from the patrol captain's office, a Broadway crossing officer "picked up" the Braley auto and its chauffeur. The latter was detained a short time by Capt. Broadhead. The officer sought for a complaint under the ordinance, but could not get it.

SAN FRANCISCO LIQUOR CASE.

L. S. Osgood was yesterday arraigned before United States Commissioner Charles N. Williams in the United States District Court on a charge of selling liquor in San Francisco without a license. He was held under $300 bail for a hearing Friday, September 21.

ANOTHER LIBEL CHARGE.

Charles H. Sievers was held under $1000 bail yesterday by United States Commissioner Williams in the United States District Court, on a charge of sending libelous letters through the mails. Sievers is charged with sending a letter to a man named John Beck, who works for the Los Angeles Brewing Company, on the envelope of which he is said to have written a libel on the Humboldt Brewing Company.

OPEN CAMPAIGN SOON.

Party Leaders Will Begin the Battle in Arizona in a Few Days.

PHOENIX (Ariz.) Sept. 13.—The fall political campaign is to be opened within a few days by Mark Smith, the Democratic candidate for Delegate to Congress, in an address at Kingman. J. P. Dillon and J. H. Robinson of Prescott have been selected chairman and secretary of the Democratic Territorial Committee. On the Republican side, H. B. Tenney, a Tucson banker, has been made chairman of the Territorial Committee, and George Mauk of Phoenix secretary. Will F. Cooper, the Republican candidate for Delegate, is preparing for a strenuous campaign, and will canvass every considerable settlement in the Territory. Both parties are united in their opposition to joint Statehood, the planks concerning it being identical in the platforms adopted.

Two other tickets are expected to be put into the field, one by the Socialists and one by the Statehood League of Arizona, a non-partisan organization, headed by A. C. Baker and C. E. Ainsworth of Phoenix, O. D. M. Gaddis of Kingman, Allen T. Bird of Nogales and ex-Gov. L. C. Hughes and T. F. Wilson of Tucson. A convention of the league has been called, to be held in Phoenix September 17 for the nomination of a candidate for Delegate to Congress. Besides Statehood, the only other plank in the platform to be adopted will, it is understood, favor taxation of mines upon a high basis.

It has been claimed that the Mormons of Arizona will vote for joint Statehood, in the hope of thus being delivered from the operation of the Edmund's Act, covering polygamy. President Andrew Kimball of the St. David stake of the Mormon church, virtually leader of the Mormons in Arizona, declares that this is not so. He says that the Mormons of Arizona will be practically unanimous in their opposition to joint Statehood.

Isaac Barth of Apache county has published a statement to the effect that William J. Bryan has expressed himself in favor of joint Statehood for Arizona and New Mexico. Barth states that in June, 1904, Bryan refused to assist in securing a separate Statehood plank in the platform to be adopted at the Democratic national convention at St. Louis, saying that "You know that I am in favor of Statehood for all the Territories, but if you can get Statehood together with New Mexico, under existing conditions in your Territory, I do not think that you can ask for more than this."

TWO REALTY DEALS.

Fifty-Year Lease on Grand Avenue Provides for Erection of Fireproof Apartments.

A fifty-year lease has been executed by R. A. Rowan & Co., as agents for H. W. Mills, whereby a lot on the east side of Grand avenue, about midway between Fourth and Fifth streets, 78x165 feet, passes into the control of O. L. Johnson and Gail Borden. The lessees will erect immediately on this property an eight-story fireproof and earthquake-proof apartment building, to cost $250,000. The total rentals on this lease will amount to about $250,000. The property at present is improved with a frame cottage.

William Ferguson has sold to Arthur F. Gilmore the southeast corner of Pico and Flower streets, having a frontage of 70 feet on Pico street and 150 feet on Flower street to an alley. There are improvements on the property estimated at a valuation of $20,000, and bringing a rental of $200 a month. The price paid is reported as $50,000. George Diddick represented the seller and McGarvin & Bronson the buyer.

SATURDAY, SEPTEMBER

GARDEN FETE WONDERS.

(Continued from First Page.)

screens against the red background were most effective, and Russian samovars and dainty English furnishings were sprinkled in among the papyrus. In the center a wondrous globe was hung down, which shed a softened light over the spot.

Just around the corner one was dazzled by the beauty of the wondrous ice palace, in which Mrs. Arthur Letts and her fair assistants stood. It was a marvelous thing of silvery sheen and blue, from which icicles and snow drifted softly. A great dome surmounted it, and just in the middle a huge bear stood beating a drum. On the counters were all sorts of the dainties, trinkets imaginable with bonbons and sweets within, all the work of the fair hands, which served them. "Homemade candies" was the cry, and so they were. Mrs. Letts was particularly stunning, clad in a satin gown of white with shining diamonds, and best of all fluffy coiffure of puffs and fluffs all in white. Some of the young girls here were fair pictures in their evening gowns and powdered hair, and safe to say, sweets didn't go a-begging.

"What a lovely lady"—this from a man. "Isn't she just sweet"—from a woman, and both were looking at just the most beautiful fairy girl in pink, who entranced beholders into buying flowers, till none she had. This svelt young goddess with shining eyes and raven hair, was Miss Lois Allen, daughter of Judge Allen, and safe to say, she took in the money, and hearts, too,

PEASANT'S ICED DRINKS.

It took the wanderer not long to find that bizarre and fascinating retreat which the art of Mrs. Robert Farquhar made possible in which to sell iced drinks. Led there by that sweet littler the lady herself, one was entranced. Mrs. Farquhar, dressed as a Russian peasant, won much admiration. Tiny red slippers were on her feet, and a skirt of red and white drawn work and a sort of slip over that of the same to up the fetching costume. Her hair in long braids and satin and pearl bonnet on her head gave finishing touches. With a guitar swung over her shoulder, Mrs. Farquhar played and sang about the grounds in the interest of her booth. Once within this pretty place, all made by these same fairies, every bit, even to the painting of the fence, one wanted to stay. A bay-pole effect of Japanese lanterns was above, and a fence wound with greenery and flowers surrounded the booth. Here all sorts and kinds of drinks were served. Just harmless ones, Mrs. Too, Boris of Londonier and Mrs. Farquhar and Miss Marjory Brown danced and sang the gypsy songs of Russia. Miss Brown's costume was the Russian boglin of that of a high-class lady. It was a sort of princesse affair of pale blue silk, with embroidery and smoked waist. Her "kokoshnick" or head dress was of many-colored ribbons wound together and falling over her shoulders. Much beautiful Russian jewelry was on her neck and arms. Miss Ottie Clerk, the charming little violinist, who has been entertaining here, assisted, and was a charming picture in yellow and white costume, with fetching bows in her sunny hair. Mr. De Londonier himself was in the same satin blouse and scarlet sash and high boots of the peasant, and his dancing was wonderful, in motion and grace. Who in the world were the quaint couple many noticed as Mr. and Mrs. Roy Jones, and paid part arm in arm. They were famous, too. Mrs. Jones had donned the peasant costume and her husband looked merry in the gay blouse and trousers of the peasant. They could dance and sing, too, Best of all, Mrs. Treynor, Miss Brown and Mrs. Roy Jones sang the Russian songs with expressive pronunciation. Mrs. Joseph H. Johnson, with her attendants, were also hidden beneath the fluffs of tulled and flowered umbrellas, with which they had surrounded themselves, but they were swooped down upon by a band of admiring women.

MEN ATTRACTED.

The very best place to see the men was beneath a big tree, beside a little booth all aglow with Oriental colors, where Mrs. Rob Rowan and her fascinating assistants sold cigars and cigarettes and anything to smoke, and, of other things, too. Yes, we have everything, for men and ladies, too," said one fair maid, shaking her head. "I had a terrible moment a short time ago." It seems a very proper old lady had found "Miss Brown" selling cigarettes. "Why," she said, "I did not think it of you, the lady. But Miss Brown promptly forgot a cigar fan from her apron and innocently, "Oh, this is all, Mrs. Brown," said she. The lady sniffed at it, and finally purchased; and Mrs. Rowan's reputation was made. Mrs. Rowan's costume was a dream of white Oriental silks, and a "yamack," that most fascinating of veil, kept the curious guessers guessing. Miss Mollie Adelia Brown had a hundred or more years old from the Antimophe. White it was, with gorgeous red embroidery. She, too, wore a flimsy "yamack" and gorgeous pins of emeralds and pearls, manufactured in the Orient.

There was a far cry from cigarette booth in the midway, and the persistent strains of Shamrock Band kept "a-going" until it was impossible to resist. It was a wonderful band, and there were any number of small folk, and grown-ups, too, in its wake. They were all in haywood costumes, though really some of the most stunning callers in town. Nevertheless, more than one girl felt a blush rise as one of these strangers bowed to her. The fleeching would have made Sousa sick with envy, when the wine is flowing and milk, when the wine is flowing, he'd been there. His shock of hair was musical. His suit was meant for a much smaller man, and various seemed to be bursting forth. He had a few medals. There were thirty-six in all. Gorgeous things of gold, rubies and diamonds. James Page and Beachy made excellent criers for the day shows. James was at his best in white-and-red clown suit with white face and red eyes. He was not but a band of small boys fascinated by the antics of this funny one, and it was the wheel of fortune, and it was good sport, too, for everybody there. They were in the cast, too, for Mrs. Roth and Mrs. and Mrs. Jenny Kempton were using to select some of the prettiest girls imaginable. It was a picture and the girls sparkled in their frocks and bows.

THE POPCORN GIRLS.

A little farther and the dainty popcorn girls with Mrs. Morris attracted the attention of all. The booth itself was all made of red and white popcorn and cherry umbrellas. The little girlies in Spanish pictures, with their wide poke bonnets and fancy bows and great baskets of pink tulle and lace, were there was no dearth of customers here either, anxious to be helped. The children flocked to the MacNeil barn and here the Misses Green showed marvelous pictures, of terrible animals and happenings that made the small fry to gasp in mingled awe and admiration.

THERE WAS THE FUN.

Best of all on the pike for real fun was the minstrel show, where a regular riot of laughter emanated, to the distress of the vaudeville stars, it is said. Mr. Frazier, as interlocutor, and Jackson Gregg and Edison as end men, conducted the audience with their really funny jokes. When asked who he was, Mr. Edison responded, "Ah don't know what tells the time. "Evening when it goes wrong and Ah give all the misinformation to the Owens River to the News

PEASANT'S ICED DRINKS.

It took the wanderer not long to find the bizarre and fascinating retreat where the art of Mrs. Robert Farquhar made possible in which to sell iced drinks. Led there by that sweet little lady herself, one was entranced. Mrs. Farquhar, dressed as a Russian peasant, won much admiration. Tiny slippers were on her feet, and a skirt of red and white drawn work and net of slip over that of the same hue, to the fetching costume. Her golden long braids and satin and pearl band on her head gave finishing touch. With a guitar swung over her shoulder, Mrs. Farquhar played and sang about the grounds in the interest of her booth. Once within this booth, all made by these same fingers, even to the painting of the fence, one wanted to stay. A wondrous effect of Japanese lanterns hung here and there, and a fence wound with vines and flowers surrounded the booth. Here all sorts and kinds of drinks were served. Just harmless drinks, too, Boris de Londonier and Mrs. Farquhar and Miss Marjory Rowan assisted and sang the gypsy songs. Miss Brown's costume was a Russian boglin of that of a peasant lady. It was a sort of tea gown affair of pale blue silk, with full skirt and smoked waist. Her hair or head dress was of golden ribbons wound together and hung over her shoulders. Much Russian jewelry was on her person. Miss Ottie Clew, the talented violinist, who has been a feature here, assisted, and was a picture in yellow and white with fetching bows in her hair. Mr. De Londonier himself in the satin blouse and scarlet trimmed high boots of the peasant, looking was wonderful, in dress and grace. Who in the world was the quaint couple many called Mr. and Mrs. Roy Jones arm in arm. They were not. Mrs. Jones had donned the costume and her husband was in the gay blouse and cap of the peasant. They could sing, too, Best of all, Mrs. Jones Brown and Mrs. Roy sang Russian songs with exquisite intonation. Mrs. Joseph H. Scott, her attendants, were almost beneath the fluffs of tulled and lace umbrellas, with which they surrounded themselves, but which dropped down upon by a host of dancing women.

ALL ATTRACTED.

It was the last place to see the men under a big tree, beside a little booth gay with Oriental colors, where Rob Rowan and her fascinating maids sold cigars and almost anything to smoke, and, other things, too. "Yes, we have cigars for men and ladies, too," she said, shaking her head. After a terrible moment a short one, it seems a very proper old lady found "Miss Brown" selling cigarettes. "Why," she did not think it of you, the dear Miss Brown promptly took a fan from her apron pocket. "Oh, this is all, Mrs. Jones," she cried. The lady sniffed at it, and finally purchased; Miss Brown's reputation was made. Rowan's costume was a study in Oriental silks, and a "smack" that most fascinating, kept the curious guessing. Little Adelia Brown had a hundred or more years old from the Orient. White it was, with rich embroidery. She, too, had a "smack" and gorgeous ornaments and pearls, manufactured in the Orient.

A far cry from cigarette booth to midway, and the persistent Shamrock Band kept "a-going" until it was impossible to resist. It was a wonderful band, and there was a number of small folk, who, too, in its wake. They had a layered costumes, though some of the most stunning were seen. Nevertheless, more than one got a blush rise as one of the strangers bowed to her. Sousa would have made a face when the wine is flowing there. His shock of hair. His suit was meant for another man, and various parts of him to be bursting forth. He was padded. There were thirty-seven gorgeous things of gold, and diamonds. James Page and Boris made excellent criers for the shows. James was at his best in a sad-red clown suit with white and red eyes. He was followed by a band of small boys fascinated by the antics of this droll. The line was the wheel and it was good sport, too, for everybody there. They were so gay, too, for Mrs. Roth and Mrs. Jenny Kempton made a point to select some of the most girls imaginable. It was a day and the girls sparkled in their best bows.

POPCORN GIRLS.

Not far from and the dainty booth with Mrs. Morris presided the attention of booth itself was all made of white popcorn and cherry ribbons. The little girlies in their pictures, with their bonnets and fancy bows and ribbons of pink tulle and lace, there was no dearth of them here either, anxious to serve. The children flocked to the Bluebell barn and here the show showed marvelous pictures of terrible animals and things that made the gasp in mingled awe and fear.

THERE WAS THE FUN.

Right on the pike for real entertainment show, where a storm of laughter emanated, was one of the vaudeville booths, with Mr. Frazier as host and Jackson Gregg and Boris as end men, convulsing with their really funny jokes. When asked who he thought responded, "Ah Sin," which tells the "Evening Herald" goes wrong and Ah Sin is the misinformation Herald to the News

There were hits on the local papers, on the Barlow fete and nearly every one in it, and Frank Brown brought down the house with his very funny singing of "Nobody." The minstrels were: Frank Brown, Clark Briggs, Charlie Edson, Harry Scott, William H. Lott, Harry Lott, John D. Walker, Mr. Bowles and Mr. Frazier. Leo De Lano did some fancy clog dancing and was much applauded. A banjo quartette consisting of C. S. De Lano and Misses Gladys Grosse, Fern Barr and Cora Glass furnished all sorts of good music. Anyway it was pretty fine.

Miss Conchita Sepulveda was a lovely Spanish girl in a costume worn twice by her grandmothers as a wedding gown. A hundred and fifty years it spanned and all of shimmering gold. A shawl, worked with glowing colors, was wound about the lithe young form, from which pink ruffles hid the twinkling toes, which danced in and out in "La Cachuca" and other graceful dances.

BEAUTIFUL COFFEE BOOTH.

The Mexican coffee booth, in charge of Mrs. Walter Jarvis Barlow, was voted by many the most beautiful and interesting of all the booths on the grounds. This booth is near the right gate, and is in the form of a pavilion twenty feet long. It is raised well from the ground, and contains several pretty French windows. The floor of the booth is carpeetd in red, and the whole is softly lighted with red-shaded electric bulbs. A large number of Mexican souvenirs, purchased recently in the southern republic by Mrs. Barlow, were festooned from the edge of the roof, and the comfortable wicker chairs which occupies the cosy corners, were spread with gay serapes. Mexican rugs were scattered over the floor, and several interesting portraits and pictures typical of art of the country adorned the walls. The refreshments were served at numerous small tables on the lawn in front of the pavilion, and clusters of bright red geraniums decorated the snowy damasks. The patrons were served by pretty maids in white dresses, red satin boleros and coiffure ribbons in the Mexican national colors. The aroma of delicious coffee permeated the atmosphere for some distance around this booth, and the patronage here was flatteringly large, many people having postponed their dining hour in order to take their evening meal on the pretty fete grounds.

Just beyond the coffee booth, Cleo held court. The scar occupied a rustic booth, supported by four large white columns and the palm-thatched roof was a novelty typical of Southern California. This booth was hedged with bamboo and palms, and patrons kept the palmist busy telling fortunes from early until late. Mrs. Gilbert T. Gay, becomingly gowned in red, was in charge of this attraction.

POPULAR VAUDEVILLE.

Festoons of vari-colored flags of all nations, artistically strung, brightened the walk from the lawns to the rear yards where the vaudeville and minstrel tents were arranged. As was anticipated the vaudeville performance was the most popular attraction in the way of shows. The success of the previous programme was strong in tradition and early in the evening the tent was packed to the doors while a crowd of patient folk waited for the second performance. The programme was headed by Miss Lottita Corella, who was featured in the Spanish dance, La Jota Aragoneza. Assisting Mrs. Phipps's young daughter, were the Misses Ruth Shepherd, Rachael Youngblood, Messrs. Leroy Swaine, John Phipps and Herbert Lewis.

The marionettes gave a highly enjoyable number under the leadership of Miss Maude Reese Davies, who sang "Molly Shannon," and "Waltz Me Around Again, Willie," most feelingly with the aid of Messrs. Frederick Gunster, Oscar C. Schmidt, Leigh Lynch and Leo Youngworth. Mr. Schmidt's dimples held the fascinated gaze of all the young ladies who were not coyly watching Mr. Youngworth wink at every beat. Miss Davies looked as pretty and sang as charmingly as is her wont, but there were reasons why the young women were almost oblivious of her presence. Those young men made great hits with a very large and critical audience and Mr. Youngworth's blonde wig was splendidly twisted and curled.

Mademoiselle Frangipanni, christened Antoinette, appeared in "her original divertisement consisting of an imitation of a music box, playing two pieces at the same time with her hands behind her." Mlle. succeeded very well in traveling incognito and the question for the fete patrons to guess today is, "Who is the lady who is wrong side to and who plays the hornpipes with one hand and national airs with the other?

Mrs. Guy Cochran and S. F. Hammond sang Jimmy Powers' famous pickaninny song in black face and sang it well enough to please the most critical. Their three pickaninnies of the original brand were what the women folks term "cute." These little black folk came on for the chorus in robes de nuit.

Tom Karl was in good voice last evening and sang "Patience" for charity with the same joy which emanated from his cheerful presence upon more remunerative occasions. Mr. Karl was greeted by a host of old friends of Bostonian days and in his chorus were recognized Misses Beatrice Wigmore, Maude Elizabeth Richards, May Ridgeway, Helen Tappe, Bessie Bartlett, Helen MacDonald, Annie Cunningham, Edith Herron, Kitty Walbridge, Kare Ebbert and Nettie MacLeish. Mr. Karl varied the singing numbers with a bit of repartee and nonsense verse of the present-day style and Miss Richards, in a soft blue silk gown and shining crown which well set off her striking beauty, sang the short contralto parts with a prima donna's art. Miss Ridgeway had most of the spoken lines and short solo parts were meted out to Miss Tappe and Miss Wigmore. The costumes were of the old Greek style and the setting of the piece was good.

Lillian Burkhart's cheerful, smiling presence was greeted with vigorous applause from warm-hearted admirers who recognized in the artfully impersonated beach gossip the pernicious type of woman who is frequently met at summer resorts.

MEXICAN DANCES.

The Spanish children's old Mexican dance was especially interesting in that it was danced by typically Mexican children of the best families. In this number, La Sombrero Blanco, the following little folks appeared: Czarina Yberri, Amelia Yberri, Herminia Yberri, Sara Torres, Julia Wolf y Guzman, Maria Monteverde, Ofelia Monteverde, Ema Rambler y Carillo, Margarita Goodman y Beltsam, Carmelia Tapia, Rosa Smith y Rodriguez Ines Smith y Rodriguez.

Beyond the minstrel tent was the midway, to which patrons were lured by the Great Imperial Shamrock Bank. Here were programmed the great handcuff manipulator, Max Asher, whose agility in ridding himself of the shackles of the law is truly remarkable. The chief of police stands in awe of this man, who has never found but one pair of handcuffs which he cannot remove and those are in the possession of the Federal government. This wonder of wonders has been imported for the midway by Mrs. W. B. Cline, who always presents a cabinet mystic of great renown. Sharp and Flat, the musical wonders, hypnotists of world-wide reputation, Wheeler and Wilson, the stitch dancers, and others whose arts feeble words cannot describe.

The fish pond possessed the usual attraction of the game of chance and here with Mrs. John D. Foster superintending, young and old drew prizes of various sorts and kinds.

The shadow theater, with James Page as a pierrot to lure the moneyed folk, was skillfully arranged to draw those who had previously thought that there was not much in the way of shadow picture making that they did not know. Here were shown bears, elephants, rabbits and all the monsters of earth and sea and others plucked full-fledged, from the imagination.

UNCLE SAM BOOTH.

The ice-cream booth was an Uncle Sam booth and the plot which the dispensers of the cold stuff had fenced in was presided over by John North, garbed in the traditional costume of the lanky representative of the greatest nation of the western hemisphere. Mrs. E. B. Millar was in charge here and her assistants wore white dresses with decorations of red, white and blue, while red geraniums brightened the cloths. Mrs. S. C. Hubbell, Mrs. I. N. Van Nuys and Mrs. Haynes were also in Mrs. Millar's booth.

In the photograph booth one found great bargains for the day when photographs usually sell at from $10 to $20 a dozen. Here were to be had fine tintypes, with large heads and small bodies or vice versa, or even as nature made one, for a ridiculous price. Mrs. A. F. Morlan counted the profits here.

The booth in which subscriptions and life memberships in the Barlow Sanatorium were taken was presided over by Mrs. Daniel Murphy. This was cosily fitted up with red rugs and draperies and fresh leaves of the great register were turned often enough to keep Dr. Barlow happy.

ACTRESS STRIKES OIL.

Miss Gertrude Coghlin Invests Judiciously in Texas and Multiplies Her Money.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, Sept. 14.—[Exclusive Dispatch.] Gertrude Coghlin, the talented young actress who has made such success in the part of Shirley Rossmore in the "Lion and the Mouse" at the Park Theater, has through a modest speculative venture made a good-sized fortune in Texas oil lands.

Recently an old friend of her father, the late Charles Coghlin, gave her a tip concerning hitherto undeveloped oil fields in Texas. On the strength of this advice she invested her total earnings of last season in land at rock bottom figures. The land proved up oil liberally and of superior quality.

She has already refused an offer of ten times its cost and now is negotiating with Houston capitalists for the sale at a large figure.

She says she will be able to gratify her fondest ambition, and stage some of her father's best plays in the near future.

Important Announcement.

There will still be reduced rates for the round trip to some points via the Gould system. The Denver and Rio Grande and Texas and Pacific R.R. Our lines show you the grandest scenery and has splendid through car service. Our office is at 250 South Spring st., opposite the Orpheum Theater.

Omar Khayyam.

Tomorrow (Sunday) evening at 7:45, Burt Estes Howard will give a lecture on "Omar Khayyam," at the Church of the Unity, 925 S. Flower. On September 23, the choir will sing the song cycle, "In a Persian Garden." Seats free. Collection only.

A new 5-room close in house for only $300 cash and $20 monthly installments; price $1850. Own your home and at the same time benefit by the increase in the value of the property which is sure to follow.

ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

Pen Points

There's no denying that Tobias Earl and Dan Burns make a strong team.

In these piping days of prosperity, a syndicate too often proves to be a skindicate.

The world is rapidly coming to the point where it acts first and thinks afterwards.

It doesn't speak very well for politics that nearly every man who goes into it does so against the wishes of his wife.

If it be true that Dan Burns has really reformed, we can see no reason why the light should be kept burning any longer.

Just about the time the country was getting back to a certain decency of conduct this old "Town Topics" business crops up again.

The difference between a statesman and a politician is that the statesman gets an office with a salary that scarcely pays his cigar bills.

Perhaps the reason torch lights have been abandoned in political campaigns is because office seekers now prefer to work in the dark.

He being rather a nice young fellow, it is to be hoped that "Teddy" Bell will not allow his defeat in November to sour his disposition.

No assurances have yet been received from Pino Guerra that he will surrender, even if he has to conduct the insurrection single-handed and alone.

There are some people in this world so optimistic that they expect to see the day when a drunkard who has reformed will not go around boasting about it.

Since the Maine election every candidate for Congress in the United States is sweating under the deadly fear that he will be indorsed by Sam Gompers.

Whatever else may be said there can be no dispute concerning the fact that Mr. Bryan has returned from Europe with an increased supply of platitudes.

Perhaps the reason why so many politicians desire to be State Printer is because the place has for a long while been regarded as a good-paying "job" office.

If the mere appearance of an American warship can bring about peace in Cuba, it might pay to keep one anchored in the harbor of Havana all the time.

It seems that as far as young Mr. Stensland is concerned he has no intention whatever of killing a fatted calf to celebrate the return of his prodigal father.

Bryan's reply to Sullivan is weak, to say the least. Roger not only has the best of the talk, so far, but he has the additional advantage of being in possession of the goods.

No doubt the main reason why the Sultan of Morocco gave Stensland up so willingly was owing to the fact that he has too many of the same kind of people on his hands already.

It is to be hoped that if Thomas F. Ryan secures control of the rubber industry in Africa he will take it out of the trees and not out of the natives, as King Leopold has been doing.

It may safely be laid down as a good maxim in politics that a Republican ought to have a stronger reason for bucking his party than the mere fact that he has been asked to do so by a Democrat.

Among the radical changes that have taken place in the world during a generation past, the fact may be cited that most of the milkmaids who used to figure in romance may now be found clerking in dry goods stores.

While considerable dependence must be put in the man behind the gun, as a matter of course, still the public is beginning to wake up to the fact that it is also worth while to keep cases, more or less, on the man behind the bank.

One of the strangest things going is the presence of mirrors in a barroom. One would naturally suppose that the proprietors of such places would be afraid of nothing so much as the possibility of their patrons seeing their own reflections any time after the third round of drinks.

Heaven forbid that we should raise our voice against patriots who have taken up the sword to defend and maintain their civil rights, but the more we are able to learn concerning this Cuban insurrection the more we are convinced that it is the work of a lot of lazy loafers who want to get hold of the offices in order to live without work.

Hearst says the fight is between Gillett and Langdon for the Governorship of California. Not so. If there is to be a fight it will be between Bell and Langdon as representatives of different Democratic factions. Mr. Gillett is a Republican and has no fight on his hands. All he has to do is to preserve a placid serenity and take the office when the time comes.

ELECTING U. S. SENATORS.

Although it is possible to secure the direct election of United States Senators by popular vote only through an amendment to the Constitution, practically the same result can be attained indirectly, and it has been so attained in several States of the Union. The details of procedure vary somewhat, but the result is essentially the same—the election of Senators by the expressed preference of the people, instead of by the juggling methods known to venal legislators and to the corruptionists who debauch them. The Philadelphia Press ventures the prediction that "in six years a majority of the Senate in Washington will be made up of men owing their seats, not to the manipulation of State Legislatures, but to a majority at a party primary or at a regular State election."

The Constitution provides that United States Senators shall be chosen by the Legislatures of the several States, and to make the election of a Senator valid, it is necessary for the Legislature to go through the form of a ballot. But the members of State Legislatures are chosen by direct vote of the people, and it is within the power and province of the latter to designate, in such manner as they see fit, their choice for Senator. The people can best express their preferences at the party primaries. They can make sure that State Senators and Assemblymen shall be elected who will respect the expressed preferences of the people. They can make the verdict of the primaries so emphatic (as they did recently in Illinois) that members of the Legislature will not dare to go counter to it. In some of the States the question of the Senatorial succession has been submitted to popular vote at a regular State election. The popular verdict is not binding, of course, until it has been indorsed by the State Legislature. But few Legislatures will presume to turn down a candidate who has received the popular indorsement. Members who should attempt such a thing would soon be taught the folly of it through the public displeasure which would be visited upon them.

Members of the Electoral College are now "appointed," as the Constitution provides, by each State. The manner of appointment is left to be determined by the Legislatures of the States. By common consent the "appointment" of electors is now determined by popular vote, through nominations originating in the primaries. Other methods of "appointment" were tried in the earlier days of the republic, but were gradually discarded in favor of the present system. It was originally intended that the President and Vice-President should be chosen by the Electoral College, each member of that body voting individually and according to his own judgment, preference or prejudice. Adherence to this plan would have taken the choice of President and Vice-President out of the hands of the people, and would have conferred the responsibility upon the Electoral College. There is no provision of the law nor of the Constitution today which could prevent a Presidential elector chosen by the votes of one party from voting in favor of an opposing party for President or Vice-President. But public opinion, which makes and unmakes laws, is stronger in the ultimate than the laws, which are only a mode of its expression. An elector who should thus violate his obligations to the party which selected him would be the object of universal public condemnation, and would be crowned with unending infamy.

So, when the people of a State have expressed by ballot their choice for a United States Senator, the Legislature of such State, by the most potent of moral obligations, stands bound to ratify the choice, although it is not bound by any law to do so. In choosing a Senator in accord with the expressed popular will, it recognizes the sovereign authority of the people to dictate the choice. The people are the ultimate source of all powers of government, and their right to dictate the selection of all public officials may not logically be questioned.

In the absence of an amendment to the Constitution authorizing the election of United States Senators by direct vote of the people, the methods above outlined have been adopted with success in several of the States. Senators have been designated by party primaries (the "election" by Legislatures being merely perfunctory) in Virginia, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Tennessee and Kentucky. Oregon practically elected a United States Senator last summer. In other northern States the popular will has found, or will ultimately find, controlling expression in the choice of Senators. The Illinois primaries issued a mandate for the reelection of Senator Cullom. In Michigan the Republican State Convention demanded recognition of the popular will. In Iowa, in Wisconsin, in New Hampshire, in Vermont and in other States the movement has gained much momentum.

This movement is not partisan. Both of the great political parties stand committed to its indorsement, through resolutions adopted by their conventions, and through the voice of the press. Agitation in favor of the movement is going on in nearly every State, and it is freely predicted that it will "sweep the country." After the custom of thus enforcing the popular will shall have become general, it will probably not be difficult to secure the ratification of a constitutional amendment by three-fourths of the State Legislatures, establishing this great reform upon a permanent basis.

Perhaps it may not be possible to eradicate all fraud in connection with the election of United States Senators. Not infrequently frauds are perpetrated in the election of Congressional Representatives and other officials by popular vote. But there can be no reasonable doubt that the election of Senators by popular vote would reduce to a minimum the possibilities of fraud. This would indeed be a long step forward.

AGITATORS AND WRECKERS.

Poor San Francisco! After suffering an unparalleled disaster, through earthquake and fire, with their terrible accompaniments of loss and suffering, she is now the victim of an even greater affliction. She harbors within her boundaries a swarm of pestiferous agitators of all sorts, whose pernicious activity precludes peace and preys upon prosperity. These vampires, inspired by motives most desperate and damnable, make it a business to stir up industrial strife, create social disturbances and business troubles, seek to wreck banks and keep the city in a ferment of unwholesome excitement most of the time. Just now, more than at any time in the past, San Francisco needs social calm and industrial peace, in order that the gaping wounds of her recent great calamity may be healed, that hope may spring up where despair has held sway, and that a new and grander city may be builded upon the ruins of the old. But the agitators who infest San Francisco seem to be determined that these much-desired benefits shall be withheld. The recent strike on the United Railroads was of their making. The foolish and abortive run on the Hibernia Bank was undoubtedly at their instigation. They have a spite against capital and seek in every way to embarrass those who have it in safe keeping. Future disturbances without number will be incited by them, to the detriment and the bedevilment of the city upon which they prey and batten.

So long as these meddlers are permitted to ply their evil vocation, so long will the people of San Francisco fail to realize their great possibilities for advancement; so long will they lag in the wake of genuine progress.

As The Times has pointed out, the future of San Francisco rests principally with San Francisco herself. Her most serious mistake has been in allowing these noxious vermin to gain a foothold and a point of vantage. Their evil influence must be destroyed or they will destroy San Francisco. The Golden Gate city cannot be healthy and prosperous so long as she nurses this cancer in her bosom. It must be cut out, root and branch, before the scar can be healed. San Francisco is quite equal to the performance of this excision if she has the courage to put the knife in deep enough.

NO UNIONS FOR UNCLE SAM.

The order recently issued from the office of the Postmaster-General, forbidding postal employés to organize unions eligible for affiliation with the American Federation of Labor, is in no sense a surprise. It is in accordance with instructions formerly issued by the President (in the case of mail carriers) in accordance with the President's well-known and well-defined views on the subject, and in accord with common sense. For reasons which must be apparent to any person of ordinary perception, the organization of unions in any branch of the public service cannot safely be tolerated by the government. This is true, not only in the case of the general government, but in all forms of public service.

The introduction of unionism into the national government would very soon destroy the efficiency of the service, and would lead to most disastrous and demoralizing results. "No man can serve two masters." When a man takes the union oath, he agrees to support the union which he joins in preference to any and all other organizations. He virtually foregoes his loyalty to the national government and the flag which represents it. He transfers his primary allegiance from his country to his union, and in effect agrees to serve the interests of the latter in preference to those of the former, in case a clash of authority should come. Some unions as it is well known, refuse to allow their members to serve in the militia, which is maintained for the public defense, and a violation of this unpatriotic rule has often led to expulsion from the union.

Discipline and obedience of orders are absolute essentials of an efficient public service. In order to maintain discipline it is necessary that there shall be no division of authority. Unionization of the public service would at once bring about a serious division of authority. Unionism is a modified form of autocracy. With government employés organized into unions and affiliated with the American Federation of Labor, the question would speedily be raised whether the men engaged in the public service would owe superior allegiance to the national government, with the President at its head, or to the American Federation of Labor, with Czar Gompers as its supreme authority. Can any loyal American citizen doubt what the answer to such a question should be?

There is another and an equally potent reason why the organization of government employés into unions must be strictly prohibited, for the good of the service and the benefit of the public. The primary purpose of the government service in all its branches is to serve the public. It should not be necessary to say that by the public is meant all of the people, not that small proportion of the people who is organized and associated together into trades unions. The public service is supported by the people and for the people. Its employés should be of the people, not exclusively of a secret organization, and they should be willing to serve the people impartially. Does anybody suppose that if all government employés were trades unionists they would serve the people faithfully and impartially? Trades unionists are not, as a rule, given to the exercise of any very tender solicitude for persons outside of their organizations, upon whom they are, indeed, very fond of bestowing the elegant and euphonious sobriquet of "scab."

Unions are essentially secret, oath-bound organizations, formed for the selfish purpose of benefiting the few persons who belong to them at the expense of the many who do not. In the postal service there would be infinite opportunity for members of the union to harass, annoy and injure the non-unionist, by delaying the mails, by "losing" important matter, by intercepting letters, and by committing surreptitious acts without number which would cripple the service in times of greatest need. Unionists have shown, in times past, that they are none too good to commit any offense against law and decency in order to carry out their conspiracies against the public. It is not at all likely that to place them in control of the public service would make them any better.

As a matter of course, if the government employés were organized into unions there would be strikes. Unions without strikes would be anomalous. When these unions should see fit to go on a strike, the strike would be against the sovereign power and authority of the United States. The would thus place themselves in the position of avowed enemies of the government, and this would be neither more nor less than rebellion, which the government would be obliged either to suppress or yield to. In the one event, the union would be wiped out of existence in the first battle. In the other event (which is supposable only in a hypothetical sense) the union would become the government, and the United States would cease to be a republic.

STRICT NEUTRALITY.

"Strict neutrality between the warring factions, and with every precaution to protect American interests," is announced as the policy to be pursued by the United States in relation to the uprising in Cuba. This, it is clear, is the wisest, and perhaps the only logical course to be pursued at the present juncture. Consistently with the policy indicated, the President has ordered the withdrawal of all forces from Havana save such as may be accommodated in the American legation, and which remains as a legation guard.

Very properly, the government at Washington is preparing for eventualities, and it will be ready to meet any emergency that may arise. But it would manifestly be bad policy for the government to intervene at this time, as between the belligerents. We could not logically intervene on behalf of the insurrectionists, if we desired so to do (which we do not,) for that would be an act of the utmost unfriendliness toward a friendly government. Neither could we, with good grace, offer aid to the Palma government; for by so doing we should lay ourselves open to the charge of supporting by force a government distasteful to a considerable proportion of the Cuban people.

Everybody must deplore the conditions prevailing on the island, and the hope is general that peace and order may soon be evolved from the existing chaos. But it does not appear, at the present, that the government of the United States is called upon to do more than to protect its own interests. This it will certainly do, whatever may happen. Conditions may arise which will demand the presence of United States forces, in a pacificatory capacity, but such conditions have not yet arisen. In any event, we may safely trust the President to do the right thing in the premises, and to do it at the right time.

THE OLD IDEAL AND THE NEW.

THE ABANDONED MINE.

We clambered up the mountain side
and finally we neared
A spot where as a tunnel an abandoned mine appeared,
And there we fell to musing of the shattered hopes and dreams
Exemplified by this rude place of tumbled, rotting beams.

"Ah," we observed, "no doubt this is the grave of one man's joy;
Here lies the golden future that he longed for, for his boy;
Here, where he found no golden ore, he left the peace and ease
That he had planned for his good wife, her sunset hours to please.

"In this lone spot, mayhap, he left the jewels he had thought
To place upon his daughter's arms, the bracelets deftly wrought,
The silken gowns and all the things fit for her loveliness—
One day he saw them buried here, to his brave heart's distress.

"Aye, more than that. Here lies the home that he had meant to build,
The place of comfort, with the richest, rarest paintings filled,
The wide verandas, and the walks where wondrous summer blooms
Should shed the gentle blessings of their marvelous perfumes.

"All, all is dead," we wept, and turned and looked across the vale
Nor saw the drifting vapors, nor the white, white clouds asail
Upon the sea of heaven, nor the shadows flung along
Where purple peak and crimson crag seemed as a frozen song.

We wept, and all the others wept. We thought about the man
Who dug and delved and dreamed until he saw his shattered plan.
"Here mourning pines," we sighed, "as plumes of sombre grieving wave
A silent requiem above his hopes and dreams—this grave."

And then a grizzled person, with a silk hat on his brow,
With diamonds and jewelry stuck on just anyhow,
Came edging to us with a smile, and said "Excuse me, friend,
But if you call this here a mine, I don't quite comprehend.

"This is my claim, this mountain side, from where those dead trees lie
To where that eagle bumps hisself against the bending sky,
And all of it is full of gold, and just around the bend
You'll come across the shafts and works where we do things, my friend.

"There ain't no buried hopes in here, there ain't no shattered dreams—
This hole here in the hillside ain't exactly what it seems;
It's something I fixed up here when I first climbed up to dig—
A sort of dugout pigpen where I kept and fed the pig."

WILBUR D. NESBIT.

[Copyright, 1906, by W. D. Nesbit.]

Bride (tenderly:) We have fully twenty minutes before the train comes when we must bid one another farewell—isn't that nice?

Bridegroom: Capital—we can go into the station restaurant and eat something together.—[Wiener Salonwitzblatt.

Visitor: What, the youngster going to bed already?

Mother: Yes, he always goes early—at 6 o'clock he has to be up to fetch his father's first jug of beer.—[Wiener Caricaturen.

Kid: Say, father, give me a ha'peany. I want to buy an orange of that man outside.

Mr. Stingy: Go out and make faces at him, my son; maybe he'll throw one at you. —[Ally Sloper.

WHAT'S SAID IN SAN FRANCISCO.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SAN FRANCISCO, Sept. 13.—Even our officials, callous as they have been in the past, are awakening to the fact that something has to be done to check prevailing crime in order to have citizens continue to live here, and to get others to come, so a Supervisor has introduced a resolution to increase the police force. Its preamble contains the following significant language: "It appears from the public press and from the records on file in the office of the Chief of Police that at this time the city is at the mercy of criminally disposed and lawless characters and the burned district is without the requisite lighting for the protection of citizens." The resolution instead of being acted on at once was referred to a committee its author begging that it be not "held up" there.

While one police commissioner has been away for some time on political errands and another is enjoying an extended pleasure trip in the East a number of indignant property owners have been trying to get the commission to revoke the license of a notorious saloon-keeper who has a disreputable resort close to the Girls' High School and the Hamilton grammar school. The liquor dealer who is an ex-prize fighter lends excitement to the neighborhood frequently by getting drunk and beating the women inmates. He is very apt to continue in business at the old stand as he has a strong political pull, and is generally a prominent administration delegate at local conventions.

After months of unnecessary delay the Supervisors have at last consented to grant an overhead trolley franchise to the Presidio and Ferries Railway. Ever since the fire the thousands of residents in the extreme northern section of the city have been without railway transportation and they have suffered great personal inconvenience as well as depreciation of property values. An application for a trolley franchise was put in long ago, but was held up on the ground that the railmakers were uncertain that the railway company had a live franchise. It is hoped that the cars will be running next year.

That there is death in a kiss cannot be gainsaid as the divorce complaint filed by a husband here alleges that his wife permitted their child to kiss another child who was afflicted with the whooping cough thereby causing the death of their infant. The husband thought the grounds were sufficient for a divorce. In another suit just filed a wife prays for a divorce because when she attempted to kiss her husband good-night he shoved her away so violently that she fell and seriously hurt herself. The divorce courts are busier than ever and the alleged causes for separation flimsier than ever.

Now that the lumber dougers have advanced the price of their product $2 a thousand and labor is scarcer and dearer than ever it would seem though reconstruction would soon be at a standstill. The Dahlia always intended to erect a building, but present conditions caused the directors to postpone matter indefinitely. Pictures of prospective Class A buildings and a reward will be offered for one who can take a snap shot of buildings being laid.

George Noble Todd of Los Angeles has hurt the feelings of the Supervisors by asking an impractical question. Some months ago Mr. Todd in an application for a franchise to pump salt water from the ocean by pneumatic method, the water to be used in case of fire. He hasn't heard from his application and getting impatient he has written to ask what action has been taken. He is evidently not acquainted with the manner in which holes at the City Hall and records are entirely unfamiliar with the modus procedure.

Twenty thousand dollars is a little pot of gold for one man to receive for political services rendered, but if he has to divide it up with a gang," it is not such a tempting thing. The published story that the city boss was given "twenty thou" at Santa Cruz for the city delegation has aroused the indignation of his less honest followers here, and they are mad clear through and threaten, because of the disgrace and the damaging publicity of the story, but because they were not let in. Denials are the order of the day thick and fast and the alleged recipient of the tainted money is alleged to have said "Search me."

ARMY AND NAVY MEN.

Col. Culver C. Sniffen has been made Paymaster-General of the army to succeed Gen. Dodge, retired.

Pay Director Eustace B. Rossell, who was appointed to the Pay Corps from California in 1879, has been selected by Secretary Bonaparte for Paymaster-General of the navy. Rossell ranks ninth in the list of pay directors with the rank of captain.

At the army pistol competition at Fort Sheridan, Capt. James A. Chase of the Sixth Cavalry won first place for the team and broke the record in army pistol competition, scoring 1,000 points out of a possible 1,000. The previous record was 994, held by Corp. Robinson of the Ninth Cavalry.

Among other congratulatory messages that Gen. R. B. Brown has received since his election as Commander-in-Chief of the Grand Army is one from President Roosevelt, which reads in part: "Let me send you a word of sincere and hearty congratulation upon your election as Commander-in-Chief of the Grand Army."

Gen. Shafter has turned out a successful breeder of fine cattle on his California State Park ranch. He exhibited some of the products of his ranch. It is very extensive and is near Bakersfield, Cal., where he has been devoting himself to the breeding of fine Jersey cattle, said to be excelled in the country.

Rear-Admiral Robley D. Evans, who was commander-in-chief of the Pacific fleet that rendezvoused off Cape Horn, is kept on the active service list by a joint resolution of Congress which restored him to the active list and will never exempted him from physical examination for disability. He is the only officer of the navy who has ever been thus honored.

MUSIC AND THE STAGE.

Bruce Gordon Kingsley, who will be the organist of the Auditorium—and Temple Church—has in preparation a series of strikingly novel concert programmes for the winter season.

R. G. Kingsley

Mr. Kingsley has long been known as a player of great resource, and his versatility has been demonstrated on a number of occasions. Operatic programmes are his specialty, and he is an adept at the Wagnerian music-dramas. Mr. Kingsley's work is orchestral in nature, and his transcriptions from orchestral scores are full and complete.

The new organ, which is the finest instrument of its kind in the West, has now arrived, and is being installed. It has four manuals, and the console, with its hundreds of stops and combinations, is a marvel of electrical construction.

Mr. Kingsley says that with such an organ a million varieties of tone-color are virtually possible.

David Belasco is re-writing "Juanita of San Juan," assisted, of course, by its author, Richard Walton Tully. "Juanita" as a play had many dim spots to throw shadow upon its brightness, and needed the masterful, unerring hand of a Belasco to make it a New York possibility.

Mr. Belasco does with his adaptations exactly what he did with his famous "Zaza," in that he remodels good but unusable primary material into vigorous, forceful matter of real dramatic moment.

It is rumored from New York that M. J. Ginn has been brought into the Belasco fold to take a role in this piece.

Laura Wall will not be the leading woman of the Burbank stock company. Her engagement has been cancelled, and Miss Van Buren will probably remain for two more weeks, closing "Trilby" for another week, commencing tomorrow.

The first concert of the Los Angeles Symphony Orchestra's tenth season will take place at the Mason Opera-house on Friday afternoon, November 23.

Harley Hamilton has not yet completed his programmes for the eight concerts, but he has a number of novelties in preparation.

Next week Mr. and Mrs. Harry Cliffford Lott will announce their season of four chamber music concerts, which will be held as usual in Gamut Club hall. The Krauss Quartette and a number of other well-known musicians will assist.

Signor Jannotta, who has had an extensive vacation in Chicago, has just returned to his work in Los Angeles.

A. B. DeLano, who has also been on an hunt for recreation, is again in town. Mr. DeLano has removed his quarters to the Delta building.

It is generally known in musical circles that when Arthur Nikisch left the Boston Symphony in the spring of 1906, negotiations were opened with Hans Richter to succeed him. In fact, a contract was signed with the great conductor, but at the last moment he lost his courage and decided that he should not come to America.

It was this management of the orchestra in an embarrassing position, and Dr. Richter was asked to recommend some one to take his place. He suggested most urgently in favor of Dr. Karl Muck, who had just become one of the principal conductors in the Berlin Opera-house. But no offer was made to Muck at that time.

Then Paur finally came in place of Richter, but—thirteen years later—Dr. Muck is at last coming to Boston.

One of the big works that Mme. Samaroff, the distinguished pianiste, has prepared for her tour this season is Liszt's sonata in B minor, a great masterpiece of pianistic literature, and—curiously enough—one that is not often played.

Wagner is indebted to this work for the Kundry theme in "Parsifal."

Clara Clemens, daughter of Mark Twain, will make her musical début at Redwalk, Ct., as a concert singer on October 12.

Miss Clemens's desire for professional work is said to be much against the wishes of her parents. She has a fine contralto voice, which for some time has received excellent training in Europe. Severe and impartial critics predict a great future for the daughter of the gifted author.

ARMY AND NAVY MEN.

Col. Culver C. Sniffen has been made Paymaster-General of the army to succeed Gen. Dodge, retired.

Pay Director Eustace B. Rossell, who was appointed to the Pay Corps from California in 1879, has been selected by Secretary Bonaparte for Paymaster-General of the navy. Rossell ranks ninth in the list of pay directors with the rank of captain.

At the army pistol competition at Fort Sheridan, Capt. James A. Chase of the Sixth Cavalry won first place for the team and broke the record in army pistol competition, scoring 1,000 points out of a possible 1,000. The previous record was 994, held by Corp. Robinson of the Ninth Cavalry.

Among other congratulatory messages that Gen. R. B. Brown has received since his election as Commander-in-Chief of the Grand Army is one from President Roosevelt, which reads in part: "Let me send you a word of sincere and hearty congratulation upon your election as Commander-in-Chief of the Grand Army."

REPLACE MOTHERS' CARE.

Plan Being Made by Mrs. Maggie Van Cott for Girls' Homes in Various Cities East.

[BY THE ASSOCIATED PRESS—A. M.]

SPRINGVILL (N. Y.) Sept. 14.—A plan for the establishment of clubs in various cities and towns of the country for the encouragement of motherless girls was announced last night by Mrs. Maggie Van Cott, 77 years old, evangelist and revival leader.

"I hope to band together for mutual help, sympathy and protection of motherless girls throughout the country," said Mrs. Van Cott. "Rescue homes are doing a noble work, but it should be the purpose of the clubs we establish to reach the girls before they enter on the downward path, and help them.

"In New York, my native city, and in Boston, Philadelphia and Chicago, I expect to personally attend to the organization of the so-called encouragement clubs. I look upon this work as the crowning event of my life."

FREDDI FOR CARNIVAL.

Election of Company of Jesus Results in Rome and Selects Five Generals.

[BY THE ASSOCIATED PRESS—A. M.]

ROME, Sept. 14.—The Congregation of the Company of Jesus met today to elect a monitor and five generals. The election resulted as follows: Assistant general for Italy, Father Pirri; for France, Father Fine; for Germany, Father Ledochowsky, nephew of the late Cardinal Ledochowsky; for Spain, Father Abad, and for the Americas, Father James Hayes of Canada.

It is asserted that Father Freddi will be created a cardinal at the next consistory.

SECOND HAGUE CONFERENCE.

WASHINGTON, Sept. 14.—Although it has not yet been definitely decided the second Hague conference will be held next May or June, according to Dr. David Jayne Hill, American Minister to The Netherlands, who is now in Washington on a visit. As a result of Secretary Root's South American tour, it is announced that the representation will be increased from thirty nations to forty-five.

SAILS TO MEET POPE.

Mgr. Sbarretti Will Make His First Visit to Vatican and May Be Promoted.

NEW YORK, Sept. 14.—[Exclusive Dispatch.] Mgr. Donato Sbarretti, apostolic delegate to Canada, will sail for Rome tomorrow by the Konigin Luise of the North German Lloyd Line. It will be his first visit to the Vatican since Pope Pius was elected. He is accompanied by the Rev. Dr. Alfred Sinnott, his secretary.

Mgr. Sbarretti and his secretary have been guests of the Jesuit Fathers in St. Francis Xavier's College, in West Sixteenth street, for several days. While the former is going to Rome to pay his respects to the Pope and make a report of a struggle for the establishment of the separate school system in the new provinces of Canada, which is regarded as a personal triumph for him, it is rumored that Pope Pius has summoned him to promote him.

DANISH KING GETS MEDAL.

COPENHAGEN, Sept. 14.—David R. Francis and L. M. Dozier, the members of the deputation sent abroad to bestow on various monarchs of Europe the gold medal and the diploma of the St. Louis Exposition, were received in audience by King Frederick this morning. The King heartily thanked Mr. Francis and Mr. Dozier, and expressed the desire that they dine with him at the palace, but the Americans were compelled to leave this afternoon for Brussels.

Store Opens at Eight—Closes at Six O'clock.

These Bargains for Men

Four different styles of dark colored fancy half hose on special sale today, two pairs for 25c.

Pure linen full size hemstitched handkerchiefs, specially priced at three for 50c. You've paid elsewhere 25c straight for ones not so good.

Night shirts of good muslin, well made, with military or turn-down collars, fifty cents.

Fall weights in underwear—cotton, merino, wool, silk and wool, etc.—at prices from half a dollar up.

Dr. Deimel's linen mesh and ramie underwear at list prices.

$7 Eiderdown Robes $2.50

If you're of a saving disposition, these underpriced robes of warm eiderdown will appeal to your purse as well as to your fancy.

Long robes in pink only, practically all sizes, at $2.50 each, were actually $7 and $7.50, but some are soiled from displaying.

Black Silks Lower

Tonight sees the close of the black silk sale. And if you've gowns, skirts, waists or cloaks to make this fall, you'll be wise to purchase the materials today, from these strictly first-class silks—taffetas, peau de soie, and other weaves.

$5, $6, $6.50 and $7.50 Skirts, $2.50

In the lot are pleated and circular styles—grays, white, black, brown, blue and other of the good fall colors.

Prices haven't been marked up to mark down again, we have sold duplicates of these skirts all season at the above prices.

They are now in the way of fall arrivals, let that explain an otherwise unbusiness-like reduction.

Fancy Neckwear 15c, 2 for 25c

Dozens of styles to choose from in this neckwear sale—and each a popular one. You'll find hardanger embroidered stocks in white, Peter Pans in colors on white, hand-made lace stocks, Swiss embroidered turnovers, linens done in light evening shades, and collar and cuff sets of Val. and Venise laces, worth and previously selling at 25c to 75c each.

Veilings at 25c a yard today, from 35c to 75c lines, black and colors, plain and fancy broken meshes.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

LINE IS OUT TO PULL DUNKARDS.

PASADENA MAY ALSO BID FOR THE CONVENTION.

Lack of Suitable Assembly Hall Seems to Be Greatest Difficulty. Obstacle May Be Overcome by the Erection of a Large Tent in Which Gathering May Hold Meeting.

Office of The Times, No. 38 S. Raymond Ave.

PASADENA, Sept. 14.—There is considerable talk of trying to have the Dunkard convention, which will be held in California next May, brought to Pasadena. The project has been broached several times of late, but up to the present no definite action has been taken. The matter will probably be discussed at the Board of Trade meeting tomorrow however, and some definite course of action decided upon.

It is stated on good authority that at least 10,000 delegates will be present to attend the convention. This would mean the expenditure of something like $12,000 or $15,000 a day during the convention and would mean increased business for the merchants.

The great obstacle that would have to be overcome before the convention could be invited here, would be the question of a proper meeting place. Were the convention hall in existence it would be an easy matter to care for the meetings but as things stand at present it would be necessary to erect a large tent in some open place for the accommodation of the visiting body. It has been suggested that Tournament Park might be used for this purpose and that a meeting held under canvas would be very agreeable.

An effort will probably be made to interest the Merchants' Association in the project also with the view to having its members coöperate with the Board of Trade in whatever action may be decided upon.

LAWSON FUNERAL.

More than 100 people gathered in the chapel of Reynolds and Van Nuys this afternoon to pay their last respects to Lieut.-Col. Gaines Lawson, U.S.A., retired. Among those present were a number of retired officers of the regular army and several companions of the Loyal Legion of which Col. Lawson was a member.

The casket was draped in the American flag and was almost hidden from view by the great mass of floral offerings which were massed around it. Among the striking specimens of the florists' art were a beautiful design in white asters and roses from the Pasadena Whist Club, an ivy wreath from the Loyal Legion, and an American flag made of immortells, from Col. and Mrs. Bentnord.

The funeral was conducted by the Rev. J. J. Wilkins, dean of St. Paul's pro-Cathedral of Los Angeles and Rev. Harry Thompson, curate of All Saints' Episcopal Church of this city. The arrangements were under the supervision of Lawrence Lawson, son of Col. Lawson. This evening the remains were cremated. The ashes will be sent to the National Cemetery at Arlington for interment.

Among the prominent military folk present were: Lieut.-Gen. Adna R. Chaffee, U.S.A., retired; Mrs. Chaffee; Maj. Mason Jackson, U.S.A., retired; Chaplain William F. Hubbard, U.S.A., retired; Col. Charles Bentzoni, U.S.A., retired; Maj. L. F. Burnett, U.S.A., retired; Mrs. Col. Sweet and daughter, Mrs. Gen. Alden, Col. and Mrs. William Morrison, Maj. E. F. C. Klokke, Mrs. Gen. E. C. Mason and C. C. Gilbert and Charles Robinson, of the Loyal Legion.

SCHOOLS OFFICIALLY TOLD.

The public school report for the past year has just been completed and was made public today for the first time. The report gives the number of children in Pasadena of school age, the percentage attending the public schools, the percentage attending private schools and the proportion not in school. General conditions are touched upon and a general review of the entire situation made.

In the report of Superintendent Graham, special stress is laid on the necessity for the introduction of a commercial department in the High School and also the need for additions to the High School building. In regard to the High School the superintendent says: "The growth of the High School has been such that we have now over 600 in a building planned to accommodate but 500. No one could have foreseen that our new building would have been too small in three years, but it is so now, and as soon as it can be done there should be erected separate buildings to contain all of our laboratories with rooms equipped for physical geography, chemistry, physics, physiology, zoology, botany, cooking, woodwork and a commercial department, and, if possible, an assembly hall to seat 1500."

The report shows that the average cost of educating a pupil is $25.30 per year. In the kindergarten the cost is $20.06, in the grammar school, $20.45, and in the High School, $39.70.

FINES FOR WHEEL RIDERS.

This morning the usual bunch of sidewalk bicycle-riders appeared for trial before Judge McDonald in the Police Court and a handsome sum was netted the municipal coffers as the result. The police are determined to break up the practice if they have to make a hundred arrests a day and are trying very hard to discourage the riders.

Stanley Bowles was arrested yesterday by Patrolman Reese on North Marengo avenue, for riding on the sidewalk and was forced to put up $1 bail money before he was allowed to continue on his way. He failed to appear this morning so his bail was forfeited.

F. O. Wilson later on attempted the same feat on the same street. He appeared in court this morning to discuss the case, but had to pay $2 before the judge was willing to call the account square.

W. L. Smith, also charged with riding on the sidewalk, was allowed to go without depositing any bail money. He gave his promise to appear in court this morning, but failed to keep his word. A bench warrant was issued for his arrest and he will have an opportunity to explain how he failed to appear as promised.

J. Kito went into a house without taking the trouble to hitch his horse. While he was away a policeman came along and took possession of the turnout. He deposited $2 bail money at the Police Station, which was declared forfeited this morning, when he failed to appear for trial.

CAR TRAFFIC CONGESTED.

There is talk of laying a double track on Colorado street and the Pacific Electric Company will probably apply for a franchise in the near future. The company has been so busy building street car extensions in Pasadena during the past few months that there has been but little time for improvements on the lines already laid, but traffic is now so congested on Colorado street that the officials realize that they will have to take some action at once or suffer considerable inconvenience.

Car crews are put to great inconvenience at the corner of Colorado street and Fair Oaks avenue, where it is frequently necessary to bunch up several cars at a time. In this way considerable delay is occasioned and the company finds it a difficult matter to run on schedule time on days when traffic is heavy.

SCHOOL QUANDARY.

The Board of Education is considering the advisability of establishing a commercial department in the local High School. There has been a large demand for a course such as a department of this sort would provide and there is a chance that a start may be made during the coming term.

The great difficulty which the High School authorities would have to face would be in regard to school room to handle the new work. At present the building is altogether too small for the demands made upon it and, if another course were added, necessitating the use of more recitation rooms, the authorities would find themselves in a tight place. There is a possibility that outside room may be secured in order to furnish accommodations for the new department.

TESTS FOR OIL.

City Engineer Pearson has installed an oil-testing apparatus in the old engine-room at the City Hall and will henceforth test all samples of oil that contractors may submit before it will be allowed to be placed on the streets. The Engineer has been pretty busy during the last few days analyzing the specimens already submitted and he states that if the oil put on the streets is up to the samples furnished there will be no doubt about its lasting qualities.

The successful bidders for the last lot of contracts are now ready to begin work and Monday will see many teams at work on the streets. It is hoped that the oiling can be completed before any rainstorms set in as some of the streets are not in a condition to withstand a heavy flood, and if the rains come before the oiling is completed considerable damage will be the result.

PURIFYING TEST TODAY.

Capt. Hartley will make a test of his new water-purifying apparatus, by which he hopes to treat the city sewer water in such a way as to remove impurities, tomorrow morning. The idea of Capt. Hartley is that the water at the city sewer farm can be treated in such a manner as to make it fit for many purposes, and he believes that his new apparatus will do the work.

If Capt. Hartley's plans prove feasible it is thought that it will be found possible to operate the municipal lighting plant by means of a gigantic water wheel operated by the action of the sewer water and for this reason it is desired to purify the water so as to make its use possible. If the sewer water can be properly purified it can also be sold for many purposes and thus increase the available water supply to a considerable extent. It is claimed that the water will be absolutely pure after having passed through the cleansing process.

Engraving at Morris-Thurston Co. Pictures framed at Wadsworth's.

TOWNS' DRAINS MAY JOIN.

Los Angeles Consents to Sewer Connections of Beach Cities at Hyperion.

OCEAN PARK, Sept. 14.—At a special meeting of the City Trustees today, the sewage situation received animated discussion. It developed that City Engineer Chapman of this municipality is opposed to the Hyperion plan, for the reason that it offers opportunities for future differences. He advised the installation of a burner in which the sewer gas might be consumed. With such an equipment, in his opinion, the septic tank at Venice would prove adequate for the disposal of the sewage of both cities. The committee representing the two cities, appointed to secure from Los Angeles the privilege of connecting with the outfall at Hyperion, has reported success. The Board of Works of Los Angeles has granted the concession, which clears the way and makes the Hyperion plan possible.

SAND CITY'S HOLIDAY.

The Mayor today issued a proclamation declaring next Monday a legal holiday. This is the day of the Venice excursion to the inland empire. The Southern Pacific can handle but 400 passengers, and that number of tickets were sold almost before they had been placed on sale. How the other thousands who want to go will spend the day has not been decided, but there is general talk of chartering a second train to carry the stay-at-homes over the kite track of the Santa Fé.

COOK ASSAULTS SKIPPER.

Captain of Vessel Lying at San Pedro Struck on Back of Head by Chinaman.

SAN PEDRO, Sept. 14.—Capt. Fry, master of the ship McLaurin, was the victim this morning of a vicious assault by a Chinese cook, giving the name of Chris Wright, whom he had recently discharged.

Early in the morning the skipper and the cook had had an altercation and an hour later the Celestial stole up behind the Captain and dealt him a heavy blow on the back of the head with a piece of iron, knocking him down. Capt. Fry was seriously, but not fatally, injured. The cook was arrested and charged with assault to kill. His bonds were fixed at $5000.

LONGSHOREMEN GET—WHAT?

Indications point to a speedy settlement of the sailors' end of the present labor troubles at this port. Seven sailing vessels which are waiting for crews have been promised the men as rapidly as possible, and these vessels will sail north at once to reload. The Ludlow got a crew today and sailed in ballast for Hoquiam, where she will load a lumber cargo. The steam schooner Coronado, which arrived with a non-union crew, cleared today with a union crew with freight and passengers for San Francisco.

Apparently the sailors are looking out for their own interests and ignoring the position of the local yardmen and longshoremen, who are out in sympathy for the sailors. The sailors on all vessels now in port are shoving lumber to the non-union employés of the various yards and asking no questions.

SANTA MONICA NEWS.

SANTA MONICA, Sept. 14.—George Young of this city was elected president of the Association of ex-Prisoners of War, which was organized at Huntington Beach during the week, while the Grand Army Encampment was in session there. President Young's jurisdiction is California and Arizona, and he will at once busy himself with the appointment of aides in the different parts of the two States. This organization will strive to promote the interests of the prisoners of war, who feel that the government has not given them proper recognition.

HOLY ROLLERS EXCITE QUAKERS.

PHYSICIAN RATHER THAN SPIRIT CALLED BY FAINTING FIT.

A Frenzied Hen and Cayenne Pepper Used to Break Up a Meeting of the Sect at Whittier and Stale Egg Diversion Is Threatened by Some of the Scoffers.

WHITTIER, Sept. 14.—For several weeks a group of street preachers, of the "Holy Roller" order, headed by a colored man by the name of Seymour, has been attracting much attention here, more because of their peculiar doctrines, and freak actions when under the control of the "spirit," than because of any real religious fervor. Last night the bunch had the surprise of their lives when David Griffith suddenly dropped to the floor unconscious. The man has long been subject to fainting fits when under the stress of unusual excitement, but the "Rollers" did not know this, and rejoiced exceedingly over what they considered a "signal manifestation of the spirit." Later they became alarmed over the man's condition, and he was hurried to a physician's office. He is as well as usual today, but public sentiment is much aroused and it is freely stated on the streets that if the "Rollers" do not modify their actions they will be treated as was the notorious Lawrence last winter, who was given a shower of stale eggs as an inducement to leave the city. A few nights ago, when the meeting was at its height, and one of the female members of the outfit was indulging in frenzied rolling on the floor, an unknown party threw a frenzied old hen in at one of the windows. As the chicken's feathers had been sprinkled liberally with cayenne, it quite effectually "broke up the meeting" for the night.

DISCUSSING SEWERS.

A mass meeting of citizens has been called for September 21, at I.O.O.F. Hall. The gathering is called by the City Council, whose members wish to discover the trend of public opinion in regard to the installation of a sewer system, before calling a bond election for that purpose.

WHITTIER COLLEGE OPENS.

Whittier College opened this week, Tuesday, with the biggest enrollment in its history. The classes are all well filled, but the principal gain is in the freshman class. A programme, welcoming the new students, and introducing the new members of the faculty, was given upon the opening day.

WOMAN'S AUXILIARY MEETS.

The Woman's Auxiliary held its first meeting for the year on Thursday. Among the items of business were the drawing of orders on the treasury for the purchase of new books for the college library, and for a new desk for the same department. The officers for the coming year are Mrs. Charles E. Tebbetts, president; Mrs. W. V. Coffin, vice-president; Miss Retta Cook, secretary; Mrs. C. E. Cook, treasurer.

TRAIN STRIKES AND KILLS.

Aged Pomona Man Knocked Down by Overland Dies from His Injuries.

[BY DIRECT WIRE TO THE TIMES.]

POMONA, Sept. 14.—[Exclusive Dispatch.] The Southern Pacific eastbound overland knocked down E. P. Soule, father of Mrs. C. Stout, an old man over 80, who was walking by the track at Gordon street this afternoon. The victim was struck heavily in the back and thrown a dozen feet from the track. The engineer blew the whistle and rang the bell, but Mr. Soule evidently did not hear the signals and the heavy train could not be stopped. The injured man died at the home of Mr. Stout at 4 o'clock.

ORANGE GROVE SELLS.

Mrs. Emma Arbuckle has sold her fine thirteen and a half acre citrus grove at the corner of Central and San Antonio avenue to C. T. Naftel, a newcomer here, from Macon, Ill., through the agency of J. A. Fitch, for a consideration of $15,800. Ten acres are planted to bearing orange trees and three and a half acres to lemons. Some household goods and farming implements go with the sale. Mr. Naftel is interesting himself largely in orange properties here having recently purchased two groves on San Antonio avenue from the P. J. Dreher Company.

POMONA NEWS NOTES.

The city is oiling Fourth street from east to west and otherwise putting the thoroughfare in excellent condition.

Rev. George E. Soper and family are home from their vacation spent at Coronado, and in the mountain district near Julian.

"Hotel del Coronado" always pleases.

TOLD AT LONG BEACH.

LONG BEACH, Sept. 14.—The police are in receipt of a misspelled screed warning them of an attempt to rob the First National Bank, the building of which has been wrecked in order to erect on the site a modern six-story block. As the bank is guarded closely by the Merchants' Patrol and in instant communication with police headquarters, no danger is feared, and the warning is regarded as a hoax.

The principal thoroughfares leading into the city are being posted today with warnings to autobsts that the speed limit within the city is ten miles an hour.

Special Officers Henry and Auburn, on duty at West Long Beach, last night pulled an immense stingray out of the bay at the Crescent wharf. The fish measured six feet, two inches, and was four feet, six inches across the back at its widest point.

An excited German rushed up to Officer Franks at the bath-house today, and after much gesturing and mumbling contrived to make the officer understand that while in bathing he had lost his false teeth in the surf. He had become scared at a big wave breaking over him, and, opening his mouth for air, his molars dropped out. The officer told the victim that he had once chance in a million to get his chewing apparatus back, and the German walked disconsolately away.

The Long Beach Automobile Club has taken up the subject of good roads and a meeting of the organization has been called for next Wednesday to discuss the matter.

Go to Coronado for balmy weather.

BIG CROP OF GRAPES.

Los Nietos Rancher Has a Fortunate Turn—New Walnut Curing Machinery Being Installed.

LOS NIETOS, Sept. 14.—Grapes this year are scarce, but in spite of this fact, F. A. Sanchez, one of the most progressive vineyardists of this section and the owner of one of the biggest vineyards in this section, has one of the heaviest crops his vines have ever borne. The vines, free from disease and thrifty-looking, lie flat on the ground in some parts of the vineyard, the big bunches of Muscats, Black Hamburgs and Mission grapes proving too heavy for the vines to uphold. Five tons of grapes to the acre is a conservative estimate of the season's crop from this tract. The fruit will be sold almost exclusively for table use, and will bring a good price. The owner attributes his good luck in getting a big crop, when most of his neighbors will have only a small output, to the fact that his ranch escaped the late frost, which most of the others did not. The Sanchez ranch is irrigated from a private pumping plant, forty inches of water having been obtained at a depth of 200 feet.

SHORT NEWS NOTES.

A marriage license was issued yesterday to Fidel Linares and Lucy Contreras, both of this place.

Los Nietos public schools opened this week with good attendance.

The new machinery being installed here for the Walnut Growers' Association is now almost complete, and will be ready in ample time for the harvest of nuts.

Hotel del Coronado never closes.

ELECTRICS FOR EAST WHITTIER.

Additional Right of Way and Money Contribution Announced—Leffingwell Ranch Improvements.

EAST WHITTIER, Sept. 14.—Prospects for obtaining the right of way for the Huntington electric road through this section grow brighter, among the latest to swing into line being Berry & Harvey, who recently became the owners of the 600-acre tract known as the Everett ranch. The new owners announce that they will contribute a strip of land—twelve acres in extent—for a free right of way through the tract, and in addition contribute $3000 toward the necessary cash fund.

NEW IRRIGATING SYSTEM.

C. W. Leffingwell, Jr., who recently added to his big ranch a 300-acre tract of land, and has set this to grafted walnuts from the best stock obtainable, is now installing an irrigating system over the acreage. Twenty-three thousand feet of Kiln-Cushing cement pipe is necessary for the system, as well as 700 hydrants, 2200 feet of 12-inch and 13,000 feet of 10-inch pipe is being put in, the remainder being of 8-inch. The water used will come from the East Whittier ditch.

PERSONAL EVENTS.

A son of F. H. Lambert of the Leffingwell ranch lost a portion of the index finger of his right hand on Tuesday. The lad caught the finger in the chain of a bicycle in such a way that it was necessary to amputate the member at the second joint.

Miss Agnes Sargent of this place, accompanied by Misses Esther Andrews of Whittier, and Neva Hockett of Los Angeles, have been the guests of Fullerton friends this past week.

Hotel del Coronado always delightful.

HARVESTING THE GRAPES.

Busy Sight at Santa Fe Springs—Low Prices Being Paid at the Winery. Demand for Table Grapes.

SANTA FE SPRINGS, Sept. 14.—The grape acreage of this section—fully 1200 acres—now presents a busy sight, pickers being engaged in harvesting the crop. An unexpected frost last spring has resulted in most vineyards bearing only small crops. John Baker, whose winery crushes a large proportion of the local crop, says that the vineyard owners estimate their tonnage of grapes at from one-third to one-half the usual output. On his own tract, devoted almost wholly to wine grapes, the crop will not average over one and one-half tons to the acre. In spite of the apparent shortage, the southern wineries have not been willing to pay more than $12 to $15 a ton, f.o.b., preferring rather to crush only a small amount. Table grapes and the choicer portion of the wine grape crop are being taken at good prices for table use, a fact which lightens the gloom for the growers, and helps to bring up very materially the figures on their ledgers, the prices paid, at the vineyard, for the table grapes averaging nearly three times that paid by the wineries.

M'NALLY RANCH BEING PIPED.

The big McNally olive ranch at La Mirada is being piped for irrigation, water for the purpose being obtained from the East Whittier Land and Water Company. This will be brought to the ranch under pressure, in an eight-inch steel main, and piped over the property in ten-inch cement pipe. The cement pipeline, 4000 feet in length, is now being installed by Kiler & Cushing of Whittier, the work to be completed by October 1.

Up to a year or two ago the growing of high-grade olives cheaply enough to insure the proper per cent. of profit for the grower seemed like one of the unsolved problems, but the trees of the McNally ranch settled the matter by presenting their owners with such record-breaking crops that, it is stated, the first good crop practically paid for the entire cost of the ranch. At present the orders for the McNally oil and olives so far outrun the output that buyers have been out looking up the crop from the smaller orchards. This season's crop will be of high grade and of good quantity.

Round trip to San Diego $4.

"POVERTY SOSHUL."

TROPICO, Sept. 14.—There will be fun at the G.A.R. Hall on Glendale avenue Saturday night, when the Methodist Church will give a "Poverty Soshul," in which all must come dressed in the plainest garbs. There also will be a programme of interesting numbers, including the Marple Quartette in songs; Miss Evelena Ayres in vocal solos; George Hancock in his ventriloquial selection, "Aunt Mary;" Mrs. William Harvey, Jr., in selections.

Try a week at Coronado Beach.

GAS FOR FUEL.

The perfect way of cooking, also the easiest way. Costs only 85 cents per M; it is the cheapest.

Figueroa Boulevard Tract

Prices Advance After Today

LAST CHANCE AT THESE PRICES

This is positively the last day of these low prices in this beautiful tract. Ever since the opening day prices have remained 25 to 33 1-3 per cent. lower than inferior properties in the same neighborhood. Every one had a chance to make money and many availed themselves of it. This is the finest tract in Greater Los Angeles. It fronts on the three best streets, via Figueroa, Florence and Hoover. There are three car lines, the Redondo electric via Gardena, the San Pedro Interurban and Moneta avenue line, which will soon be running at a 5-cent fare.

A CONSTANT ANNOYANCE.

Half the nervousness, half the irritability that is so common in everyday life, is really sickness, afld in most cases a condition that accompanies kidney trouble.

It is the work of the kidneys to keep the blood free from uric acid and other poisons, but when the kidneys are sick, and not doing their duty, the uric acid poison permeates the body, and attacks body, brain and nerves. The irritation causes nervousness, irritability, headache, dizzy spells; makes you languid, unfit for work, and inclined to worry over trifles. Besides there is nothing more annoying than a bad back, and backache is the most common sign of kidney trouble. You feel lame and tired in the morning, suffer day and night with a dull aching in the back, and it hurts to stoop or bend or lift.

Keep your temper cool, and get the kidneys well. No person can feel cheerful and healthy if the kidneys are the least bit affected. A few doses of Doan's Kidney Pills, taken in the beginning, will set the kidneys right.

Continued treatment cures even long standing.

Doan's Kidney Pills are for the kidneys only, and contain no poisonous habit-forming drugs. They relieve indigestion and inflammation of the bladder, heal or cure the kidney sores, drive off dangerous uric poisons, dissolve and remove gravel, and purify the body of all watery waste.

Thousands of cures prove the merit of Doan's Kidney Pills. Here is a case at home:

A LOS ANGELES CASE.

H. Scott of 227 East Adams St., Los Angeles, Calif., says: "I had the kidneys so bad I could hardly get up or down. For a long time I noticed Doan's Kidney Pills advertised and got a box at Doan's drug store, corner of Spring and Fourth streets. I used them, got better, and have always felt since that I could not say too much in favor of Doan's Kidney Pills the credit is due. I do believe this a fine medicine for the kidneys."

NEWS REPORTS

MORE GOOD LAND FOR HOMES.

SANTA ANA ACRES IN HANDS OF SUBDIVISIONITES.

Telephone Company Starts on New and Expensive Permanent Improvements—Nearly Fatal Accident to an Old Lady—Young Couple Refused Marriage License.

SANTA ANA, Sept. 14.—J. T. Raitt's tract adjoining the city limits of Santa Ana on the southwest, has been sold and will be subdivided into five and ten-acre tracts. The purchaser is Horace J. Pullen, the well-known real estate and mining man of Los Angeles. Pullen is backed in the deal by a number of real estate men of this city, and the sale of the small ranches will be pushed by them and local real estate men who will be given the handling of the property from this end. The consideration is close to $100,000. The tract contains 400 acres.

The land is excellent and the sale of the land will carry with each acre a share in a water system covering the whole of the 400 acres. At the present time there is a pumping plant in operation on the tract which produces 125 inches of water and is distributed over the ranch in cement pipes. Every tract in the new subdivision will be supplied with water.

The tract is one and seven-eighths miles from the center of Santa Ana and a half mile from the Pacific Electric line. Within the last year there have been no less than thirty houses built within half a mile of the tract.

That the land is excellent is a well-known fact. Ranchers adjoining Raitt's tract have been producing fine fruits, vegetables and berries and it is certain that a five-acre tract will furnish a family a living. A. J. Timmons, who owns land adjoining, realized $600 this year off a two-acre cantaloupe patch. A six-acre ranch close by has sold twice in the last year, the first time for $2500 and the second time for $4500.

Raitt does not intend to quit that section of the county. He owned a twenty-acre piece to the north of the tract, he sold and today he closed a deal for forty acres more, making him a good sixty acres. D. H. Thomas and Raitt owned the forty together and Raitt bought Thomas's interest.

The sale of Raitt's ranch will mean the making of homes for probably forty families, possibly more. The ranch will produce all kinds of farm truck and fruits. Raitt has used it for dairy purposes only.

NEARLY FATAL ACCIDENT.

Apparent carelessness on the part of Pacific Electric Company employés came near resulting in a fatal accident to Mrs. Kennedy, an aged lady, who fell on the sidewalk at the corner of Bush and Fifth streets this morning. Mrs. Kennedy is 71 years of age, and had been downtown from her home on Seventeenth street on an errand, and had started to return, she was going east on Fifth street and near the crossing on Bush struck her toe on a large slab of cement which had been left on the sidewalk by the workmen when they set a pole in the corner.

The lady fell headlong into the gutter, badly bruising her nose and right shoulder and cutting a gash in her left knee. Mr. L. H. Hill of the Hub Department Store and Mrs. Kerr, who lives near by saw her fall and went to the woman's assistance. When picked up she was in an unconscious condition and the blood was streaming from her nose. She was carried into a nearby house and Dr. J. I. Clark was summoned to attend her. After resting for a time Mrs. Kennedy was able to proceed to her home. She is the mother of Mrs. Kate Kennedy Roberts, of East Seventeenth street, and that lady and her husband were at the Kansas picnic at the county park when the accident occurred.

Mrs. Kennedy has been unfortunate during the past year in the way of accidents. On her way out here from the East, several months ago, to make her home with her daughters, she was in a railroad collision and was removed from the wreck in an unconscious condition. Her fellow-passengers thought that she had been fatally injured, but she revived after a time and in a few days proceeded on her journey.

EXTENDING TELEPHONE LINES.

With unbounded faith in the future growth of Orange county, the Home Telephone and Telegraph Company will commence next Monday morning the construction of an elaborate system of lines covering this county from the north on the south to the county line on the north. A force of seventy-five men will be at work Monday digging holes and putting up poles. As soon as the poles are up the wires will be strung. Within a short time a switchboard will be installed in the Santa Ana office that will have double the capacity of the present switchboard.

Manager Babb will have charge of the construction. The work will commence simultaneously in Fullerton, Anaheim and Santa Ana, and is to be pushed with all possible speed. The poles will be up within three months and within ninety days Fullerton and Anaheim will have an exchange. Among the towns to be covered will be Garden Grove, Tustin, Fullerton, Buena Park, Placentia.

UNUSUAL MARRIAGE LICENSE.

A couple of young people who came over yesterday afternoon for the purpose of getting married, returned to their home at the seaport burg somewhat disappointed. They were both of age and evidently in their haste to get the document, entitling them to appear before a minister or a justice of the peace to have the nuptial knot tied, forgot to bring one of their parents with them. The mother of the young man was on hand all right to give her consent but the young man, but neither of the parents of the girl were present, nor had they their written permission. Deputy County Clerk Williams hated to do it, but without the consent of the parents he would have given them so much advice to send the woebegone pair without the piece of parchment they would have given them so much desired.

MISCELLANEOUS NEWS NOTES.

A felony charge which was sworn out by Edward Fitzpatrick against Mr. Kritzer, was heard before Justice of the Peace Ed. Smithwick this morning. After hearing the testimony Deputy Dist.-Atty. H. G. Wylie conducted the prosecution, and for a dismissal of the action for a dismissal of the case Mr. Kritzer was released. The participants in the little scrap were all on the western end of the county and the witnesses representing both sides of the case were present. Santa Anans have possession of the court house for the cañon today. It is the day of their regular annual picnic and sunflower badges are the order of the day up under the big live oaks of the cañon. Many of them went through in private rigs decorated with

MORE GOOD LAND FOR HOMES.

SANTA ANA ACRES IN HANDS OF SUBDIVISIONITES.

Telephone Company Starts on New and Expensive Permanent Improvements—Nearly Fatal Accident to an Old Lady—Young Couple Refused Marriage License.

SANTA ANA, Sept. 14.—J. T. Raitt's tract adjoining the city limits of Santa Ana on the southwest, has been sold and will be subdivided into five and ten-acre tracts. The purchaser is Spruce J. Pullen, the well-known real estate and mining man of Los Angeles. Pullen is backed in the deal by a number of real estate men of this city, and the sale of the small tracts will be pushed by them and local real estate men who will be given the handling of the property from this end. The consideration is said to be $190,000. The tract contains 400 acres.

The land is excellent and the sale of the land will carry with each acre a share in a water system covering the whole of the 400 acres. At the present time there is a pumping plant in operation on the tract which produces 125 inches of water and is distributed over the ranch in cement pipes. Every tract in the new subdivision will be supplied with water. The tract is one and seven-eighths miles from the center of Santa Ana and a half mile from the Pacific Electric line. Within the last year there have been no less than thirty houses built within half a mile of the tract. That the land is excellent is a well-known fact. Ranchers adjoining the tract have been producing fine crops of vegetables and berries and it is said that a five-acre tract will support a family a living. A. J. Fleming, who owns land adjoining, raised $90 this year off a two-acre potato patch. A six-acre ranch has been sold twice in the last year, the first time for $3500 and the second time for $4500.

Raitt does not intend to quit that section of the county. He owned a seventy-acre piece to the north of the tract he has sold and today he closed a deal for forty acres more, making a good sixty acres. D. H. Thomas has also owned the forty together with Thomas's interest. The sale of Raitt's ranch will mean the building of homes for probably two hundred, possibly more. The tract will produce all kinds of farm and orchard fruits. Raitt has used it for stock purposes only.

EARLY FATAL ACCIDENT.

Some carelessness on the part of the Pacific Electric Company employés is now resulting in a fatal accident to Mrs. Kennedy, an aged lady who fell on the sidewalk at the corner of Bush and Fifth streets this morning. Mrs. Kennedy is 71 years of age and had been downtown visiting at her home on Seventeenth street in this city, and had started to return. As she was going east on Fifth street near the crossing on Bush street she tripped on a large slab of cement that had been left on the sidewalk by workmen when they set the curb on the corner.

She fell headlong into the gutter, bruising her nose and right eye and cutting a gash in her head. Mr. L. H. Hill of the Department Store and Mrs. Kerr, who were near by saw her fall and went to the woman's assistance. When found she was in an unconscious condition and the blood was streaming from her nose. She was carried into a nearby house and Dr. J. I. Hall was summoned to attend her. She was unable for a time Mrs. Kennedy to proceed to her home, so the mother of Mrs. Kate Kennedy, of East Seventeenth street, and that lady and her husband went to the Kansas picnic at the park when the accident occurred.

Mrs. Kennedy has been unfortunate during the past year in the way of accidents. On her way out here from the east, several months ago, to be home with her daughters, she was in a railroad collision and escaped from the wreck in an unharmed condition. Her fellow-passengers thought that she had been killed, but she revived after a while and in a few days proceeded on her journey.

EXTENDING TELEPHONE LINES.

Showing unbounded faith in the future prosperity of Orange county, the Home Telephone and Telegraph Company announces that next Monday morning will see the commencement of an elaborate system of improvements covering this county from the county line on the south to the county line on the north. A force of seventy-five men will be at work Monday digging holes and putting up poles. As soon as these are up the wires will be strung. Within a short time a new office will be installed in the Hotel Kinney building, an office that will have double the capacity of the present switchboard.

Manager Rabb will have charge of the construction. The work will be done simultaneously in Fullerton and Santa Ana, and will be rushed with all possible speed. The wires will be up within three months, within ninety days Fullerton and Anaheim will have an exchange, and the towns to be covered by the system, Garden Grove, Tustin, Fullerton, Buena Park, etc.

ISSUES MARRIAGE LICENSE.

A couple of young people who came to this city afternoon for the purpose of getting married, returned to their home at the seaport burg somewhat disappointed. They were both of age, and evidently in their haste to get the document, entitling them to appear before a minister or a justice of the peace to have the nuptial knot tied, forgot to bring one of their parents with them.

The father of the young man was willing and right to give her consent to the match, but neither of the parents of the bride were present, nor had they given their written permission. Deputy Clerk Hatfield hated to do it, but he could not issue the woebegone pair the piece of parchment which would have given them so much happiness.

MISCHIEVOUS NEWS NOTES.

The complaint charge which was sworn to by Mrs. Fitzpatrick against Mrs. Kritzer was heard before Justice of the Peace Ed. Smithwick this morning. After hearing the testimony Dist.-Atty. H. G. Fisher conducted the prosecution, asked for a dismissal of the case. Mrs. Kritzer was released. There is in the little scrap on the north end of the county a number of witnesses representing both sides of the case were present. The women have possession of the cañon today. It is one of their regular annual picnicking badges are the order. Up under the big live oaks of them went through their rigs decorated with sunflowers this morning, from different parts of the county and a hay wagonload and a bus full went from town at an early hour.

The day will be devoted to a general good time in getting better acquainted. Speeches will be made by former residents of the Sunflower State and a big basket dinner is to be served at noon.

The three wanderers picked up by Nightwatchman Baker in the old ball park Wednesday night, who were having a big time over a jug of wine, were tried before Justice of the Peace Smithwick yesterday afternoon. They had no visible means of support and had disturbed the peace of a whole neighborhood. The judge said they could board for the next ten days at the County Jail and their meals would not cost them anything.

The country east of Santa Ana was visited by a small shower of rain at about 8 o'clock this morning. At the ranch house on the San Joaquin it was sufficient to make the ground muddy and people driving into town from the vicinity of Tustin, got out their storm curtains and made use of their umbrellas.

Hotel del Coronado open entire year.

ANAHEIM KANSANS PICNIC.

Shipments of Chiles Show Large Increase—Personal Notes About Events in Town.

ANAHEIM, Sept. 14.—A large per cent. of our population are today in attendance at the Kansas picnic at the county park in Santiago Cañon. Postmaster Duckworth, himself a Kansan, is one of the active managers. Orange county claims a thousand persons within her borders who are natives or former residents of the Sunflower State.

ANAHEIM NEWS POINTS.

Miss Ida Gloege of Anaheim and James Love of Los Angeles were married Wednesday.

Mrs. Strodhoff entertained the Ladies' Euchre Club Thursday at her home.

Mrs. Max Neblung entertained at a whist party last evening at her home.

Mrs. Olga Zens, cashier of the First National Bank, left Thursday for San Francisco, for a visit with her brother.

Anton Hennemeyer has sold his restaurant and has gone to spend the winter at his old home in Chicago.

A car and a half of chili pods have been shipped daily this week, as against a car a day last week.

REPUBLICAN CAMPAIGN.

Nomination of Hyatt for State Superintendent of Schools Creates Enthusiasm.

RIVERSIDE, Sept. 14.—In spite of the foolish efforts of on overzealous friend, Raymond Cree of Menifee was selected by the Republican Central Committee to succeed Edward Hyatt as County Superintendent of Schools. There was almost a full membership present at the session and the Republican campaign was mapped out. The nomination of Edward Hyatt for State Superintendent of Schools serves to enthuse the Republicans of this county. The apathy of the campaign previous to the nomination is succeeded by a strong purpose to roll up the biggest Republican majority ever recorded in the banner county of the State. During the past week men employed by the Central Committee have scoured the country and unregistered voters have been drummed into the County Clerk's office and the condition reported in The Times some weeks ago is improving.

There was a strong fight made against Cree for County School Superintendent. While he and Prof. Hyatt were attending the State Republican Convention an ill-advised friend thought to help his cause by writing to each man on the General Committee a letter calling upon him to vote for Cree because he was the choice of Prof. Hyatt, and inclosing a proxy made out to Hyatt, who is not a member of the committee. This was hotly resented. Friends of Cree explained this morning that all this was done in his absence and without his knowledge. On the first ballot Raymond Cree had 35 votes, Edgar T. Baughn of Riverside, 21; Holton Webb of Riverside, 6, and P. G. Ward of San Jacinto, 8. The second ballot resulted in 36 votes for Cree, a bare majority.

BRAVES GATHER FOR FEAST.

Saboba Indians Are Making Great Preparations for Their Annual Gathering.

SAN JACINTO, Sept. 14.—The Saboba Indians are making great preparations for their annual fiesta which will begin at midnight Saturday, Sunday being the anniversary of Mexican independence. This annual event is a time of great revelry. Dancing and all kinds of gambling are continued throughout the entire night and only with the rising of the sun will the doughty braves relinquish their games for food and rest. Many strange rituals are observed and every member of the tribe makes it a point to be present at this time. Many Indians are arriving daily, some coming from far out on the desert, others from Tulare county, some of them even making the entire journey on foot.

SAN JACINTO NOTES.

The cannery has closed after a successful season. In addition to the 200 tons of apricots, close to 400 tons of peaches have been handled and the large warehouse in which the cans of fruit are stored is packed full to the roof. A large force will be kept busy for some time, labeling, packing and shipping this fruit. A small force will also be kept busy for some time, cutting the late peaches for drying.

Evangelist E. A. Bulgin is holding revival services here and is attracting large audiences; 800 people heard him Sunday night.

Since the cool weather set in the local hotels have been taxed to their capacity to care for the transient people.

Both ocean and bay at Coronado.

FINE YACHT IN PORT.

SANTA BARBARA, Sept. 14.—The beautiful pleasure yacht Anemone, one of the largest and swiftest in Pacific waters, is anchored at this port. She is in charge of her owner, Charles L. Tutt, who is on a pleasure cruise down the coast after his return from Honolulu. The Anemone won the second prize in the trans-Pacific yacht race to Honolulu a few weeks ago. In the last nine months this trim little ship has sailed more than 27,000 miles.

Three officials of the Southern Pacific Railroad were in the city yesterday on a tour of inspection over the Coast Line. The party was headed by W. S. Palmer, general superintendent of the northern district, who was accompanied by E. A. Anthony, assistant superintendent of the Coast Division, and R. M. Drake, resident engineer in charge of maintenance of way, and bridge construction. Mr. Anthony is temporarily in charge of the Coast Division during the absence of Superintendent Willier.

Perfect fall weather at Coronado.

CARLOAD OF HAMS SAVED STARVING.

TWO HUNDRED STORM-TIED PEOPLE ATE UP THE TOWN.

Unusual Experience of the Camp of Goffs—A Santa Fe Porter the Nemesis That Saved the Day—Arrested for Illegal Liquor Selling a Second Time.

SAN BERNARDINO, Sept. 14.—Nearly 200 storm-tied people at Goffs were saved from the pangs of hunger by a free distribution of hams. The story is brought here by arriving passengers, who were among the stranded ones, County Surveyor M. L. Cook being in the number.

The exciting copper discoveries at Greenwater, in Inyo county, had led to a rush to that section to attract miners from Needles, Barstow and other points throughout this county, and almost 200 of these rushers were at Goffs when storms wiped out the dagon roads, and completely tied up the Barnwell branch of the Santa Fe.

Goffs was provisioned only sufficiently to take care of a floating population, and, when called upon to provide steadily for two weeks for nearly 200 hungry miners, the food supply of the little desert community soon gave evidence of distress. It was at this point that a Santa Fé porter came to the assistance of the hungering population, and, finding a carload of hams, soon had this stock distributed among the miners and passengers. For days the community fed principally on this meat.

When the roads were open to travel every available vehicle in the locality was pressed into service to convey passengers from the place, but teams were limited, and it required a number of days to reduce the population to normal. In the meantime, supplies were being brought in by freight wagons. Manvel, though flooded by the continual storms, escaped and damage, the floods of two seasons ago having cut a channel through the town, which served as a drain.

STRANGE CULT INCORPORATES.

The Mystic Temple of Unity, said to be a cross between Christian Science, Spiritualism and Buddhism, incorporated here this afternoon, with Rev. Le Birdie Shipp as high preiate.

Its stated objects are mutual improvement of spiritual welfare of members, light from spirit world, soul development, proofs of continuity of life beyond the grave and a deeper and better knowledge of the Bible.

Mrs. Shipp claims to be a native of India. She is a woman of dark features, who draws no salary from her prelateship, but earns a living by divining the past, present and future of her callers. This afternoon she curtly refused to be interviewed, declaring she didn't want any flourishes from reporters.

G. M. Miller is president, Mrs. F. H. Baillie vice-president, Capt. C. M. Tyler treasurer and Mrs. J. M. Upton secretary.

SLEEPLESS, REASON IN DANGER.

Harry Daniels has not slept for eight days and nights and, as a result, he has been taken to the Southern California State Hospital for the Insane at Patton. Insanity experts give little hope for his ultimate recovery. Two weeks ago the young man's father died. The two were greatly attached to each other, and it is believed that grief over his parent's death has led to his present condition. Daniels grew violent yesterday, and was disarmed, having taken a knife from his pocket and threatened to kill himself, and also threatened those about him.

SOLD LIQUOR ILLEGALLY.

José Gambles pleaded guilty before Justice Melden at Cucamonga this morning to a charge of selling liquor without a license. Gambles is a hired man at the Lafourcade winery. Sheriff Ralphs detailed a deputy to investigate reports that Lafourcade was carrying on an illicit liquor trade, and the deputy found it an easy matter to buy ten bottles of beer in the morning of Wednesday, and five more bottles in the afternoon. Lafourcade has been arrested before on a similar charge, each time being fined heavily and promising never to indulge in the illegal business again.

SAN BERNARDINO BRIEFS.

The South Mount Vernon Improvement Club met this evening in the Canadian Clubhouse. Mrs. H. Goodcell, of the Woman's Club, delivered an address.

The Civic Section of the Woman's Club, bending to popular opinion, has changed the name of the new park from "California" to "Meadowbrook." Following the announcement that the name had been changed, several organizations promised to make a special effort to beautify the new breathing grounds.

The Stillman ranch, comprising 280 acres, in the eastern end of this valley, was sold today by the board of trustees of Stanford University for $35,000.

The county Prohibition convention will meet in this city September 21. J. E. Blanchard, candidate for Governor on the Prohibition ticket, and Rev. C. J. Hall of Los Angeles will address the convention.

Marconi Securities

Installments Small Monthly Payments

Marconi Wireless Telegraphy Will Revolutionize the World.

The best invention ever offered the public. We say this without fear of contradiction. Don't wait until it is too late. This is a chance of a lifetime. It is advancing every day. We have some inside information that we know that will make it advance still more rapidly. We have an option on some stock that was purchased when it was very low. We can sell you this stock while it lasts very reasonable. In fact, we consider that it is cheaper today in proportion than it was one year ago. There is not much more of this stock left. When the company made up its books the 1st of January, 1906, they had only 29,000 shares left on its books. We do not think that it will take long to dispose of this. Our method of disposing of this stock gives the party with small means an equal chance. Remember that as soon as you make your first payment, from that day you have the benefits of all advances. English Marconi sold recently for over 300 per cent. advance and you cannot get any at that. We have a much larger territory. We can sell you either the American or Canadian. See us before buying elsewhere. CUT THIS OUT AND SEND IT TO US. Call or write for prospectus and terms.

E. J. OWENS & CO., 728-729 Bryson Block, Los Angeles, Cal.

As the tea kettle was the beginning of the steam engine, so the ordinary soda cracker was merely the first step in the development of the perfect world food Uneeda Biscuit.

A food that gives to the worker more energy of mind and muscle—that gives to the child the sustenance upon which to grow robust—that gives to the invalid the nourishment on which to regain the vigor of good health.

Yesterday's Forecast and Report.

U. S. WEATHER BUREAU, Los Angeles, Sept. 14.—[Reported by A. B. Wollaber, Local Forecaster.] At 5 o'clock a.m. the thermometer registered 61 deg.; at 5 p.m., 86 deg. Relative humidity, 5 a.m., 88 per cent.; 5 p.m., 15 per cent. Wind, 5 a.m., southeast, velocity 1 mile; 5 p.m., west, velocity 12 miles. Maximum temperature, 92 deg.; minimum, 60 deg.

Weather Conditions.—The trough of low pressure which extended from British Columbia southward to Mexico yesterday morning has developed into a well-defined storm area and is now central over Wyoming. This storm has caused a continuation of rainy weather in the Northwest, and showers in Utah, Colorado, Arizona, Western Texas and Oklahoma. The lower lake disturbance has moved to sea off the New England coast, and a high area now occupies the States east of the Mississippi River. But little rain has fallen in that section during the last twenty-four hours. The indications are for cloudy and occasionally threatening weather in Los Angeles and vicinity tonight and early Saturday, the weather becoming fair Saturday afternoon.

Forecasts.—Local forecast for Los Angeles and vicinity: Cloudy tonight; Saturday, fair, with clouds in the morning; westerly winds.

SAN FRANCISCO, Sept. 14.—Weather forecast:

San Francisco and vicinity: Cloudy, unsettled weather Saturday; possibly showers; fresh southwest winds.

Sacramento Valley: Showers Saturday; light north wind.

San Joaquin Valley: Cloudy, possibly showers, Saturday light north wind.

Los Angeles and vicinity: Cloudy Saturday; possibly showers; fresh south wind.

Arizona: Fair today and Saturday, except showers and cooler weather in northern portion tonight.

LOCAL PRODUCE MARKET.

Fruits and vegetables were inclined to be dull and featureless on yesterday's produce market.

Fancy lemons were selling at $.00 per box; standards, 3.00; choice, 4.00; cull lemons, 2.00; Valencia oranges bring 2.50; navels, 2.00. Fancy strawberries met a keen request at 50c, and extra fancy sold at 8. Local Bartlett pears sold steady at $ per lb. Watermelons ranged from 40@1.25. Cantaloupes were in oversupply at 1.00@1.25; Muscat were easy to 50@75.

The feature of the market was the advance in the price of eggs. Local ranch were raised to 25; fresh eastern, 22; northern candled, 20; California eggs are quoted at 40c in San Francisco, and local dealers say the local prices should be more in harmony with the quotations in the North. No complaints were found regarding the higher prices, for all the dealers seemed perfectly satisfied at the Egg Committee's decision.

Yesterday morning's exchange session was the liveliest held within the last six months, and the sales made were as follows: Two cases of water-white honey; 10 sacks of fancy sweet potatoes; 5 cases of northern cheese; 5 cases of local ranch candied eggs; 1 cases of Limburger cheese.

Northern local cheese is now quoted at 17, and singles at 18@19½. Tomatoes glutted the vegetable market and found slow sale at 25 per box. Green corn weakened to 75@1.00. The general undertone of the vegetable market was one of weakness.

The lobster season opens today. Fish was scarce.

The receipts of produce as reported for yesterday's exchange were as follows: Eggs, 134 cases; butter, 15,677 lbs.; cheese, local, 1686 lbs.; potatoes, 2963 sacks; onions, 12 sacks; beans, 45 sacks; sweet potatoes, 126 sacks.

Prices Current.

Following are the jobbing prices in the Los Angeles Produce Market:

EGGS—Candled, fresh California ranch, 25; strictly fresh eastern eggs, 22; eastern, storage, selected, 21; northern, candled, 20.

MOLASSES AND SYRUPS—Wonsa's Jamaica molasses, 2 doz. 5-lb. cans, 2.85; 2 doz. 2½ lbs., 2.60; 1 doz. 5 lbs., 2.60; ½ doz. 10 lbs. 2.40; fancy sorghum, 5-lb. cans, 3.45; 2½ lbs., 2.30; 2 lbs. 1.10; 10 lbs., 2.90. Woman's Exchange, which has been canvassed as an indirect method of renewing supplies available to the New York demand. The late flurry in money was attributed to the preparation for some large dividend payments due tomorrow, the principal of which is the $6,000,000 payable to Standard Oil stockholders. This proved a restraint on any sympathetic response to the buoyant upshot in Reading, and made an irregular closing. Bonds were heavy. Total sales, par value, $2,066,000. United States bonds were all unchanged on call.

These dresses are for girls 8, 10 and 12 years old; made of good quality chambray and ginghams; Russian blouse style; trimmed with braids and contrasting self materials; good, serviceable dresses worth $3.50.

SLUGGER GANG IS APPOINTED.

Defeated Carpenters' Union Aims at Violence.

Bosses Trying to "Square Themselves" Now.

Contractors Ready to Meet Any Onslaught.

A "vigilance" or "slugging" committee of fifteen members of Carpenters' Local Union No. 158 has been appointed with the purpose of beginning a campaign of violence and outlawry against the contractors of Los Angeles, and against the free workingmen.

The committee is to work in conjunction with the four overpaid jawsmiths or business agents of the union. They will immediately begin, and make bold their intention to intimidate and assault non-union men.

This action was taken at the instigation of the sleek, overfed walking delegates who saw in the complete fizzle of the recent "strike" against the contractors the fading of their "influoence" over the deluded members of the totem organization.

With every contractor in the city working a full force of men, and all standing together in their determination to uphold the open shop and safeguard the industrial peace of Los Angeles, the agitators daily see the members of their union return to work and turn down the organization. There is but a mere handful of members left at headquarters of the Carpenters' Union; not enough to pay the princely wages of the loud-mouthed loafers who do the bossing and trouble-making. Something had to be done, and this resort to outlawry was decided upon as the most spectacular, and more in accordance with the anarchistic tendencies of the gang.

AN OUTLAW MEETING.

A meeting was called—and a fine meeting it was! With all the secrecy of a band of robbers bent on dividing their loot, the Carpenters' Union held its conclave in its quarters on San Pedro street.

The meeting was poorly attended. There was a great fear upon the members and walking delegates that The Times would have a reporter on hand to get the facts, as usual. Spies and guards were scattered about the building. On the roof four men crouched for two long hours as a precaution against a Times reporter eavesdropping. At the front door of the hall a brawny fellow lolled and viciously examined every one not known personally to him. At the windows members were stationed, and not one was permitted to be open. The proceedings were conducted as quietly as possible, and no names were mentioned above a whisper.

Reports from the various agents were read, and the discouraging fact made known that every contractor in the city is working a full complement of men, and that but a mere handful of the union's members still remain on their impotent strike. These fellows had for the most part been unable to get back, and rather enjoyed their idleness.

DISSATISFIED WITH BOSSES.

Cries of dissatisfaction against the conduct of the "strike" by the paid jawsmiths arose in the hall. They had promised the members that if they would vote for a strike it would be all they needed to do. Everything else would be easy. The bragging scoundrels had boasted of their complete understanding of the situation the contractors were placed in. They had said that a strike just then would get them everything they wanted.

These things were hurled in the teeth of the paid braggards, and they determined to make a last grand-stand play to regain the confidence of their dupes, and came out with the proposition to appoint a slugging committee of fifteen of the strongest members, to go from job to job where non-union carpenters are employed, and, if possible, have the men leave the work, and if they will not do so, to use force and drag them off the jobs.

It was darkly hinted that if the free workingmen prove too obdurate that they can be "fixed to that they will not feel like taking 'honest' men's jobs for some time." These anarchistic words took with the poor dupes, and they voted to appoint the committee. The walking delegates had themselves declared members of the committee ex-officio.

The meeting decided to continue the "marked-down" initiation fee into the union until October 8. This, they argued, would give the slugging committee time to either maim the free workingmen or force them into the organization.

TURN-DOWN BY "BRETHREN."

Shortly after the late "strike" was inaugurated, the late Carpenters' Union sought the aid of the Carpenters' Union in San Diego. It asked the latter union to boycott the work done by Carl Leonardt in San Diego and to lend its moral and financial support to the "strike" here. These overtures were refused. Some of the members of the San Diego union even came here and took the places of the striking local totemites.

The union of San Diego, hurled back the accusation that members of the striking Carpenters' Union of this city had gone to San Diego and had taken jobs that were considered the property of the San Diego organization.

This turn-down was but the beginning of other and more harmful rejections of aid. The carpenters' organization sought out the aid first of the Bricklayers and then the Plasterers' unions. They asked them to go out on a sympathetic strike. They were given the "retort discourteous" and the members of the latter two organizations continued at their jobs.

Then, as a last resort, the organization that saw its blatantly-heralded "great labor movement" dwindling into nothingness, turned to its acknowledged opponent, the Amalgamated Carpenters Union, that is opposed to the Brotherhood of Carpenters and Joiners of America, with which local No. 158 is affiliated.

WON'T STAND FOR IT.

They sought a sympathetic strike, at least to the extent of the members of the amalgamated organization refusing to work with other than members of Local No. 158. These overtures were rejected completely. The amalgamated was asked plainly to aid in establishing the closed shop in Los Angeles. The reply was significant of at least a better understanding of the principles that obtain in the industries of this city. These words were sent back:

"We cannot afford to give the assistance of this organization to your union in its attempt to establish the closed shop in Los Angeles. The reason is that you cannot succeed. Los Angeles will never stand for the closed shop."

These words added to the discouragement of the poor dupes at the unions' meeting, and they were loud in their lamentations for their foolish action in quitting good, paying jobs.

A large element of the members made a decided kick against the failure of the union bosses to pay the much-boasted-of benefits to the strikers. Some of the men present who had not worked for over a week said that they had not received one cent, and the statement was plainly made that the boasted treasury of the Carpenters' Union is depleted.

The meeting was in a blue funk when the bosses played their last trump card with the appointment of the committee of sluggers. Upon these fellows they pin their expectations of regaining their lost prestige—if they ever had any. They must do something or their nice, fat jobs will be worthless.

CONTRACTORS READY.

The contractors yesterday were loth to believe the information that the carpenters' organization has appointed a committee of sluggers to use violence in keeping the free workingmen from earning their pay.

The statement was made, however, by several of the larger contractors that they will treat the gang the same as they would a party of sneak thieves or robbers, and if the sluggers set foot upon their premises will have them arrested for trespass.

The contractors say that their agreement to stand for the open shop holds good always, and they will await some decided move from the Carpenters' Union before taking steps themselves. The first move made by the sluggers to interfere with workingmen in the discharge of their duties will mean prompt and drastic action by the contractors. They are ready for anything that may come up.

Today's Mining Review Contains:

"The Santo Domingo Mine," illustrated.

MME. DE BLUMENTHAL HERE.

Claims She Has no News of Missing Husband, but Does Not Appear Deeply Distressed.

Mme. De Blumenthal is in Los Angeles at the home of friends, where she will stay until the excitement occasioned by the disappearance of her husband, Capt. C. P. de Blumenthal, subsides. This information was given to The Times last night by Dr. J. C. Ridebaugh of Pasadena, a friend of the family.

This first definite news of the whereabouts of the Russian Countess sheds a new light on the mysterious messages received in Los Angeles concerning the probable fate of the "Little Father" of the Molokane. There are those who believe De Blumenthal has purposely dropped from sight to avoid inquisitive and troublesome creditors, who have refused to be satisfied longer with glowing promises of money to accrue from large rentals.

The same anxious inquiries were made yesterday concerning news from De Blumenthal by Russians whose money he handled. They haunted his office in the Roeder building on Spring street during the day.

For ten days Mme. De Blumenthal has had no word from her missing husband, she claims, but she is said to show no signs of deep distress or anxiety.

Many Molokane have a hatred in their hearts for the man who persuaded them to settle behind the hills of Ensenada. Colonists who were located on barren hillsides and who are compelled, according to the story of local Russians, to pay the same price as the families which settled on the fertile valley lands, hold a grudge against the "Little Father."

Ten years ago De Blumenthal and his wife came to Los Angeles. He is an educated man and declared to friends he had been driven from his native land by persecution. For several years he was military instructor at Harvard School in this city. He is a graduate of two Russian universities. He lately gained prominence as promoter of a Russian colonization scheme, and persuaded hundreds of his countrymen to follow him into Mexico.

Anxious to avoid the pointed questions of creditors and interviewers, Mme. De Blumenthal has chosen to remain in hiding. She has declared she will talk to no one until she hears definite news from her husband.

At the residence of Mrs. Charlotte Wills, where she has spent much time, it was stated last night that the interesting Russian noblewoman is in Los Angeles, and has no intention of going to seek her husband.

CLEVER GIRL RIDER THROWN.

Miss Marguerite Hogan Seriously Injured Yesterday Morning, but Expected to Recover.

Miss Marguerite Hogan, the daughter of Daniel Hogan, proprietor of the Westlake and Alexandria Stables, was seriously injured yesterday morning at 9 o'clock by falling from her horse. Miss Hogan is a remarkably clever horsewoman, and was entrusted with one of the most spirited animals in the Alexandria Stables for her regular morning ride. For some unknown reason the horse became frightened and ran away, getting entirely out of the control of Miss Hogan, who nevertheless managed to keep her seat without difficulty.

The animal was going at mad speed when it reached the corner of Twelfth and Hoover streets, and there it suddenly made a sharp turn across the cement pavement. When the iron shoes came into swift contact with the smooth, hard cement, the horse slipped, and the plucky rider was thrown full force against the pavement. She flew clear of her mount, and it is not thought that her injuries will prove fatal, although she did not regain consciousness until late in the afternoon.

Miss Hogan is one of the best riders of her age in the State, and the exhibition of fearless horseback riding given by this fifteen-year-old girl at the races at Agricultural Park last July was the most thrilling feature of the event.

OCCIDENTAL STUDENT RALLY.

The first student rally of the year was held last night at Occidental College under the auspices of the Y.M.C.A. It was given in honor of the new students, who were introduced to the old students and were made to feel at home. After every one had become acquainted, the crowd adjourned to the athletic field, where a big bon fire was started. After refreshments were served, the students repaired to the college chapel. They were addressed by students representing the different college activities. Coach Merrill spoke on "College Athletics" and created great enthusiasm among the new students. President Baer spoke on "The Importance of Y.M.C.A. Work," and urged the new students to become active members at once of the college branch of the association. Many of the new men signed up, and the association is assured of a successful year.

Your Druggist Will Tell You

Murine Eye Remedy Cures Eyes, Makes Weak Eyes Strong, Soothes Eye Pain. Doesn't Smart. Sells for 50c.

Colonist Rates.

The Southern Pacific will sell until October 31, 1906, colonist tickets from the East to California, at greatly reduced rates. From Chicago the rate is $33; Omaha, $25; New Orleans, $30; St. Louis, $30, and from points all over the country on a similar basis. SLOPE. Last survivor of battle between Monitor and Merrimac at Fort Stratcoom, Wash. University class engages in entertainment exercises postponement of the earthquake. Lieutenant, who discovered the Northwest passage, is given an ovation at Seattle.

Part IV.
1 Likelihood of any heavy rain tonight.
1 The cruiser Des Moines in harbor at 8 o'clock this morning; her sister boat, the Chicago, close to the office of Newport, and took a peek at Dixie, which brought Guantanamo and arrived at sunset.
1 The Dixie anchored in the harbor of the Maine.
1 The salute to the warships drew a great part of the city to Havana to the waterfront.
1 OFFICIALS CALLED.
1 Capt. Culver of the cruiser Chicago, the United States cruiser Mr. Sleeper, paid an official visit to President Palma, who returned the visit for reason for immediate departure from the city, though he could not be found definitively.
1 President Palma declares that revolution had come as a surprise, especially as the country is in a phenomenal prosperity. Advices from the national treasury are devoted to public works and preparations for war.
1 The American officers dined last night with the Secretary of State, Señor Fonts y Steger.
1 PLANS FOR PEACE.
1 Plans for a peace conference are pending, but the prospects are more than yesterday, on account of last night's fight between Colonel Rodriguez, commander of the Rural Guards, and rebels supporting the cause of the force of Gen. Loyola, who had sent emissaries to Capt. Colwell of the Detroit to attempt to make a settlement.
1 RODRIGUEZ BEATS.
1 The conflict occurred between Wajay and Marianao. Rodriguez was compelled to retire. Many of his men had been killed and fifteen wounded, according to the rebel account.
1 Col. Arrencibia, for the rebels, said that the Rural Guards had left 60 dead on the field, and also 200 prisoners.
1 A body of government troops through Vendado today, and are going to renew the attack.
1 FOREIGNERS WITHOUT.
1 Foreigners owning property here have been advised by American consulars here that they will have to address and no claim against the
